

# AMG GT Coupe

C190

Model Year 2020

Pricing Preliminary

**AMG**  
DRIVING PERFORMANCE

## Important note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

## Revision History

<i>Date</i>	<i>Changes</i>
11/2018	Initial Release
01/2019	DE7 Carbon Fiber Package I – Delayed until 1 <sup>st</sup> decade of July for GT R

- 12-o'clock marking.

### **L6H - AMG Performance Steering Wheel – Carbon Fiber/DINAMICA**

*Option Price for GT: \$900, GT C: \$300*

*Only with H21 or H73 Trim*

*Not compatible with PAK*

*GT and GT C Only*

- flattened bottom section
- Side grips finished in DINAMICA microfiber
- silver-colored aluminum shift paddles
- 12-o'clock marking

### **L6G – AMG Performance steering wheel – Full DINAMICA**

*Standard on GT C & GTR*

*Steering Wheel included with PAK AMG Interior Night Package*

- flattened bottom section
- fully trimmed in DINAMICA microfiber
- silver-colored aluminum shift paddles
- 12-o'clock marking

## *Steering Wheels*

### **L6L - AMG Performance Steering Wheel – Nappa/Black Piano Lacquer**

*Option Price for GT: \$600, GT C: \$0*

*Only with H21 or H77 Trim*

*Not compatible with PAK*

*GT and GT C Only*

- flattened bottom section
- perforated grip areas
- silver-colored aluminum shift paddles
- 12-o'clock marking.

## Brakes

### **AMG High-Performance Braking System (B06)**

*Standard on GT (GT only)*

- Front axle: 14.2" front brake discs, internally ventilated and perforated with 6-piston fixed calipers
- Rear axle: 14.2" rear brake discs, internally ventilated and perforated with single-piston floating caliper
- Anodised silver-color finish

### **AMG High-Performance Composite Braking System (U70)**

*Standard on GT C*

*Option price for GT R: \$0*

- Front axle: 15.4" front brake discs, internally ventilated and perforated with 6-piston fixed calipers
- Rear axle: 14.2" rear brake discs, internally ventilated and perforated with single-piston floating caliper
- Red-painted brake calipers

### **AMG High-Performance Composite Braking System (U69)**

*Standard on GT R (GTR only)*

- Front axle: 15.4" front brake discs, internally ventilated and perforated with 6-piston fixed calipers
- Rear axle: 14.2" rear brake discs, internally ventilated and perforated with single-piston floating caliper
- The brake calipers painted in a yellow color with AMG logo convey a sense of value and sportiness
- Yellow-painted brake colors

### **AMG High-Performance Ceramic Composite Braking System (B07)**

*Option Price for GT C & GTR: \$8,950*

- Front axle: 15.8" front brake discs, internally ventilated and perforated with 6-piston fixed calipers
- Rear axle: 14.2" rear brake discs, internally ventilated and perforated with single-piston floating caliper
- Weight reduction of 40% compared with conventional steel brake discs
- Signature Bronze-painted brake calipers

## *Sound Systems*

### **Loudspeaker – 4**

*Standard on GT & GTR*

- 100 W output
- Tone controls (bass, treble, fader, balance)
- Separate audio/telephone volume control
- Lowest weight of all available sound systems

### **810 Burmester® Surround Sound System**

*Option Price for GT & GTR: \$1,300, Std. on GT C*

- 10 high-performance speakers, including subwoofer in rear, precisely tailored to the vehicle interior to ensure well-balanced and very dynamic music reproduction
- 10-channel DSP amplifier with a total output power of 640 watts for optimum sound quality
- Combination of digital and analogue filter elements for that unique Burmester "feel-good sound"
- Noise compensation (VNC)
- Support for common multi-channel formats, e.g. Dolby Digital 5.1/DTS for genuine surround sound

