General Information

Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.
Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.
For illustrative purposes, some images may show vehicles with European Specification.

Revision History

Date	Description
07/21/2021	Foot Activated Trunk Release moved to standalone option and blocked from ordering due to semi-conductor shortage
07/20/2021	Initial publication.

What's New

Overview

The C-Class is the best-selling Mercedes-Benz model series of the last ten years. Our new mid-size sedan has everything it takes to continue this success: sporty exterior, futuristic interior, with next generation MBUX and driving assistance systems that can support the driver even better. The standard equipment has also been elevated to unprecedented levels with additions such as:

- 11.9" Central Media Display
- 10.25" Digital Instrument Cluster
- Fingerprint Sensor
- Panoramic Sunroof
- 18" wheels
- Wireless Smartphone Integration
- Mild-hybrid engine technology

Exterior Design

Standard Styling (P15)

The interplay of the design features results in an extraordinarily expressive vehicle. The lowered suspension ensures the ideal balance between dynamics, comfort and safety.

The numerous exterior extras emphasise the sporty design idiom of your C-Class. The highlights include in particular the radiator grille design with central Mercedes star as well as elegant trim strips in high-sheen aluminium and chrome.

Components:

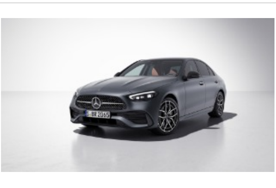
- Radiator grille with integral Mercedes star and a chromed louvre, surround of the radiator grille in chrome
- Dynamic front bumper with centrally positioned trim element in mirror chrome and air inlets with diamond-pattern mesh in grained black
- Rear bumper painted in vehicle colour with centrally positioned trim (wing) in mirror chrome
- Beltline trim strips in polished aluminium
- Side window surrounds in polished aluminium
- Trim on the B-pillars in high-gloss black
- Bar on the rear side windows in high-gloss black
- Side sill panels painted in vehicle colour
- Trunk lid with Mercedes star in mirror chrome and trunk handle trim strip in mirror chrome
- Lowered Comfort suspension (677) lowered by 15 mm, with selective damping system system for optimising handling, damping and stabilisation according to the road surface, more sporty thanks to lowered suspension

Sport Package Styling (DS1)

The expressive bodystyling of the Sport Package lends the exterior of the C-Class a sporty, exclusive touch. As such you can make a clear statement for powerful design. The technical features, including the agile sports suspension with Sports Direct-Steer system, additionally provide you with tangibly more driving fun.

Features:

1. The Sport Package consists of AMG front apron with sporty air intakes and chrome trim element, diffuser-look AMG rear apron with insert in black plus AMG side sill panels
2. Radiator grille with Mercedes-Benz star pattern and integral Mercedes star as well as louvre in matte iridium silver with chrome insert
3. 18-inch AMG 5-spoke light-alloy aero wheels painted in tantalite grey with a high-sheen finish (RSJ)
4. Exhaust system with two visible tailpipe trim elements integrated into the bumper and a sporty engine sound
5. DYNAMIC SELECT (B59) with additional Sport+ drive program



Night Package Styling (DN1)

The Night Package adds attractive features: many exterior elements are finished in black. They underscore the sporty character and special individuality of your vehicle. And as such you can demonstrate your sense of expressive design and exclusive sportiness.

Features:

1. Radiator grille with Mercedes-Benz star pattern with pins in high-gloss black
2. 18-inch AMG 5-spoke light-alloy aero wheels in high-gloss black with high-sheen finish (RSK)
3. AMG front apron with trim (wing) in high-gloss black
4. Rear bumper with trim (wing) in high-gloss black
5. Beltline trim strip and window weatherstrip in high-gloss black
6. Exterior mirror housings painted high-gloss black

Headlight Overview

Standard LED High Performance Lighting System (632)

These headlamps are a highlight in two respects: thanks to all-LED technology they enable you to see and be seen better – and therefore offer enhanced safety. With their striking design the front lights and tail lights are already bright during the day, while at night their technical excellence shines through in particular.

