General Information

Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

Revision History

Date	Description
08/23/2021	Updated option pricing
07/27/2021	Updated package and option prices, removed plausi rules for DA4 (DIGITAL Light), added details about DIGITAL Light to Options in Detail section
07/23/2021	As you are aware, MBUSA is experiencing challenges with the availability of semiconductor components due to the worldwide shortage. This has caused the addition and/or removal of certain options on vehicles. A summary of the changes is below: Removal of Burmester 3D Surround Sound System (810), HANDS-FREE ACCESS (871)
07/12/2021	Rear Seat Side Airbags (293) available as optional equipment
06/15/2021	Corrected 943 Integrated Toll Pass to \$200 (was \$300).
06/01/2021	Added additional information to the Options in Detail section
05/25/2021	Initial publication.

Options In Detail

Mercedes-Benz User Experience (Standard)

Extended MBUX Functions:

Say "Hey Mercedes", and your MBUX system awaits your commands. Personal profiles, predictive functions and a WiFi hotspot completely redefine the term digital networking

Many forms of interaction and personalization:

- The new C-Class now includes the latest generation of MBUX (NTG 7)
- Standard 11.9" Touchscreen Media display in portrait format as a visual highlight
- Up to seven different profiles are possible in the vehicle.
- Alongside entry of the Mercedes me PIN, new biometric and interconnected authentication functions ensure a high level of security. These are fingerprint (standard), and voice recognition (standard).
- New convenience functions include prepositioning of the driver's seat and outside mirrors according to body size
- The voice assistant "Hey Mercedes" listens even more carefully, and understands the occupants even better: "Hey Mercedes" can also be controlled from the passenger seat. Several microphones help to tell the system which seat the voice is coming from.
- "Hey Mercedes" explains functions. The activation keyword "Hey Mercedes" is no longer necessary for certain applications. An incoming call can be taken direct with "Accept call", for example
- The appearance of the screens can be individualized with a choice of display styles
- Key functions such as the lights or windshield wipers can still be operated directly. The climate control panel is permanently at the lower edge of the display

Wireless Smartphone Integration - Apple CarPlay, Android Auto (Standard)

Features:

- Smartphone Integration connects the mobile phone with the multimedia system wirelessly via Apple CarPlay™ or Android Auto™. This gives you convenient access to the most important apps on your smartphone.

Adaptive Highbeam Assist (Standard)

Features:

- Automatic on/off of the Highbeam headlights
- Camera on the inside of the windshield
- Detects oncoming vehicles and vehicles travelling in front which are illuminated
- Switched on by pressing the steering wheel control lever to the high beam setting

DIGITAL Light - PAX (Optional)

Features:

- HD light system with projection module (more than 1.3 million pixels per headlamp) and background module MULTIBEAM LED

- With data from the camera, sensors and navigation system, the brightness value for each individual pixel is calculated virtually in real time

- DIGITAL LIGHT projection functions, depending on local approval regulations, currently available with partial scopes in the USA

1. Projection function for symbols (42U), e.g. as a direction symbol for lane correction when departing the lane (if equipped with DAZ)
2. Projection function for animations (43U), light shows when opening and closing the vehicle

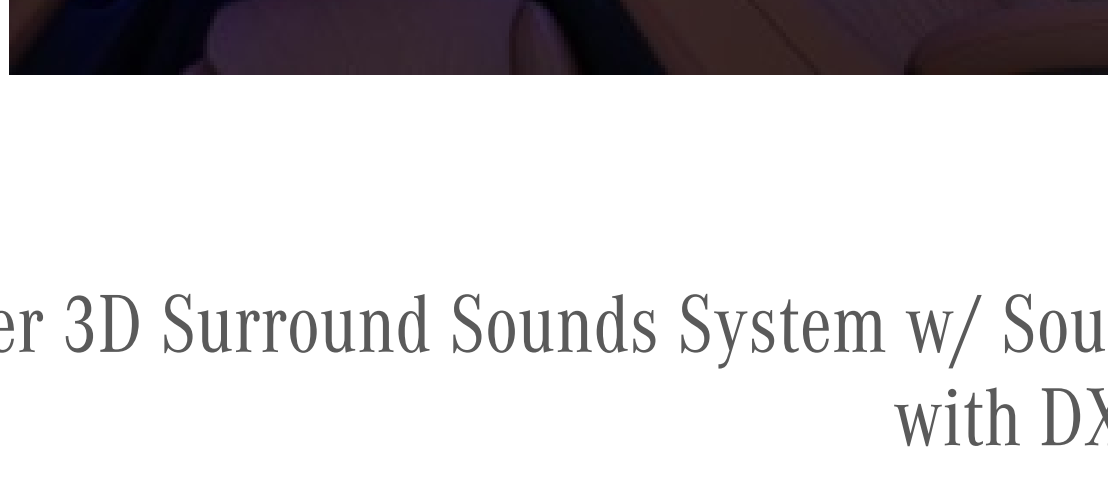

Ambient Lighting (Standard)

