Smartphone Integration package (Code 14U)

Available as retrofit for vehicles with NTG5*1 COMAND Online up until 30.11.2015

IN BRIEF

- ▶ The Smartphone Integration package is now available as a retrofit for vehicles with NTG5*1 COMAND Online.
- ▶ Depending on the market and end device, it supports Apple CarPlay™ and Google Android Auto.

NEWS

- ▶ Smartphone Integration package consisting of Apple CarPlay™ and Android Auto as well as micro USB and iPhone® Lightning charging cables.
- ▶ Smartphone Integration - for safe and intuitive use of the smartphone:
The Smartphone Integration package allows you to integrate both iPhones® and Android smartphones on board (iPhones® via Apple CarPlay™ and Android phones via Android Auto) and control them using voice commands - individual features can also be operated via the on-board control elements. This enables safe use while on the move. The connection to the smartphone allows access to up-to-date software and data such as navigation and traffic information, media (streaming media and IP radio) as well contact data, telephony/FaceTime and messaging. To prevent driver distraction while on the move, there is no complete duplication of smartphone content.
- ▶ Activation and operation:
The smartphone can be connected via the USB cable provided (the designated port is labelled with the relevant icon). Depending on the setting, the smartphone connects automatically following initial set-up or following manual selection. It is operated using the Controller in the centre console.
- ▶ Availability:
The Smartphone Integration package is available for all vehicles with NTG5*1 COMAND Online up until 30.11.2015 with the exception of model series 212. Availability also depends on the market and end device.
See www.mercedes-benz.com/connect for an overview of supported smartphones and www.apple.com (CarPlay) and/or www.android.com (Android Auto) for the latest information on approved markets and functions.

POINTS TO NOTE

- ▶ **Delivery comprises:**
 - 1 x multimedia box
 - 1x charging cable with Lightning connector, length: 100 cm
 - 1x charging cable with micro USB connector, length: 100 cm