The LED High Performance headlamps illuminate the road considerably more precisely and generously than conventional halogen or xenon headlamps thanks to state-of-the-art LED technology. Thanks to the high light range traffic situations and obstacles can be seen earlier, thus resulting in increased safety. The uniform warm-white light quality is close to the colour temperature of daylight. This puts less of a strain on your eyes and helps you to concentrate for longer and remain more relaxed.

Optional DIGITAL LIGHT (P35)

With DIGITAL LIGHT, you can experience brilliant lighting conditions – constantly adjusted to other road users and to the surroundings. This HD system works like a projector and responds with constantly adapted light to changing traffic, road or weather conditions.

DIGITAL LIGHT integrates the familiar functions of MULTIBEAM LED: these include city light, motorway mode plus motorway main beam, cornering light, junction light, roundabout light, fog light and adverse weather light. Topographical compensation reduces glare to a minimum. It also keeps the headlamp range as constant as possible even in the event of altitude changes, such as when driving over the brow of a hill or through a dip in the road. Furthermore, ULTRA RANGE Highbeam is also available to you. The additional main beam is automatically switched on when automatic main beam is activated, no other road user has been detected, the road is straight and you are driving faster than 40 km/h. The range corresponds nearly to the legally permitted maximum, and only falls below the brightness reference value of 1 lux beyond 600 metres.

Adaptive Highbeam Assist Plus also masks out oncoming traffic or vehicles in front with maximum precision. The overall usable light cone is therefore enlarged significantly. The headlamps shift the boundary between light and dark smoothly and continuously – almost as if the light were linked to other road users.

Interior Design

Standard Interior (P14)

Design your interior to suit your personal taste – there is a choice of three stylish colour concepts – black, macchiato beige / black and siena brown / black. The seats always sport a single colour. The two-tone interior concepts use black as a contrasting colour in the interior. The instrument panel impressively demonstrates the first-class quality of this specification: It has two planes of trim elements: At the top is a trim element in silver chrome, below it the trim element in diamond matte silkscreen or an optional trim element.

The seats with unique seat upholstery layout are a highlight – they characterise the sporty appearance of the interior and provide both a high level of comfort as well as outstanding support. The multifunction sports steering wheel in black leather with silver bezel is visually attractive, particularly pleasant to the touch and promises excellent handling.

Components:

1. Seats with unique seat upholstery layout and redesigned headrest
2. Multifunction sports steering wheel in leather (L3E) steering wheel bezel in silver chrome
3. Upper part of the instrument panel in black and lower part in black or macchiato beige with contrasting topstitching
4. Instrument panel with matte diamond pattern trim (H50), other trim elements optional
5. Centre console in piano black (757), matte diamond pattern (794) or metal weave (795)
6. Air vents with elements in silver chrome
7. Doors with high-gloss black trim elements and surround in silver chrome as well as switches in silver chrome
8. Storage Package (30P)
9. Overhead control panel in high-gloss black
10. Black fabric headliner (51U), crystal grey fabric headliner (58U) optional

Sport/Night Package Interior (DS1/DN1)

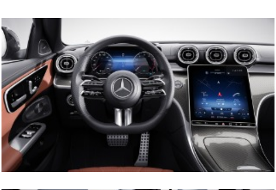
The Sport/Night Package lends your vehicle a more visible and tangible sense of sportiness. In this way you can make a clear statement and show at first glance what is important to you: a dynamic and exclusive ambience down to every detail.

The multifunction sports steering wheel in nappa leather clearly stands out from the other steering wheels: its horizontal spokes are designed as double-spokes. In addition, it has a flat bottom – a shape that was adopted from motorsport and underlines the dynamic aesthetic appeal of your cockpit.

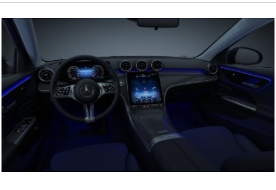
The ambient lighting included in the Sport/Night Package stages your special interior to impressive effect. The stylish illumination highlights attractive functions and functional features.