Features:

- Ambient lighting in 64 static colors, all colors can be selected individually
- Variable brightness settings
- 10 color moods, also with static or multicolor animated color sequences
- Three dimming zones (All, Ambient, and Accent)

Enhanced Ambient Lighting (Included with DX1 & DX2)

Features:

- Ambient lighting in 64 static colors, all colors can be selected individually
- Variable brightness settings
- 10 color moods, also with static or multicolor animated color sequences
- Four dimming zones (All, Direct, Ambient, and Accent)
- Additional Ambient lighting along the trim, center console, door panels, and air vents

Burmester 3D Surround Sounds System w/ Sounds Personalization & Music Streaming (Included with DX1 & DX2)

Features:

- 15 high-performance speakers tuned to match the vehicle interior and each with its own amplifier channel
- DSP amplifier with a total output of 710 watts (2 x 120 watts, 7 x 50 watts, 6 x 20 watts) - Increase of 120 watts compared to the previous generation Burmester Surround Sound system.
- 2 broadband speakers in the front area for 3D sound
- Frontbass technology with subwoofers integrated into the body shell
- Sound optimisation for the front, rear or all seats
- 2 sound presets: two built-in sound presets of the 3D surround sound system, you can change the listening experience with a single touch of a button. For completely unadulterated music enjoyment without any additional effects, you can activate the "Pure" style. In "3D-Sound" mode you can also enjoy virtual surround sound with all audio signals.
- Equalizer function for setting the bass, midrange and treble frequencies
- Noise compensation (VNC)
- Sound Personalization - A tailor-made listening experience: with the personalization of the sound system you can easily achieve your perfect sound setup. A setup assistant with innovative algorithms identifies your music preferences together with you and sets the Burmester® sound system to match your requirements. It stores the result in your personal profile.

Dashcam - 21U (Optional - Requires DX2)

Features:

- 15 high-performance speakers tuned to match the vehicle interior and each with its own amplifier channel
- DSP amplifier with a total output of 710 watts (2 x 120 watts, 7 x 50 watts, 6 x 20 watts) - Increase of 120 watts compared to the previous generation Burmester Surround Sound system.
- 2 broadband speakers in the front area for 3D sound
- Frontbass technology with subwoofers integrated into the body shell
- Sound optimisation for the front, rear or all seats
- 2 sound presets: two built-in sound presets of the 3D surround sound system, you can change the listening experience with a single touch of a button. For completely unadulterated music enjoyment without any additional effects, you can activate the "Pure" style. In "3D-Sound" mode you can also enjoy virtual surround sound with all audio signals.
- Equalizer function for setting the bass, midrange and treble frequencies
- Noise compensation (VNC)
- Sound Personalization - A tailor-made listening experience: with the personalization of the sound system you can easily achieve your perfect sound setup. A setup assistant with innovative algorithms identifies your music preferences together with you and sets the Burmester® sound system to match your requirements. It stores the result in your personal profile.

- Recording of videos with a resolution of 1280 x 720 pixels (720p) and a frame rate of 30 Hz
- Additional storage of speed and time embedded in the video signal
- Control menu in the media display
- Footage stored via USB stick using the Media Interface
- Video material can be viewed on a computer or the media display (only possible when vehicle is stationary) - for this the storage media must first be removed from the interface and reconnected

Advanced USB Package - 72B (Optional)

Features:

- Two USB-C ports in the centre console, with fast-charging capability and suitable for data transfer
- Two USB-C ports under the front centre armrest, with fast-charging capability and suitable for data transfer
- Two USB-C ports for the rear on the centre armrest, with fast-charging capability
- Two 12 V sockets, one in the front, one in the rear
- With this package, all 6 USB ports are capable of USB Power Delivery (100W)

Note: The standard USB offering includes:

- One USB-C port in the center console, suitable for data transfer
- Two USB-C ports under the front centre armrest, suitable for data transfer
- One 12 V socket in the front
- Maximum power for all 3 USB ports is 15W

Driver Assistance Package (DA2) - Only for DX1/DX2; In DX1, requires MB Navigation (PBG)

Features:

- The Driver Assistance Package features Level 2 automated driving. State-of-the-art driving assistance systems support the driver according to the situation in terms of speed adjustment, steering, lane changes and the risk of collision. The risk of accidents is reduced - passengers and other road users are effectively protected.
- Drivers are afforded a great degree of relief in monotonous traffic during lengthy trips, for example, and in bumper-to-bumper driving or traffic jams as well as before curves, roundabouts, T-junctions and the end of traffic jams, etc.
- The fusion of different radar, ultrasound and camera sensors, map and navigation data, and live traffic information gives the customer more functionality compared to standard/individual packages.

The Driver Assistance Package Includes:

- Active Distance Assist DISTRONIC
- Active Speed Limit Assist with response to changing speed limits
- Extended automatic restarting
- Route-based speed adaptation
- Active Steering Assist
- Active Lane Change Assist
- Active Emergency Stop Assist
- Evasive Steering Assist
- Active Blind Spot Assist with exit warning
- Active Brake Assist with turning and cross-traffic function
- End-of-Traffic Emergency Braking

DISTRONIC - 239 (Optional)

- Simply set the desired speed. The driver assistance system maintains this speed for you. In normal driving you don't need to constantly intervene yourself by braking or accelerating if the traffic ahead requires you to do so. Depending on which drive program you are in, your vehicle accelerates faster or slower up to the desired speed.

Features:

- Automatically acting driver assistance system: maintains the defined desired speed and at the same time controls the specified distance you have preselected

- When there are vehicles in front in flowing traffic: in a speed range from 0 to 100 mph

- Without any vehicles in front: in a speed range from 12 to 100 mph

- Visual and audible warning when the driver must intervene

- Depending on the drive program, the vehicle accelerates faster or slower up to the desired speed

Guard 360° (Included with DX1 & DX2)

In addition to the features included with the standard Parking Damage Detection, Guard 360 visualises the surroundings of the parked vehicle, for example if a collision has been detected. All the cameras of the 360° camera system are triggered. The resulting images are time-stamped. These images can be viewed in the central display as well as in the Mercedes me App and can then be used for further analysis purposes.

Standard vs AMG Line

Standard

Exterior Features:

- Radiator grille with integral Mercedes star and a chromed louvre, surround of the radiator grille in chrome
- Dynamic front bumper with centrally positioned trim element in mirror chrome and air inlets with diamond-pattern mesh in grained black
- Beltline trim strips in polished aluminium
- Side window surrounds in polished aluminium
- Side sill panels painted in vehicle colour

AMG Line

Exterior Features:

- AMG bodystyling consisting of AMG front apron with sporty air intakes and chrome trim element, diffuser-look AMG rear apron with insert in black plus AMG side sill panels
- Star Grille: Diamond radiator grille with pins in silver and louvre painted in high-gloss black
- Attractive light-alloy wheels: (18") AMG 5-spoke light-alloy wheels in high-gloss black with high-sheen finish (RSK):
- AMG front apron with trim (splitter) in high-gloss black
- Rear bumper with trim in high-gloss black
- Beltline trim strip and window weatherstrip in high-gloss black
- Exterior mirror housings painted high-gloss black

Head-Up Display - 444 (Optional)

The virtual image generated by the head-up display is projected into the driver's natural field of vision and appears to hover above the hood. The information selected by the driver, for example current speed, speed limits or navigation tips, is displayed in high resolution and in color. The information is therefore also easy to see on sunny days and at night.

The positioning in the direct field of vision enhances your concentration and the good perceptibility takes the strain off your eyes. These factors have a positive effect on your alertness, particularly on long journeys. To enable you to view the projection at a suitable angle, the height of the head-up display can be adjusted. The selected setting can be stored conveniently via the optional memory function for the driver's seat.

Details:

1. A lens and mirror system projects a virtual image into the driver's field of vision above the hood and at a distance of 4.5 m
2. Image size approx. 9" x 3" (approx. 71 x 23.5 cm) with a resolution of 720 x 240 pixels
3. Presentation of information in full colour, making it clearly legible even on sunny days and at night
4. Depending on equipment, display of navigation prompts, speed, speed limits and settings for cruise control or Active Distance Assist DISTRONIC
