

Module Info : ME

Module : ME 2.0/2.1
MB - Nr. : 029 545 34 32
Supplier : Bosch
Hardware-Version: 48/99
Software-Version: 31/99
Diagnosis recogn.: 1/08

mel.dxt

0300 Off assessor / Off assessor Catalytic Converter noxious

Verify the primary voltage of the ignition coil :

-> While STARTER = ACTIVATED : 200-350 V
and the resistance (IGNITION = OFF) : 0.9-1.4 Ohm

Also check the wiring and connections.

Also check the secondary voltage of the ignition coil :

-> While STARTER = ACTIVATED : 8-20 KV
(resistance can not be measured --> build in diode)

0303 Off assessor Cyl.3/ Off assessor Cyl.3 Catalytic

Verify the primary voltage of the ignition coil :

-> While STARTER = ACTIVATED : 200-350 V
and the resistance (IGNITION = OFF) : 0.9-1.4 Ohm

Also check the wiring and connections.

Also check the secondary voltage of the ignition coil :

-> While STARTER = ACTIVATED : 8-20 KV
(resistance can not be measured --> build in diode)

- Single diagnosis completed !

Single diagnosis Traction - Status: Module is not build in,
or does not respond !

Diagnosis terminated !