Components:

1. Seats with sporty seat upholstery layout and redesigned headrest
2. AMG brushed stainless steel sports pedals with black rubber studs
3. Instrument panel and beltlines in ARTICO man-made leather in black nappa look (U34)
4. Multifunction sports steering wheel in nappa leather (L5C), with horizontal twin-spokes, flat bottom, deep embossing in the grip area, steering-wheel bezel and steering-wheel paddle shifters in silver chrome
5. AMG Floor Mats



Ambient Lighting



Standard (894)

Showcase the interior according to your personal preferences or current mood. With a total of 64 colours and precise, directly illuminated light lines, the ambient lighting gives you an almost unlimited scope for lighting schemes and has the right colour available in the programme for any situation.

Enhanced (891)

The scope of equipment includes many functions that appreciably enhance your vehicle interior day and night and amaze your passengers. That starts with an exquisite light show after you have unlocked the vehicle. The "Welcome Home" light show automatically increases the brightness of the ambient lighting to 100%. The ambient lighting also adjusts its brightness when a door is opened and in this way accounts for the passengers' different sensitivity to light.

In all ten colour schemes, the colours can alternate to spectacular effect – if so desired. The brightness of the LEDs adapts just as variably: It can be set at five levels and in three dimming zones.

Steering Wheels

Leather Steering Wheel (L3E)

Standard

The elegant leather cover gives the multifunction sports steering wheel an even higher quality look. This makes it a highlight in the interior. And as the driver you enjoy a double benefit: what looks good must also feel good.

Features:

1. Sporty 3-spoke steering wheel
2. Version in leather
3. Paddle shifters black, grained
4. Operation via touch control panels:
   a. Left: driver display, cruise control and limiter/Active Distance Assist DISTRONIC
   b. Right: MBUX multimedia system (e.g. audio volume and title selection, telephony and navigation)
   c. Touch sensitivity adjustable via central display

Note: Can be optionally heated with(443)

Multifunction Sport Steering Wheel (L5C)

Included in DS1/DN1

The multifunction sports steering wheel in nappa leather has a flattened bottom section and is heavily embossed in the grip area – outstanding prerequisites for a sporty driving style. The high-quality, soft nappa leather is a quality experience in itself. Via the touch control panels you can control key vehicle functions without having to take your hands off the steering wheel.

Features:

1. Sporty 3-twin-spoke steering wheel with flattened bottom section
2. Finished in nappa leather, heavily embossed in the grip area
3. Horizontal twin spokes in high-gloss black, vertical twin spokes in silver chrome
4. Shift paddles in silver chrome
5. Control via touch control panels:
   a. Left: instrument cluster, cruise control and speed limiter or Active Distance Assist DISTRONIC
   b. Right: multimedia system (e.g. audio volume and track selection, telephony and navigation)
   c. Adjustable touch sensitivity via central display

Note: Can be optionally heated with(443)

Sound System Overview

Optional Burmester Surround Sound (810)

Experience greater audio performance with exquisite Burmester® sound. The high-quality speakers achieve impressive surround sound. You can specifically optimise this for the front and rear seats to intensify the listening experience. The unmistakable Burmester® speaker covers also enhance the interior visually.

Features:

1. 15 high-performance speakers tuned to match the vehicle interior and each with its own amplifier channel
2. DSP amplifier with a total output of 710 watts (2 x 120 watts, 7 x 50 watts, 6 x 20 watts)
3. 2 broadband speakers in the front area for 3D sound
4. Frontbass technology with subwoofers integrated into the body shell
5. Sound optimisation for the front, rear or all seats
6. 2 sound presets: Pure plus 3D-Sound for generating virtual surround sound, including multi-channel format support for true surround sound
7. Equalizer function for setting the bass, midrange and treble frequencies
8. Noise compensation (VNC)

Engine

Tremendous pulling power even at low engine speeds – this is what characterises this advanced 4-cylinder engine with 48-volt on-board electrical system. Despite its performance, the engine is fuel-efficient, low on emissions and has pleasantly smooth running characteristics.

