General Information

Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.
Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.
For illustrative purposes, some images may show vehicles with European Specification.

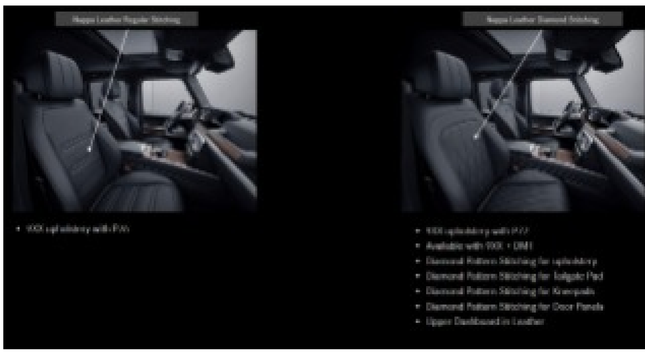
Revision History

Date	Description
06/14/2022	G 63 4x4 squared initial ordering information
03/08/2022	G550 and G63 information added to PIP

What's New

Extensively Revised Offering

- The MY22 G 63 features a high level of standard equipment
- As such, please reference all packages and options in detail prior to submitting orders
- New swaths of MANUFAKTUR paints, upholsteries, and single options are also available to order



Mercedes-AMG G 63 4x4²

The G-Class 4x4² returns to push the boundaries of automotive locomotion further once again. This special model combines the performance of the Mercedes-AMG G 63 with the extreme off-road capability of a 4x4². Exclusive equipment and design details underscore its great presence: versatile, luxurious and outstanding in every respect.

In addition to the tried-and-tested all-wheel-drive system with three differential locks, the Mercedes-AMG G 63 4x4² boasts newly developed portal axles and an optimised ladder-type frame. Its significantly increased ground clearance and greater axle articulation lend it impressive off-road characteristics. This way your customers are perfectly equipped for excursions into the most demanding terrain.

G 63 4x4² Exterior

The Mercedes-AMG G 63 4x4² knows no bounds – and always presents itself in style. For example, the special model is characterised by exclusive highlights in silver chrome. These highlights include bumper inserts, the front underride guard as well as the running boards and the exhaust trim. When it is dark, a specific mirror projection in the shape of the 4x4² logo welcomes the occupants. With its portal axles and optimised AMG Ride Control suspension, the G 63 4x4² feels equally at home on paved roads and in the most demanding terrain. To ensure that your customers can keep an eye on things even during late-night off-road excursions, state-of-the-art MULTIBEAM LED (L57) headlamps are standard equipment. Flared carbon-fibre wheel arches, the exterior protective strip with decorative inserts in carbon-fibre look and burnished 22-inch AMG multi-spoke forged wheels (RG8) painted in matt black round off the vehicle's emphatically sporty look. Even punctures in difficult terrain are no problem for the special model: on the rear door, the solid PROFESSIONAL spare wheel holder (RD3) with exclusive carbon-fibre cover and "4x4²" lettering carries a full-size 22-inch wheel. Together with the rear underride guard in black, it defines the unmistakable rear aspect.

G 63 4x4² Interior

Whether on sophisticated boulevards or in off-road adventures far from the beaten track: in the interior of the 4x4² special model, your customers will experience luxury and comfort at the highest level. For example, additional amenities enhance the extensive standard equipment of the Mercedes-AMG G 63 – such as the Drive Dynamic Multicontour front seats (PK2) for maximum travel comfort. Delicate details such as the trim with "4x4²" inscription on the passenger-side grab handle create a special ambience, only to be found in the Mercedes-AMG G 63 4x4². On entry, an exclusive 4x4² start screen in the AMG instrument cluster also welcomes the driver. The available high-grip AMG Performance steering wheel in DINAMICA microfibre (L6G) and optional AMG trim elements in matt carbon fibre (VA7) carry over the sporty exterior design into the interior in an appealing manner. A special experience in the dark is the individually controllable ambient lighting (FR2) with 64 colours and 10 colour zones, which also backlights the air vents on the special model only.