### **811 Burmester® High-End Surround Sound System**

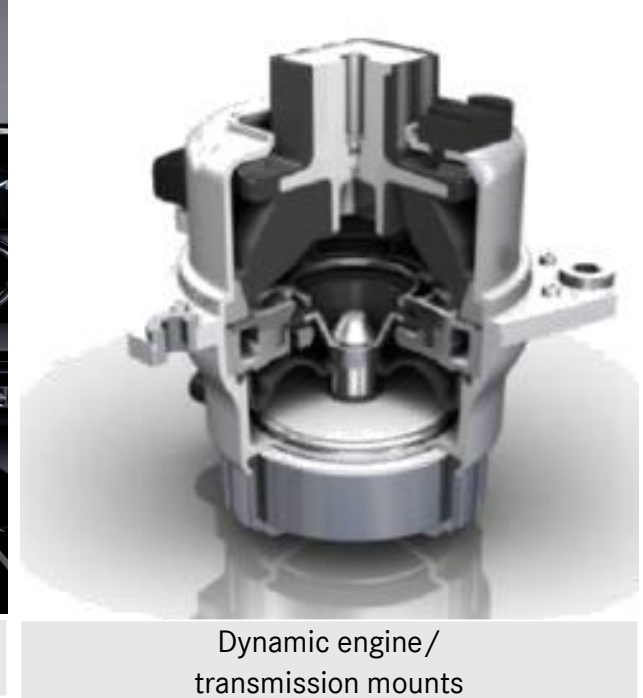

*Option Price GT C & GTR: \$4,500*

- 11 high-performance loudspeakers including subwoofer
- 11-channel amplifier with active crossover and a system output of 1000 watts
- Active analogue filters
- VIP seat function to optimize the sound for driver or pass.
- Noise compensation (VNC)
- 4 sound presets to enhance the listening experience: Pure, Easy Listening, Live, Surround
- Support for common multi-channel formats, e.g. Dolby Digital 5.1/DTS for genuine surround sound

## *AMG DYNAMIC PLUS Package (P71)*

L6G - AMG Performance steering wheel – Full DINAMICA

Dynamic engine/  
transmission mounts

### **AMG DYNAMIC PLUS Package (P71)**

*Standard on GT C & GTR (N/A on GT)*

Content:

- Enhanced suspension profile
- Enhanced steering profile
- Increased negative camber

## AMG Night Styling (P60)

Front splitter in gloss black	Grille in gloss black	Side fins in gloss black	Side window trim in gloss black	Side view mirror housings in gloss black	Tailpipes in black chrome	Rear apron trim in gloss black
-------------------------------	-----------------------	--------------------------	---------------------------------	--	---------------------------	--------------------------------

### **AMG Night Styling (P60)**

*Option Price: \$750*

*GT & GT C only*

*NOTE: Cannot be combined with:773 - Exterior Carbon Fiber Package*

*This package is compatible with B26 AMG Aerodynamic Package.*

## AMG Aerodynamic Package (DC3)

Enhanced matte black front splitter

Matte black air intake flics

Matte black front wheel arch flics

Matte black side sill extensions

High-gloss black Fixed Rear Spoiler

### **AMG Aerodynamic Package (DC3)**

*Option Price: \$2,850*

*GT & GT C only*

*NOTES: Cannot be combined with DE7 – AMG Exterior Carbon Fiber Package.*

*Product Management recommends combining with with: P60 – AMG Night Styling.*

## AMG Carbon Fiber Package I (DE7)

Front Splitter in Carbon Fiber

Side Fins in Carbon Fiber

Side Window Trim in Gloss Black

Side View Mirror Housings in Carbon Fiber

Rear Apron Insert in Carbon Fiber

### **! AMG Carbon Fiber Exterior Trim (DE7)**

Option Price: \$5,300 (GT C) or \$5,250 (GT R)

GT C & GT R only

NOTES: Cannot be combined with P60 – AMG Night Styling, DC3 – AMG Aerodynamic Package.

Deletes 871 Hands Free Trunk Access.