Key features:

1. 0-100 km/h acceleration in 6.0 seconds
2. 255 hp @ 5,800 rpm, 295 lb-ft @ 2,000-3,200 rpm
3. Additional 20 hp and 147 lb-ft from 48V mild hybrid system at low speeds
4. 27 hp of additional peak output thanks to the overboost function – for very sporty acceleration, for example when overtaking
5. CAMTRONIC with two-stage valve lift switchover – to save fuel, the valve clearance at the intake camshaft is always optimally adapted to the driving mode
6. NANOSLIDE technology for a friction-optimised cylinder contact surface, which is very wear-resistant and so thin that it enables optimum heat transfer
7. CONICSHAPE cylinder barrels, in which the cylinder barrel widens towards the bottom in the shape of a trumpet, thereby reducing friction for less wear and lower consumption
8. Mild hybrid with 48-volt on-board electrical system – in addition to the regular 12-volt on-board electrical system – among other things for the operation of the integrated starter alternator and the electric water pump
9. Exhaust gas turbocharger with a two-pipe segment turbine and flow connection, resulting in higher efficiency compared with twin-scroll technology

Mercedes-Benz User Experience (MBUX)

Standard

Extended MBUX Functions:

Say "Hey Mercedes", and your MBUX system awaits your commands. Personal profiles, predictive functions and a WiFi hotspot completely redefine the term digital networking

Many forms of interaction and personalization:

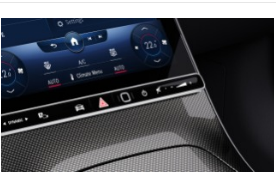
- The new C-Class now includes the latest generation of MBUX (NTG 7)
- Standard 11.9" Touchscreen Media display in portrait format as a visual highlight
- Up to seven different profiles are possible in the vehicle.
- Alongside entry of the Mercedes me PIN, new biometric and interconnected authentication functions ensure a high level of security. These are fingerprint (standard), and voice recognition (standard).
- New convenience functions include prepositioning of the driver's seat and outside mirrors according to body size
- The voice assistant "Hey Mercedes" listens even more carefully, and understands the occupants even better: "Hey Mercedes" can also be controlled from the passenger seat. Several microphones help to tell the system which seat the voice is coming from.
- "Hey Mercedes" explains functions. The activation keyword "Hey Mercedes" is no longer necessary for certain applications. An incoming call can be taken direct with "Accept call", for example
- The appearance of the screens can be individualized with a choice of display styles
- Key functions such as the lights or windscreen wipers can still be operated directly. The climate control panel is permanently at the lower edge of the display

Fingerprint Scanner

Standard

The fingerprint scanner is located in an ergonomically convenient location below the central display. As part of a one-time process it records the distinctive biometric features of up to two random fingers per user. Therefore no one is able to observe a number combination, which could happen with PIN entry.

Protection of your privacy comprises personal settings and data, among other things, for example favourites, last destinations, behaviour-based forecasts or work calendar entries or emails. Payment processes via Mercedes me are also retained for you.



Wireless Smartphone Integration

Standard

Features:

- Smartphone Integration connects the mobile phone with the multimedia system wirelessly via Apple CarPlay™ or Android Auto™. This gives you convenient access to the most important apps on your smartphone.

Instrument Clusters

Standard 10.25" display

Free-standing, fully digital instrument display with 26 cm (10.25") LCD colour display and a resolution of 1440 x 540 pixels. 3 display themes (Performance, Classic, Discreet)

Optional 12.3" display (464). Included in DP1.

The high-resolution driver display allows you have an eye on all the desired information in an easy to read format.This means you are more relaxed while on the road. The high-quality, free-standing display is an important element of the digitised, finely designed interior, which is exemplary for the modern luxury of your Mercedes.

- 31.2 cm (12.3") LCD colour display with a resolution of 2,400 x 900 pixels
- 7 different settings with specific content
- 3 different display styles (Performance, Classic, Discreet)

11.9" Media Display (868)

Standard

The high-resolution central display captivates with its brilliant picture quality. It is operated by touch entry. The screen in portrait orientation has a full-area glass cover and is slightly tilted towards the driver, making it easier to operate and read. This format is more clear in particular for navigation maps.