G 63 4x4² Engineering

Superior off the road, surprisingly handy on paved roads: with newly developed portal axles and an optimised AMG Ride Control suspension, the Mercedes-AMG G 63 4x4² delivers impressive performance in every handling situation. The increased ground clearance of 351 mm is the basis of its superior off-road characteristics: with a fording depth of up to 910 mm, a ramp angle of 42°, an angle of approach of 41.3° and a gradeability of 100%, the special model can tackle the most extreme conditions with confidence. The front portal axle features independent wheel suspension with an integrated helical-cut hub reduction gear, while a rigid axle is used at the rear. The Mercedes-AMG G 63 provides the proven all-wheel drive with three differential locks and off-road ratio, the 4.0-litre V8 biturbo engine and AMG DYNAMIC SELECT (281#) with five drive programs. This enables the driver to react to different ground conditions at the touch of a button. The Mercedes-AMG G 63 4x4² also shows itself from its best side in everyday use on paved roads: thanks to the wide spread of the damper settings, the optimised AMG Ride Control suspension provides the same level of comfort and motoring enjoyment as a conventional Mercedes-AMG G 63.

	G 63 4x4²	G 63	
Ground clearance	351 mm	238 mm	+113 mm
Max. angle of approach	41.3°	27°	+14.3°
Max. angle of departure	36.8°	29.6°	+7.2°
Ramp angle at perm. GVW	42°	21.7°	+20.3°
Max. lateral inclination	35°	35°	+0°
Max. fording depth	910 mm	700 mm	+210 mm

Models

G63 (463.277)

- MSRP: $231,900
- Transmission: AMG SPEEDSHIFT PLUS 9G-TRONIC. Gear Ratios (:1) 1st-5.350, 2nd-3.240, 3rd-2.250, 4th-1.640, 5th-1.210, 6th-1.000, 7th-0.860, 8th-0.720, 9th-0.600, Reverse-4.800, Final Drive Ratio-3.450
- Acceleration - 0-100 km/h (Seconds): 4.5
- Engine: 32V DOHC V8 Biturbo
- Horsepower (SAE @ RPM): 577 @ 6,000
- Torque (lb-ft @ RPM): 627 @ 2,500-3,500
- Launch Date: Q3 2022

G63W44 (463.280)

- MSRP: TBD
- Transmission: AMG SPEEDSHIFT PLUS 9G-TRONIC. Gear Ratios (:1) 1st-5.350, 2nd-3.240, 3rd-2.250, 4th-1.640, 5th-1.210, 6th-1.000, 7th-0.860, 8th-0.720, 9th-0.600, Reverse-4.800, Final Drive Ratio-3.450
- Acceleration - 0-100 km/h (Seconds): 5.0
- Engine: 32V DOHC V8 Biturbo
- Horsepower (SAE @ RPM): 577 @ 6,000
- Torque (lb-ft @ RPM): 627 @ 2,500-3,500
- Launch Date: TBD

Options In Detail

G manufaktur program

Special customers have special requirements: no other model series can demonstrate such a high degree of **individualization** as the G-Class.

With G manufaktur, Mercedes-Benz has developed an exclusive design and equipment line exclusively for the icon among off-road vehicles. Maximum quality, exclusive details and a coordination between the exterior and interior characterize these **high-quality handcrafted products**.

The high-class nappa leather for the different seat variants is produced by a saddlery in Graz using traditional craftsmanship techniques, and Mercedes-Benz then completes the corresponding seat. The leather production is extremely time-consuming and takes around five times longer than for a Mercedes-Benz A-Class. However, it is only in this way that the exclusive quality of the G manufaktur products can be guaranteed – **"Handmade in Graz"**.

The G manufaktur program replaces the designo line of equipment on the G-Class.

AMG Drive Unit (U88) – Standard

The AMG Performance steering wheels with AMG steering wheel buttons are reminiscent of Formula 1 steering wheels in terms of their operation and characteristics. The ergonomic positioning of the additional steering wheel buttons in the **immediate grip area**, allows the driver to keep their hands on the steering wheel at all times.

