Summary:

Fault code P06DA00 is found current or stored in engine control unit. It is caused by Open circuit in harness to nonessential part. Fault code P06DA00 can be ignored unless otherwise specified in the guided test. Warranty claims submitted without supporting guided test results may be subject to debit. Fault code P06DA00 will not cause the check engine light to be illuminated. The vehicle continues to operate as designed. Further causes should be investigated if complaint of check engine light is received.