MBUX Augmented Reality Navigation (U19)

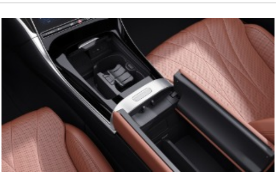
Included in DP2

To enable you to find your way in complex traffic situations, MBUX Augmented Reality Navigation connects the virtual world with the real world. The technology incorporates graphical navigation instructions and traffic information into live images. So you reach your destination quickly, safely and stress-free.

USB Type-C ports (75B)

Standard

Thanks to the 4 USB-C ports, you and your passengers charge mobile devices very easily. Using connected devices, you can also import data such as your stored music to the multimedia system.



Head-up Display (444)

Included in DP2

Ideal prospects for sporty driving fun and a superior driving experience: the head-up display transforms your windscreen into an exciting digital cockpit. This means you always have a direct view of key information. Your full attention remains on the road and the traffic conditions in front of you.

The virtual image generated by the head-up display is projected into the driver's natural field of vision and appears to hover above the bonnet. The information selected by the driver, for example current speed, speed limits or navigation tips, is displayed in high resolution and in colour. The information is therefore also easy to see on sunny days and at night.

The positioning in the direct field of vision enhances your concentration and the good perceptibility takes the strain off your eyes. These factors have a positive effect on your alertness, particularly on long journeys. To enable you to view the projection at a suitable angle, the height of the head-up display can be adjusted. The selected setting can be stored conveniently via the optional memory function for the driver's seat.

Models

C300W4M (206.047)

- MSRP: TBD
- Transmission: 9G-TRONIC
- Transmission Speeds: 9
- Acceleration: 6.0
- Engine Configuration : 2.0L Inline-4 Turbo w/ 48V Mild Hybrid System
- Power (hp): 255 hp (ICE), 20 hp (ISG), 27 hp (Overboost)
- Torque (lb-ft): 295 lb-ft (ICE), 148 lb-ft (ISG)
- Launch Date: Early 2022

Standard Equipment

C300W4M

Exterior

- Automatic Headlamp Activation
- Heat Insulating Green Tinted Glass
- LED Turn Signals in Exterior Mirrors
- Chrome Window Surrounds
- Power Adjustable Heated Exterior Mirrors
- LED Licence Plate Illumination
- Full LED Tail Lamps

Interior

- Front Door Sills in Aluminum With MB logo
- Front Seatbelt Height Adjustment
- Luggage Net in Trunk
- 4 Power Windows w/Express Up &Down
- Lockable Glove Compartment
- Front Armrest w/Storage Compartment
- Interior Reading Lights
- Outside Temperature Display
- Remote Trunk Release

Safety & Handling

- ADAPTIVE BRAKE
- Agility Control Suspension
- Anti-Lock Braking System (ABS)
- Brake Assist (BAS)
- ISOFIX Anchors on Rear Bench
- Electronic Stability Program (ESP) with Crosswind Assist
- Front Side Airbags
- Seatbelt Tensioners w/Belt Force Limiters
- Acceleration Skid Control (ASR)
- Electric Parking Brake
- ATTENTION ASSIST
- Brake Pad Wear Indicator
- Dual-Stage Front Airbags
- Torque Vectoring Brake
- Hill Start Assist
- Side Window Curtain Airbags