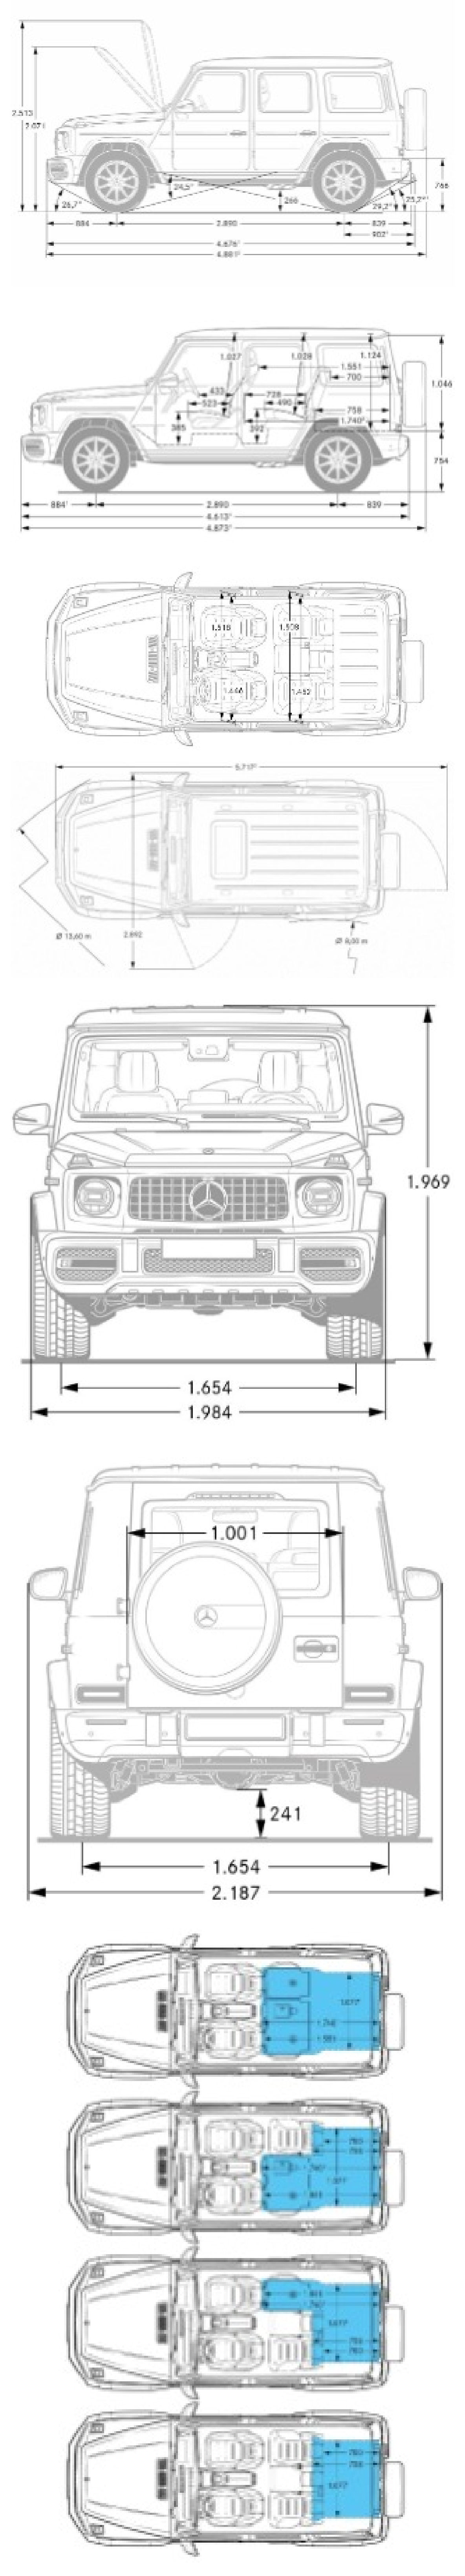
The individual steering wheel buttons are implemented as modern, mini displays. Pictograms on the buttons visualize the AMG-specific function which can be accessed in each case.

ENERGIZING Comfort Control (P72) - Included in DX1

The ENERGIZING comfort control transforms your vehicle into an oasis of well-being through the intelligent combination of comfort functions such as **air conditioning and lighting**. Six perfectly compiled programs can be activated easily to help relieve stress or contribute to alertness or long journeys.

Exterior Styling

G-Class Dimensions - G 63



G-Class Off-road Capabilities

Widescreen Cockpit

Widescreen Cockpit

Standard, with COMAND Online & Telematics Generation NTG 5.5

Overview:

- Digital instrument cluster and multimedia system display under a continuous glass panel, each with a high-resolution display with **12.3-inch screen diagonal**
- 3 display styles **"Classic", "Sporty" and "Progressive"** can be selected by the driver
- Dynamic presentation with respect to content and size of the information displayed
- COMAND Online with NTG 5.5 including the following:
  - Fast HDD navigation with 3D map display
  - Smartphone integration via Android Auto or Apple CarPlay
  - Integrated USB Media Interface
  - SiriusXM Satellite Radio
  - Bluetooth® hands-free and audio streaming
  - SDHC card reader
  - HD Radio tuner
  - LINGUATRONIC voice-operated control system

THERMOTRONIC

THERMOTRONIC

Standard, Automatic Climate Control with 3 Climate Zones

Overview:

- **3 climate zones** with individual temperature controls (driver's side, front passenger side and rear)
- **3 climate styles** for setting the airflow – "diffuse", "medium" or "focused"
- Automatic control of temperature, air distribution and airflow ("Auto" button)
- Air distribution for driver's and front passenger sides individually and separately adjustable
- **Constant monitoring of incoming air for harmful gases** with automatic air recirculation setting
- Sensors keep the climate constant at the desired level in each zone
- Rear operating unit for regulating the temperature and airflow in the rear
- A **fine-particle activated charcoal filter** improves the air quality in the vehicle, It filters dust, soot and pollen from the air and also reduces pollutants and odours
- **Dew point sensor** prevents windows from misting up and ensures energy-efficient climate control
- Rear centre air vents, air vents in the B-pillars and a booster fan help to enhance climate comfort in the rear compartment
- Residual engine heat button to provide heating or ventilation when the engine is switched off (country-specific)

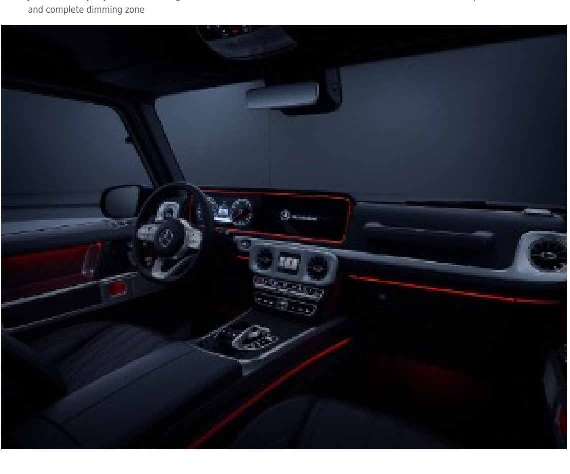
Ambient Lighting

Ambient Lighting

Standard, 64 colours and 10 colour schemes

Overview:

- The ambient lighting in **64 colours** gives the light a uniquely diverse style and showcases the interior like a work of art
- **Eight colour schemes** each consist of two colours – the Widescreen Cockpit and the footwell are in the same colour, while the trim level forms a contrast
- Two further colour schemes each contain five colours – these divide the vehicle into the levels "upper display and roofline", "lower display", "feature line (trim)", "centre console and cup holder" and footwell
- Every display style of the Widescreen Cockpit is oriented towards a matching colour scheme: **"Glacier Blue" for Classic, "Red Moon" for Sporty, "Dawn Blue" for Progressive**
- The colours are static or slowly replace each other in **Dynamic mode** to produce a constant change of colour
- Special emotively appealing effects: A light show welcomes the driver, and the climate control indicates in colour via the ambience lighting whether a **warmer or colder temperature** is being set
- All 64 colours are also individually selectable
- Just as variably adjustable is the brightness of the LEDs, with **five levels and four zones**: Widescreen Cockpit, front seats, rear and complete dimming zone



360° camera

360° camera

Standard

Overview:

- **Four networked cameras to monitor all four sides** of the vehicle when parking, maneuvering and in other driving situations
- The vehicle and its surroundings are shown in a **bird's-eye view** on the multimedia system display
- Display on the media screen: the perspective is automatically made available based on the gear selection and can also be chosen manually
- Virtual guide lines along the outer contour of the vehicle
- Trailer mode: additional display option with zoom function (only for vehicles with trailer coupling)

Brush Guard

Brush Guard

Optional on G 550 SUV and G 63 SUV

New design and placement for the optional AMG Brush Guard on the G 63 to allow for an unobstructed view for the 360 camera.

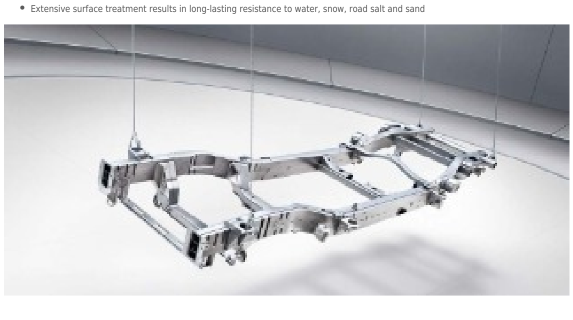
Ladder-Type Frame

Ladder-Type Frame

The ladder-type frame has formed the basis for the G-Class since the very beginning. With its revision, the vehicle achieves a new level in terms of resilience in off-road terrain. The ladder-type frame consists of sheet steel of up to **4 mm** in thickness with closed side members and crossmembers. This design is much more robust and better suited to off-road use than a self-supporting body.

