► To switch on the power supply: press Start/Stop button (1) once.

The power supply is switched on. You can now activate the windshield wipers, for example.

The power supply is switched off again if:

- the driver's door is opened and
- you press Start/Stop button (1) twice when in this key position
- ► To switch on the ignition: press Start/Stop button (1) twice.

The ignition is switched on.

If you press Start/Stop button (1) once when in this position, the ignition is deactivated again.

- Start/Stop button USA
- ② Start/Stop button Canada

## **SmartKey**

You can also start the vehicle with the SmartKey in the ignition lock.

The ignition lock is located in the rear stowage space of the center console.

- o To remove the SmartKey
- 1 Power supply for some consumers, such as the windshield wipers

- 2 Ignition (power supply for all consumers) and drive position
- 3 To start the engine
- 1 The SmartKey can be turned in the ignition lock even if it is not the correct SmartKey for the vehicle. The ignition is not switched on. The engine cannot be started.

## Starting the engine

# Important safety notes

## **↑** WARNING

If children are left unsupervised in the vehicle, they could:

- open the doors, thus endangering other people or road users.
- get out and disrupt traffic.
- operate the vehicle's equipment.

Additionally, children could set the vehicle in motion if, for example, they:

- release the parking brake.
- shifting the automatic transmission out of park position P
- Start the engine.

There is a risk of an accident and injury.

When leaving the vehicle, always take the SmartKey with you and lock the vehicle. Never leave children or animals unattended in the vehicle. Always keep the SmartKey out of reach of children.

## ♠ WARNING

Combustion engines emit poisonous exhaust gases such as carbon monoxide. Inhaling these exhaust gases leads to poisoning. There is a risk of fatal injury. Therefore never leave the engine running in enclosed spaces without sufficient ventilation.

#### ♠ WARNING

Flammable materials introduced through environmental influence or by animals can ignite if in contact with the exhaust system or