## *AMG Exterior Carbon Fiber Package II (DC4)*

### **AMG Exterior Carbon Fiber Package II (DC4)**

Option Price: \$4,000

GT R only

## *PAK – AMG Interior Night Package*

### **PAK – AMG Interior Night Package**

***Compatible with H21 and H77 Interior Trims, L6G Steering Wheel Only  
GT C (Optional), GT R (Standard)***

*Option Price (GT C): \$800*

The following elements are finished in black or high-gloss black:

- Door sill with AMG lettering illuminated in white
- Steering wheel spokes
- Steering wheel bezel
- Steering wheel gearshift paddles
- Seat insert beneath the head restraints
- Luggage compartment strut

## AMG Carbon Fiber Engine Cover (B14)

**AMG carbon fiber engine cover (B14)**

*Option Price: \$1,500*

*GT C only*

*NOTE: Standard on GT R*

## Fixed Panorama Roof (416)

---

### **Fixed Panorama roof (416)**

*Option Price: \$1,260*

*GT only*

*Standard on GT C*

*Fixed Panorama Roof (does not open) - Includes Roller Shade. NOTE: Aluminum Roof - Standard.*

## Seat Belts (Y04/Y05/Y06)

Y04 - Silver seat belts

### **Seat belts (Y04)**

*Option Price: \$500*

*Black Seat Belts Are Standard For All Interiors.*

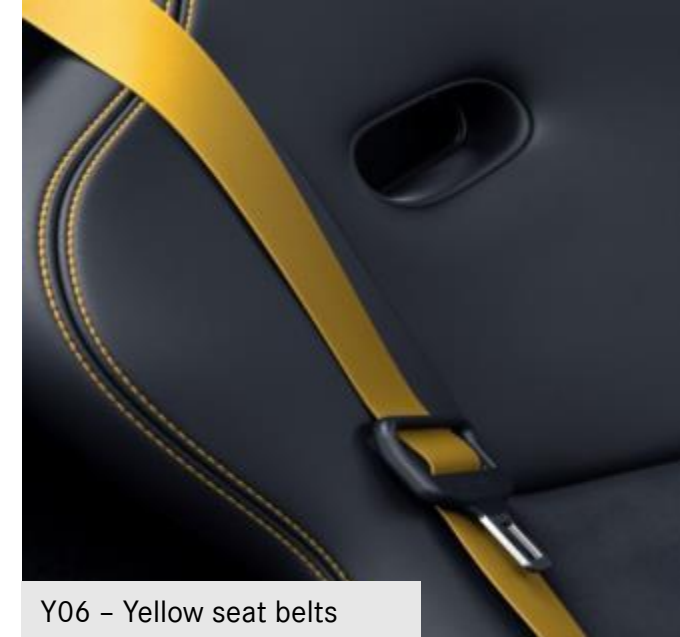

Y05 - Red seat belts

### **Seat belts (Y05)**

*Option Price: \$500*

*Black Seat Belts Are Standard For All Interiors.*

*PM NOTE: Y05 does not coordinate with Red Pepper Interior Upholstery*

Y06 - Yellow seat belts

### **Seat belts (Y06)**

*Option Price: \$500 (GTR only)*

*Black Seat Belts Are Standard For All Interiors.*

## *Door Sill Covers*

### **AMG stainless steel door sill covers**

*Option Price: \$0*

*NOTE: Becomes black stainless steel with PAK AMG Interior Night Package*

### **U25 - AMG illuminated door sill covers**

*Option Price: \$700*

*Standard on GT C*

*NOTE: Becomes black stainless steel with PAK AMG Interior Night Package*

### **B29 - AMG carbon fiber door sill**

*Option Price: Covers, \$1,200*

## *GT R PRO Exterior*

U15 – edition stripes will be light green when combined with Selenite Grey Magno, and Matte Dark Grey when combined with all other colors. Stripes can be deleted with Omission code U03

Edition Specific RXE wheels are the RXC GT R wheels painted Grey

## *GT R PRO Stripes*

U15 - edition stripes will be light green when combined with Selenite Grey Magno, and Matte Dark Grey when combined with all other colors. Stripes can be deleted with Omission code U03

## *GT R PRO Details*

The new limited-edition AMG GT R PRO is characterized by further improved driving dynamics, in particular on the racetrack. Experience gained from the AMG GT3 and AMG GT4 racing cars was influential in its development, and no other current production Mercedes-AMG is as close to motor racing as the new AMG GT R PRO.

