GLOSSARY

[View Full Glossary](#)

- First Owner**
 When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.
- Lease**
 When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.
- New Owner Reported**
 When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.
- Ownership History**
 CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Frontal Crash:	Rating:
Driver	Not Tested
Passenger	Not Tested
Side Crash:	Rating:
Front Seat	Not Tested
Rear Seat	Not Tested
Rollover Resistance:	Rating:
Rollover Resistance	Not Tested

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - [full-width frontal crash test](#) , [side impact crash test](#) , and [rollover resistance](#) . The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

LEGEND

- G** Good
- A** Acceptable
- M** Marginal
- P** Poor

Important: Frontal crash test ratings can be compared only among vehicles of similar weight. *The Mercedes E class was redesigned for the 1996 model year. All 1997 and later E class models manufactured after January 1997 include structural changes to improve occupant protection in frontal crashes. Additional structural changes were made beginning with 2000 E class models manufactured after January 2000 (note: information about when a specific vehicle was manufactured is on the certification label typically affixed to the car on or near the driver door). Dummy movement was well controlled. During rebound, the dummy's head hit the roof rail. Measures taken from the dummy indicate a low risk of any significant injuries in a crash of this severity. Head acceleration from the roof rail hit was low. 2001 Mercedes E 430 4-door 3576 front and rear head curtain airbags and front and rear door-mounted torso airbags 112 189 71 4.3 L V8 18 25*

Injury, Collision, & Theft Indicators

Index:	Score:	Rating:
Injury Index	70	Better than average
Collision Index	109	Average
Theft Index	82	Average

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. The injury, collision, and theft indicators for this 2002 MERCEDES-BENZ E430 are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. New Car Test Drive Review

Category:	Review:
Summary:	Luxurious and practical. By Sam Moses, NewCarTestDrive.com

The Mercedes-Benz E-Class is superbly engineered, dignified and sensible. Its style comes more from its statement than its looks. For all its talents, it is understated.

The engineering is brilliant and invisible. The emphasis is on comfort, luxury and safety, not necessarily in that order, but nothing is given away in performance.

Overview:

The Mercedes-Benz E-Class is the company's most popular line. If you had to pick one model that symbolizes the image of Mercedes-Benz, it would be the E-Class. It says Mercedes in the way most people understand.

The E-Class introduced the trend toward oval headlamps. It's big, square but sleek, smooth, silent and powerful. It's built like a tank with a light touch, and comes out elegant. It's a masculine car where women feel at home. And in areas such as engine design and management, chassis, drivetrain, aerodynamics, safety and computer technology, Mercedes-Benz leads the automotive engineering world.

E-Class offers three engine choices in sedan and wagon body styles.

With an all-new E-Class coming for 2003, Mercedes-Benz is offering special packages designed to provide buyers with greater value: The E320 Special Edition sedan features new 17-inch wheels, Black Birdseye Maple trim, full leather upholstery, sunroof, rain sensing wipers, premium audio system all wrapped in Black metallic or Quartz Silver metallic paint, a value of \$3,000 all at no extra charge. The E430 Special Edition sedan adds Xenon headlamps and heated headlamp washers, a value of over \$3,500 also at no extra charge.
