Product Highlights:

COLLISION PREVENTION ASSIST PLUS

Standard on all C-Class Sedans

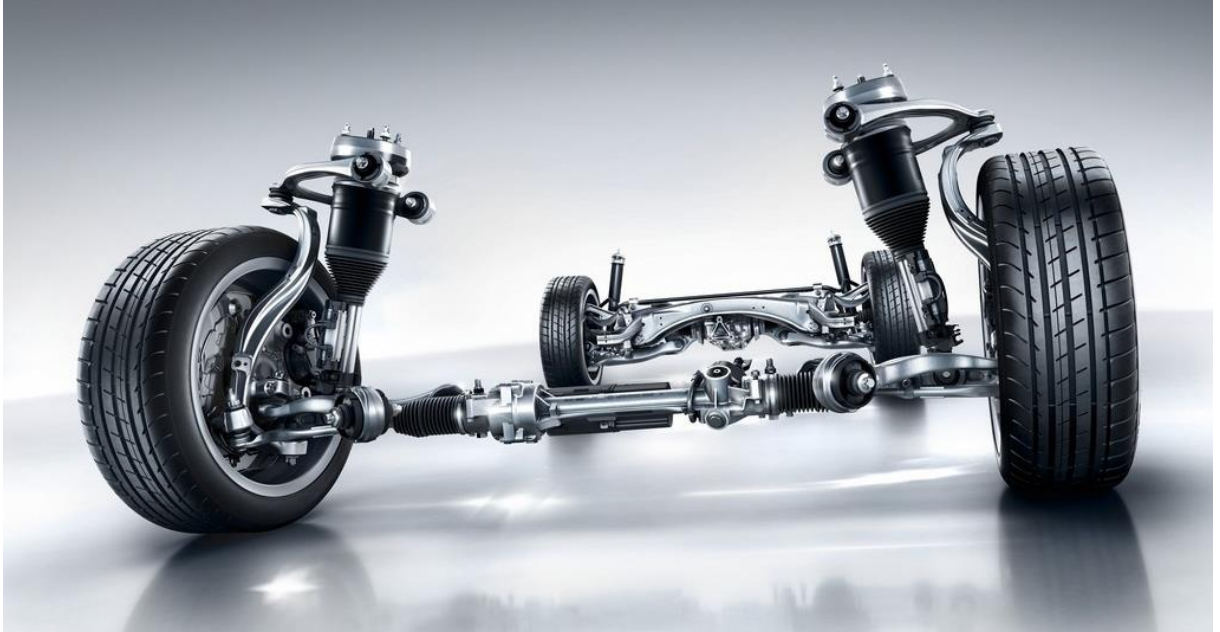

- Driving assistance system to lessen the danger of rear-end collisions and mitigate the consequences of accidents
- Combination of radar-based distance warning, assisted braking by Adaptive Brake Assist and autonomous partial braking
- Visual warning via a warning light in the instrument cluster when the safe distance to vehicles in front is too low within a speed range between 4 and 155 mph
- An additional audible warning is sounded if the distance continues to close rapidly
- In case of emergency braking by the driver – and if necessary – COLLISION PREVENTION ASSIST PLUS will increase the brake pressure provided by Adaptive Brake Assist to prevent a collision
- Initiation of autonomous partial braking if the driver fails to react within a speed range of 4 and 65 mph

Product Highlights: AIRMATIC Air Suspension

Standard on C350e; N/A for AMG Models

The combination of AIRMATIC air suspension and DYNAMIC SELECT provides for a tailor-made driving experience.

- DYNAMIC air suspension with continuously variable damping control
- DYNAMIC SELECT with four different transmission modes (adjustment of parameters such as engine, transmission, suspension, steering, air conditioning or ECO start/stop function)
- The individual parameters are set via the controller and the configuration menu in the head unit
- Display of the selected transmission mode in the instrument cluster and head unit

Product Highlights: Head-Up Display

Optional for all C-Class Sedans

Keeping an eye on key information and the road ahead:

- Key driver information at a glance, without the driver having to take their eyes off the road
- Projection of a virtual image measuring approximately 8.2 x 2.8 inches into the driver's field of vision, which appears to float around 6.5 feet in front of him/her, above the bonnet.
- Information is displayed in high-resolution and in color.
- Depending on equipment, the information displayed may include navigation tips, speed, speed limits or settings for cruise control or DISTRONIC PLUS.
- Special light sensor adjusts the brightness of the display to suit the ambient light conditions.
- Height of the display can be adjusted, making it easy to read for drivers of all sizes.

Product Highlights: Ambient Lighting

Optional for all C-Class Sedans

Polar (ice blue)

Climb in and feel at home – with its pleasant, indirect light, the ambient lighting creates an unrivalled sense of well-being in the interior. Especially at night, it accentuates the contouring and high quality of the interior design.

Three different colors and five dimming levels are available for the desired lighting mood:

- neutral (white)
- solar (amber)
- polar (ice blue)

Product Highlights: C350e Plug-in Hybrid

Intelligent Hybrid Functions & Recommended Features

The C350e Plug-in Hybrid is one of the most efficient C-Class models to-date, without losing any of the sporty characteristics expected from the C-Class.

What is the advantage of charging the C 350e?

- With a fully charged battery, the e-motor works most efficiently together with the turbocharged 4-cylinder engine to provide excellent fuel economy. The e-motor can drive the C 350e completely on electric and provide extra boosting power to accelerate on the highway.

Key features

- **Powerful combined horsepower and torque** 275 hp with 443lb-ft of torque (34 horsepower and 170 more lb-ft of torque more than the C300)
- **Programmable climate control** to turn on the heat or air conditioning with the key, or setting a schedule (i.e. heat on 8:00AM for your morning commute)
- **Intelligent Hybrid systems** which takes navigation data and the traffic situation from COMAND to drive as efficiently as possible
- **Radar Based Recuperation** analyzes the road ahead and determines the best possible use for recuperating energy back into the battery

Recommendations. To take full advantage of the intelligent hybrid features, the following packages are recommended:

- **P03 Package** – Using the COMAND navigation system, the vehicle can intelligently decide whether it is more efficient to use the battery, engine, or combination of both. The car analyzes highway vs city driving, elevation changes, and more.
- **319 Lighting Package** – Enhance the intelligence of the C350e Hybrid with an advanced lighting system with unique hybrid-specific elements.
