---

I am selling my very fun to drive and rare C36 with a clean title. Only about 3,000 of these cars were ever made in the whole world. But the best part is its still on a C class chassis so most parts are inexpensive to repair and maintain.

Car was sold in 1996 fully loaded! Power seats, power windows, AC with climate control, Power mirrors, power steering, ABS brakes, Active Stability control, Heated seats, sun roof, and key-less entry!

When driving this car you're surrounded by extremely nice leather and wood grain. I must warn you once you move up to this level of a car in luxury you'll be hooked. Makes moving on to other cars expensive =)

This car is also very easy to drive and safe.

Has 188k miles but still runs very strong. With proper maintenance I would expect this car to run for 300k miles. Since I purchased this car over 2 years ago I've upgraded / fixed the following:

New wind shield (less than 1k miles since replaced) Makes you forget you're driving an older car

New Brakes (within 3k miles) This included pads all the way around and zimmerman cross drilled rotors in the front.

New Tires (within 4k miles)

New Alternator (5k miles ago)

New fan belt (under 10k miles ago)

New radiator hoses upper and lower (same time as the fan belt)

- When the radiator was drained we put in 40 below instead of just standard radiator fluid. It is what we use in our race cars and it keeps the temperatures low.

New thermostat (less than 10k miles ago)

Purchased and had installed a Mercedes Control Arm and bushing rebuild kit.

Kit included:

2 x Upper Control arm

2 x Lower Control Arm Rep. Kits(10 pcs)

2 x Tie Rod Ends

1 x Center Link

2 x Ball Joints

1 x Idler Arm

2 x Engine/Motor Mounts

1 x Transmission Mount

2 x Rear Sway Bar Links

Purchased but have not yet installed new Bilstein sport shocks for all 4 corners

Touch screen radio from Jenson with built in iPod support. Allows you to connect your ipod directly up to the car using the digital port. This is located in the glove box. So its like a 100 disc cd changer but better.

On the appearance side I've replaced my front grill after a grocery kart dented it. The new grill is an S600 style, very nice quality and worth the price.

Tinted all 7 rear and side windows at Tint Devil off of Mirimar road. I did get the high end no metal tint that has a lifetime warranty. #20 all the way around.

Replaced the driver side tail light. When I purchased the car it was cracked.

Replaced they key and also ordered spares just in case. Surprisingly cheap from the Mercedes dealership

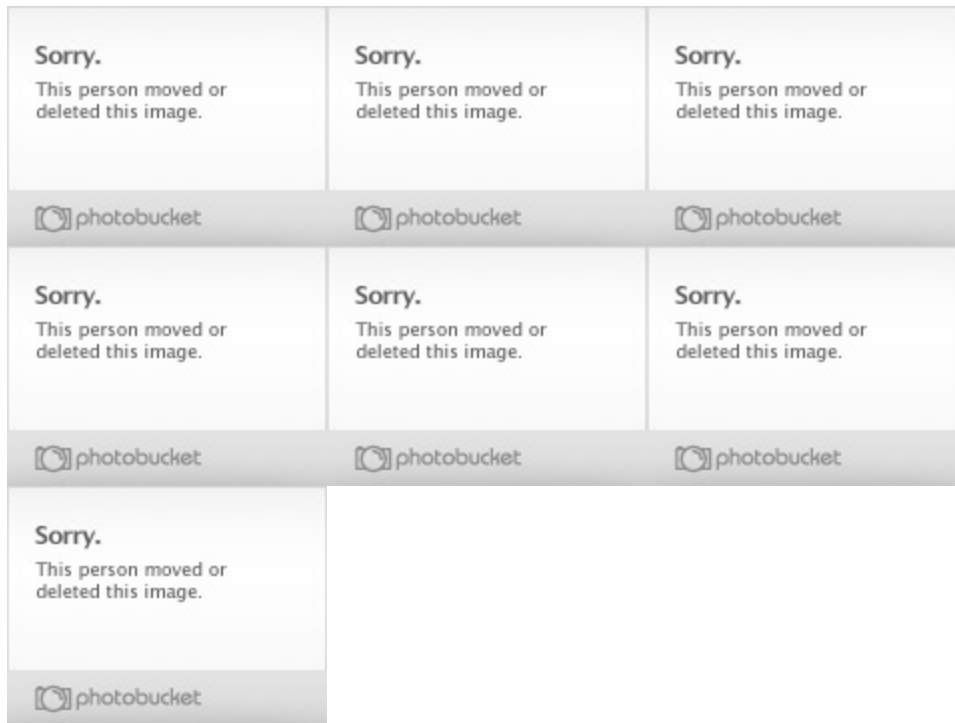

If interested please feel free to contact me @  Price is \$6500.