Key features of the body:

- Torsionally rigid ladder-type frame – with MAG-welded seams and points assembled out of sheet steel which is up to **3.5 mm** thick
- Comprehensive weight reduction of more than **150 kg**, achieved by the processing of light and high-strength materials such as aluminium
- Extremely sturdy frame construction for use in very demanding cross-country terrain, prevents the body from being twisted and damaged
- The design protects the major assemblies, fuel tank and exhaust system when the vehicle makes contact with the ground, e.g. when driving over obstacles
- Vehicle floor additionally coated with plastic (using cathodic dip priming and powder-coating processes)
- All bodies are carefully primed in a cataphoretic dip process and then given several coats of paint
- Extensive surface treatment results in long-lasting resistance to water, snow, road salt and sand



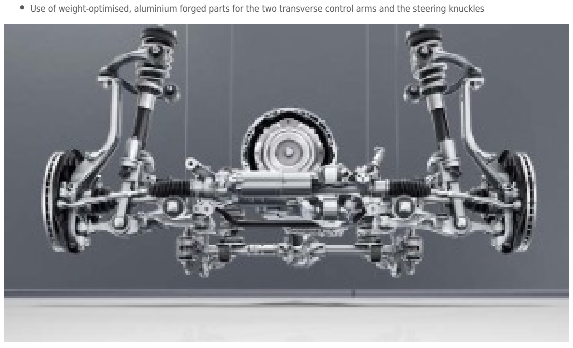
Front Suspension

Front Suspension

The **double-wishbone axle with independent suspension and spring strut** ensures the necessary traction in even the most difficult off-road terrain. The new independent suspension enables **more precise wheel location,** thus in turn enabling better control of the G-Class. In addition, ride comfort both on and off the road is noticeably improved.

Key features of the **double-wishbone front suspension**:

- Good driving dynamics, excellent road roar and tyre vibration characteristics as well as good off-road capability
- Minimizes the transfer of vibrations to the body by complexly isolating the front axle
- Use of weight-optimised, aluminium forged parts for the two transverse control arms and the steering knuckles



Rear Suspension

Rear Suspension

The **extremely robust rigid axle with high degree of axial twist** supports the chassis and the body. The rigid axle is connected to the ladder-type frame via two lower and upper trailing arms as well as one Panhard rod which prevents sideways movements in the suspension in relation to the vehicle body and rigid rear axle and ensures the necessary **traction in even the most difficult off-road terrain** and according to the surface.

Key features of the rigid axle (rear):

- Large ground clearance because – in contrast to independent wheel suspension – **the axle is automatically raised accordingly when a wheel rolls over an obstacle**
- High articulation capacity of the axles and long spring travel result in optimum surface contact for the wheels

Night Package

AMG Night Package

Optional

Components:

- AMG-specific radiator grille, dark chrome-platedDark-tinted turn indicators and tail lamps plus headlamps
- Dark-tinted turn indicators and tail lamps plus headlamps

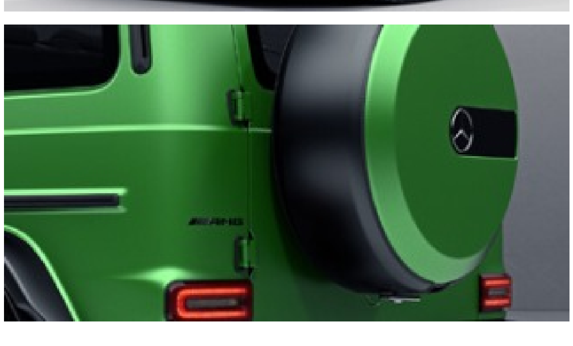
Depending on the choice of paint finish, the following components are finished in obsidian black or night black magno:

- Outside mirror housings
- Inserts in the bumper
- Simulated underguard
- Spare wheel ring

AMG Stealth Package

Optional with AMG Night Package

- **An option to add the roof, wheel arches, front & rear star logos, exterior badging and bumpers in black is also now available shown below:**



Steering Wheel Overview

AMG Performance Heated Steering Wheel

VL9

*Standard. To add heating to steering wheel, code LH1 must be added to the order and the standard AMG DRIVE UNIT (U88) must be replaced.

AMG Performance Steering Wheel (Nappa/DINAMICA)

L6K

*Optional. To add heating to steering wheel, code LH1 must be added to the order and the standard AMG DRIVE UNIT (U88) must be replaced.

Only with VA5 or ZG6 or ZG2 or VA7 or VA1 . Not with 805A or DF1 or VA2 or VA3 or VA4.

AMG Performance Steering Wheel (Piano Black Lacquer/Nappa)

L6L

*Optional. To add heating to steering wheel, code LH1 must be added to the order and the standard AMG DRIVE UNIT (U88) must be replaced.

Only with ZG2. Not with 805A or DF1.
