

selected depending on the activated drive program – in the "Sport" and "Sport Plus" modes to deliver a sporty steering feel for a dynamic driving style on twisty roads or to deliver a comfortable steering feel in the "Eco" or "Comfort" modes. The "Individual" program offers an additional choice. For example, it allows combining sporty firm steering characteristics with a comfortable suspension set-up – or vice-versa.

The AMG Sport braking system of the C450 AMG 4MATIC impresses with fade-free and effective stopping power. Larger, vented brake discs at all four corners measuring 14.2 inches in diameter at the front and 12.5 inches at the rear as well as gray brake calipers with "Mercedes-Benz" lettering are all part of the standard equipment.

Design elements bear typical AMG signature

The fascination of motor racing in everyday life – the C450 AMG 4MATIC incorporates this combination visually as well. The second AMG sport model immediately demonstrates that it is part of the unique AMG family. Dominating design elements are the AMG body styling, the light-alloy wheels and the special AMG badge on the front fenders. This underscores the progressive nature and performance of the brand. The engine cover features a red aluminum insert to reinforce the strengths of the new twin-turbo six-cylinder engine and signify that AMG engineers have paid special attention to its performance.

The AMG body styling includes the front bumper with sporty distinctive air intakes, diamond meshes, silver chrome trim, as well as a matt iridium silver diffuser insert in the rear bumper. The sedan is equipped with a spoiler on the trunk lid to additionally increase grip on the rear axle.

Silver chrome and high-gloss black exterior elements lend the C450 AMG 4MATIC a sporty-expressive character. The radiator grille features a high-gloss black louver and chrome inserts. The diamond grille adorned with chrome pins adds special flair. Additional highlights are the black exterior mirror housings, the high-gloss black waistline trim strip and window frame, and the two chrome-plated dual tailpipe trim elements.

Customers can opt for the complementary Night package, which adds high-gloss black front bumper trim, a high-gloss black diffuser-look insert at the rear, and two black chrome-plated dual tailpipe trim elements.
