**Active Park Assist with PARKTRONIC**

**£1,295** Inc. VAT  
(available on SE only)

# Executive package

Available on SE only	Executive package (DP3) £1,295
<p><b>Active Park Assist with PARKTRONIC</b> Audible &amp; visual signals to warn of obstacles in front and behind vehicle active up to 11 mph. Featuring:</p> <p><b>Automatic parking with steering and braking function</b> Active Parking Assist measures potential parking spaces on the nearside, and with offside indicator active also on offside when going up to 21 mph. When engaging reverse gear, driver has to actively select Park Assist by pressing the “ok” button on the steering wheel. From the measured width and depth of the potential space, the system deduces whether it is a parallel or end-on parking space. Parking on slight bends is also supported by Active Parking Assist. Automatic braking takes place when a certain distance from the end of the parking space has been reached, or an obstacle is detected.</p>	
Garmin® MAP PILOT navigation system	
Heated front seats	
Rear seats – split folding 40:20:40 (Saloon only)	
Roof rails – chrome (Estate only)

PRE-SAFE® Brake with pedestrian detection

**BAS Plus**

**£1,695** Inc. VAT  
(not available on SE)

# Driving Assistance package

Available on Sport, AMG Line & Mercedes-AMG models only

## **DISTRONIC PLUS with Steering Assist and Stop&Go Pilot**

DISTRONIC PLUS is a radar assisted cruise control which also maintains a safe distance from the vehicle ahead in all situations. Steering Assist tracks road markings and the path of the vehicle ahead to keep the vehicle on track.

## **BAS\* PLUS with Cross-Traffic Assist**

If a critical situation is recognised and the driver applies the brakes, BAS PLUS can increase the brake pressure ideally preventing a collision.

## **PRE-SAFE® Brake with pedestrian detection**

When the danger of a collision with another vehicle or a pedestrian is recognised, PRE-SAFE® Brake gives the driver a visual and acoustic warning. If there is no reaction, the system can reduce the vehicle speed autonomously - right up to full emergency braking.

## **Active Blind Spot Assist**

A warning light in the exterior mirrors flashes if another vehicle is detected in the blind spot. Autonomously one sided braking attempts to prevent collisions whilst changing lanes despite another car is driving in the blind spot.

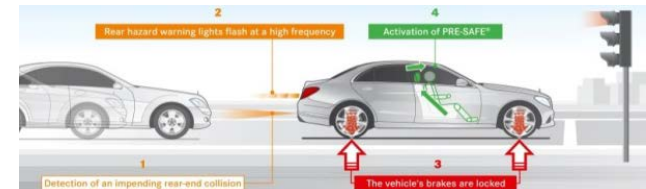

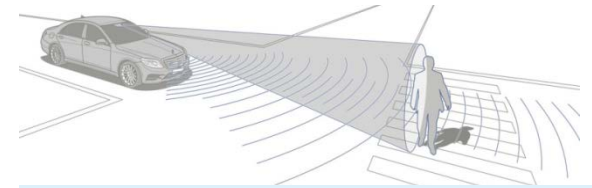

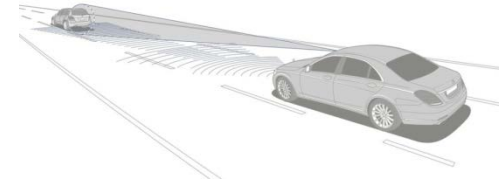

## **Active Lane Keeping Assist**

Detects signs of inadvertent drifting out of lane and warns the driver by vibrating the steering wheel and, if necessary, triggers one-sided braking intervention.

## **PRE-SAFE® PLUS**

Initiates occupant prevention measures if a rear-end collision is imminent, including activating the hazard lights, reversible belt tensioning, adjustment of passenger seat positions and closure of windows.

Driving Assistance package (DP2) £1,695

# New Stand Alone Option – Remote Online

## Remote Online (05U)

Remote Online enables the vehicle for Connect Me remote & location services for 3 years\*

### Maintenance

Users can check the current condition of key components on their car remotely E.g. brake fluid levels, tyre pressure, coolant levels, next service

### Parked vehicle locator

Within one mile car can be located via smart phone app. Car will be shown on map including best route how to get there

### Trip information

Trip information displays critical vehicle data such as:  
Fuel tank level; mileage range; consumption; odometer reading

### Vehicle tracker

Tracking via GPS while the car is moving (Information displayed on map). The driver can deactivate this feature at any time

### Remote door unlock/lock

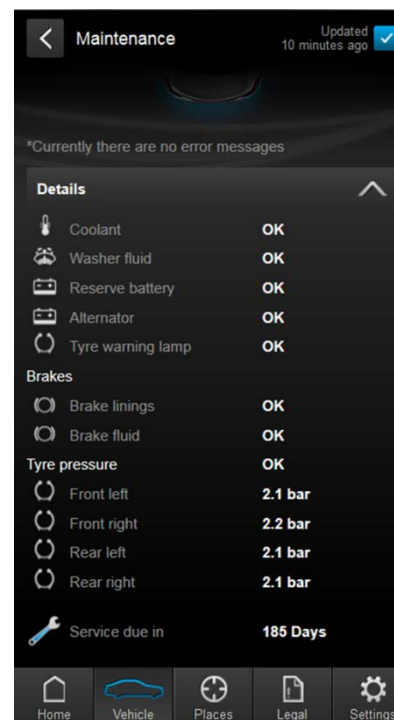

Allows user to remotely unlock/lock their vehicle

### Geo-fencing

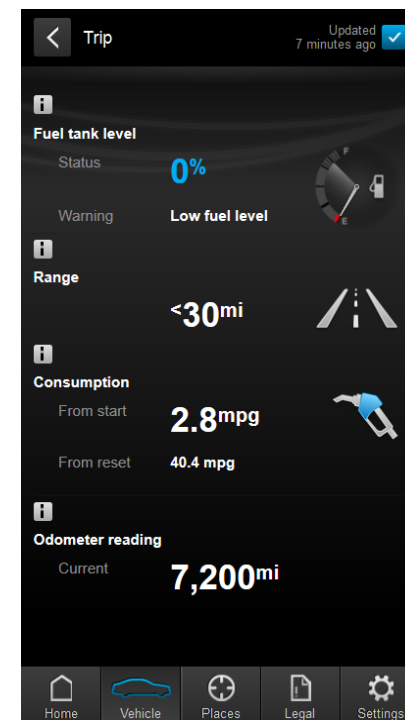

Enables to pre-set a defined geographical area, a notification will appear when car enters/leaves this defined area

With Audio 20

£150 Inc. VAT  
(standard with COMAND)
