Options In Detail

Dashcam - 21U

Optional. Requires DP1.

The dashcam films and saves what's happening on the road in front of your vehicle – and also records the time and speed. This can help you document the sequence of events in an accident, for example, and provide you with supporting evidence if necessary. Or you can use the dashcam to record landscapes and routes to create your own automotive travel diary.

Components:

•Camera in the windshield

•Recording of videos with a resolution of 1280 x 720 pixels (720p) and a frame rate of 30 Hz

•Additional storage of speed and time embedded in the video signal

•Control menu in the media display

•Footage stored via USB stick using the Media Interface

•Video material can be viewed on a computer or the media display (only possible when vehicle is stationary) - for this the storage media must first be removed from the interface and reconnected

Automatic recording not possible at this time, all recording must be manually started.

Intelligent Drive Package (DL1)

Requires DP1

Features:

- The Intelligent Drive Package features Level 2 automated driving. State-of-the-art driving assistance systems support the driver according to the situation in terms of speed adjustment, steering, lane changes and the risk of collision. The risk of accidents is reduced – passengers and other road users are effectively protected.
- Drivers are afforded a great degree of relief in monotonous traffic during lengthy trips, for example, and in bumper-to-bumper driving or traffic jams as well as before curves, roundabouts, T-junctions and the end of traffic jams, etc.
- The fusion of different radar, ultrasound and camera sensors, map and navigation data, and live traffic information gives the customer more functionality compared to standard/individual functions.
- **The Intelligent Drive Package Includes:**
- Active Distance Assist DISTRONIC
- Active Speed Limit Assist with response to changing speed limits
- Extended automatic restarting
- Route-based speed adaptation
- Active Steering Assist
- Active Lane Change Assist
- Active Emergency Stop Assist
- Evasive Steering Assist
- Active Blind Spot Assist with exit warning
- Active Brake Assist with turning and cross-traffic function
- Beginning of Traffic Jam Emergency Braking
- PRE-SAFE PLUS for rear end collisions