And what really sells it... the pictures:

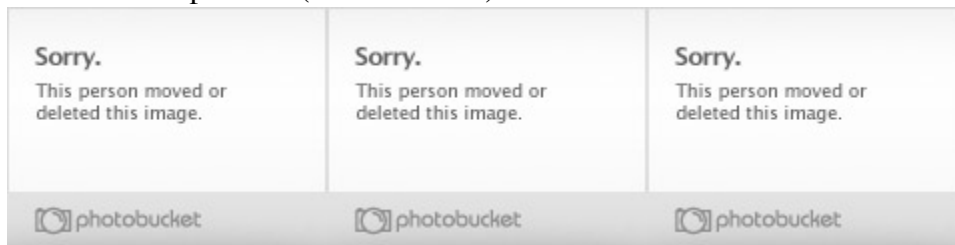

I will have more up to date pictures after the rain stops over the weekend. However these are not out of date.. car looks and runs the same.

Also I will be including pictures of the front brakes, interior (which is spotless btw) and the stereo.

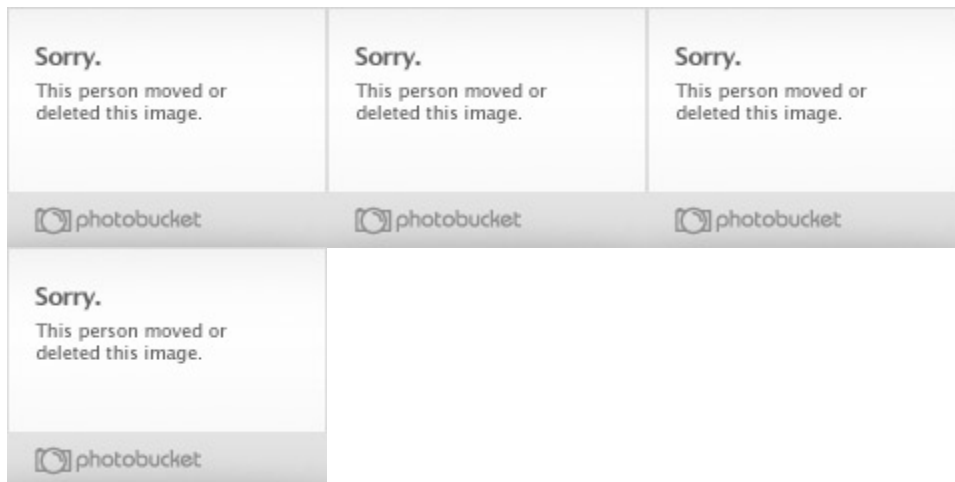

Exterior:

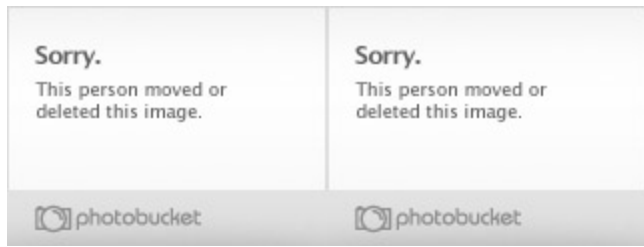

Some interior pictures (more to come)

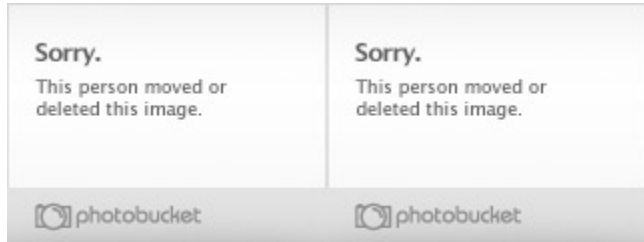

Radio with iPod interface:

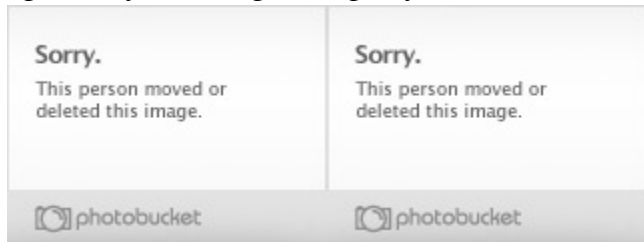

Temperatures while driving over the grapevine. Shows you how well they built this car.

New Grill after the shopping cart beat up the old one:

Spare Keys and original flip key:

bmw m3 acura accord honda mazda rx7 miata rx8 ford gm toyota supra m5 m6 chevy mustang  
camero volvo sabb vw lexus infiniti mini cooper lancer evo c230 c240 c280 c300 c350 sti