MBC Standard Equipment

- 218 Rear View Camera
- 234 Blind Spot Assist
- 258 Active Brake Assist
- 242 Power Adjustable Front Passenger Seat with Memory
- 287 Split Folding Rear Seats
- 299 PRE-SAFE
- 345 Rain Sensing Windshield Wipers
- 384 Communications Module
- 421 9G-TRONIC Automatic Transmission
- 460 Canada-Specific Equipment
- 500 Exterior Power Folding Mirrors
- 521 MBUX Multimedia System
- 551 Anti-Theft Alarm System
- 587 Mirror Logo Lamp
- 634 First Aid Kit
- 666 Protective Shipping Foil
- 677 Lowered Comfort Suspension
- 824 Additional Parts for Cold Countries
- 873 Heated Front Seats
- 876 Interior Lighting Package
- 891 Entry Ambient Lighting
- 916 66 Litre Fuel Tank
- 989 VIN On Windshield
- 14U Smartphone Integration
- 17U Android Auto
- 1XX ARTICO Upholstery
- 34U Extended Connectivity
- 75B USB Package
- 94B ISG Gen2
- B59 DYNAMIC SELECT
- P14 Avantgarde Interior
- P49 Mirror Package
- R66 Run-Flat Tires
- U12 Velour Floor Mats
- 222 Power Adjustable Front Passenger Seat
- 249 Auto Dimming Mirrors (Rearview & Driver's Side)
- 264 License Plate Holder
- 275 Memory Package w/Power Steering Column
- 321 Fingerprint Sensor
- 309 Cup Holders
- 351 eCall System
- 413 Panoramic Sunroof
- 440 Cruise Control
- 477 Tire Pressure Loss Warning System
- 517 High Definition (HD) Radio
- 534 Illuminated Visor Vanity Mirrors
- 580 THERMATIC Automatic Climate Control
- 632 LED High Performance Lighting System
- 636 Collective Code
- 670 Residual Engine Heat Usage (Rest Function)
- 783 SmartKey Remote w/ Panic Button
- 868 11.9" Media Display
- 875 Heated Windshield Washer System
- 887 Valet Trunk Locking
- 892 KEYLESS Start
- 986 VIN On Vehicle
- 12B Owner's Manual & Service Booklet
- 16U Apple CarPlay
- 1U3 Underbody Wax Protection
- 30P Storage Package
- 37U Remote Start
- 7U2 Comfort Seat
- B01 48V Battery
- K14 20,000 km Service Interval
- P15 Avantgarde Exterior
- R02 All-Season Tires
- U10 Weight Sensing System (WSS)
- U22 Power Lumbar Support

Interior Dimensions	
Trunk Size	455 L

Options In Detail

Dashcam - 21U

Optional. Requires DP1.

The dashcam films and saves what's happening on the road in front of your vehicle – and also records the time and speed. This can help you document the sequence of events in an accident, for example, and provide you with supporting evidence if necessary. Or you can use the dashcam to record landscapes and routes to create your own automotive travel diary.

Components:

•Camera in the windshield

•Recording of videos with a resolution of 1280 x 720 pixels (720p) and a frame rate of 30 Hz

•Additional storage of speed and time embedded in the video signal

•Control menu in the media display

•Footage stored via USB stick using the Media Interface

•Video material can be viewed on a computer or the media display (only possible when vehicle is stationary) - for this the storage media must first be removed from the interface and reconnected

Automatic recording not possible at this time, all recording must be manually started.

Intelligent Drive Package (DL1)

Requires DP1

Features:

- The Intelligent Drive Package features Level 2 automated driving. State-of-the-art driving assistance systems support the driver according to the situation in terms of speed adjustment, steering, lane changes and the risk of collision. The risk of accidents is reduced – passengers and other road users are effectively protected.
- Drivers are afforded a great degree of relief in monotonous traffic during lengthy trips, for example, and in bumper-to-bumper driving or traffic jams as well as before curves, roundabouts, T-junctions and the end of traffic jams, etc.
- The fusion of different radar, ultrasound and camera sensors, map and navigation data, and live traffic information gives the customer more functionality compared to standard/individual functions.
- **The Intelligent Drive Package Includes:**
- Active Distance Assist DISTRONIC
- Active Speed Limit Assist with response to changing speed limits
- Extended automatic restarting
- Route-based speed adaptation
- Active Steering Assist
- Active Lane Change Assist
- Active Emergency Stop Assist
- Evasive Steering Assist
- Active Blind Spot Assist with exit warning
- Active Brake Assist with turning and cross-traffic function
- Beginning of Traffic Jam Emergency Braking
- PRE-SAFE PLUS for rear end collisions