- The new AMG coil-over suspension offers even more choice for tailoring the set-up to the particular track. As in professional motorsport, the driver is not only able to set the spring preload length mechanically, but can now also adjust the compression and rebound of the dampers. This is done quickly and precisely without tools via a click system with an integrated adjustment dial on the damper.
- The AMG GT R is already fitted with Uniball spherical bearings at the lower wishbones of the rear axle. The AMG GT R PRO now gets these bearings also for the upper wishbones. They are significantly more wear-resistant than conventional wishbone bearings and due to their design have no play, which means toe-in and camber do not change even under high loads. As a result, the AMG GT R PRO can be driven with even more precision.
- In addition to a host of carbon-fiber components, weight is saved by making the ceramic composite high-performance braking system standard. And exclusively for the AMG GT R PRO, the brake calipers will be painted black with white lettering.
- Aerodynamic fine-tuning increases the overall performance of the AMG GT R PRO as well. The redesigned front apron was fitted with two flics at the sides made of clear-coated carbon fiber. The lower flics transition virtually seamlessly into the front splitter, which was extended further forward and is held by small metal braces that stabilize the front splitter at higher speeds. The air slots, or gills, in the front fenders effectively vent the wheel arches and contribute to reducing front-axle lift. At the rear, a clear-coated carbon-fiber aero element at the wheel arch on either side rises up vertically almost to the level of the tail lights. The combination of all these measures significantly reduces front-axle lift without negatively impacting the aerodynamic conditions at the rear axle.

- The AMG GT R PRO doesn't only drive like a racing car, it also looks the part. The standard Carbon Fiber Packages I and II with front splitter, fins in the fenders, trim strips in the side sills, side mirrors, rear spoiler, and a diffuser with high-quality clear-coated carbon-fiber finish emphasize the racing inspired design and performance. Additionally, the carbon-fiber roof has been redesigned with a lowered center exclusively for the AMG GT R PRO.
- Even before the world premiere, the new AMG GT R PRO has impressively demonstrated its performance potential on the racetrack: In early November, AMG brand ambassador and AMG GT3 racing driver Maro Engel completed a circuit of the Nürburgring North Loop in exactly 7.04.632 minutes driving a still disguised AMG GT R PRO. This considerably bettered the previous time for the AMG GT R and demonstrated the great potential of the current AMG flagship model.

## Handcrafted AMG 4.0L V8 Biturbo engine (M178)

### Handcrafted AMG 4.0-Liter V8 Biturbo engine (M178)

#### Standard

The newly developed AMG 4.0-litre V8 Biturbo engine in the Mercedes-AMG GT combines outstanding performance with ideal weight distribution. It is installed as a front mid-engine behind the front axle and connected to the transmission at the rear axle via the torque tube in a transaxle configuration. The presence of a dry sump lubrication system furthermore results in a significant lowering of the vehicle's center of gravity and greater lateral acceleration.

The most important performance data:

#### GT

- **Output:**

469 hp @ 6,000 rpm

465 lb/ft @ 1,900-5,000rpm

- **Technical Features:**

Dry Sump Lubrication

- **0-60mph:**

3.9 sec

- **Top Speed:**

189 mph (electronically limited)

#### GTC

- **Output:**

550 hp @ 5,750 - 6,750 rpm

502 lb/ft @ 2,100-5,500 rpm

- **Technical Features:**

Dry Sump Lubrication

- **0-60mph:**

3.6 sec

- **Top Speed:**

196 mph (electronically limited)

#### GTR

- **Output:**

577 hp @ 6,250 rpm

516 lb/ft @ 2,100-5,500 rpm

- **Technical Features:**

Dry Sump Lubrication

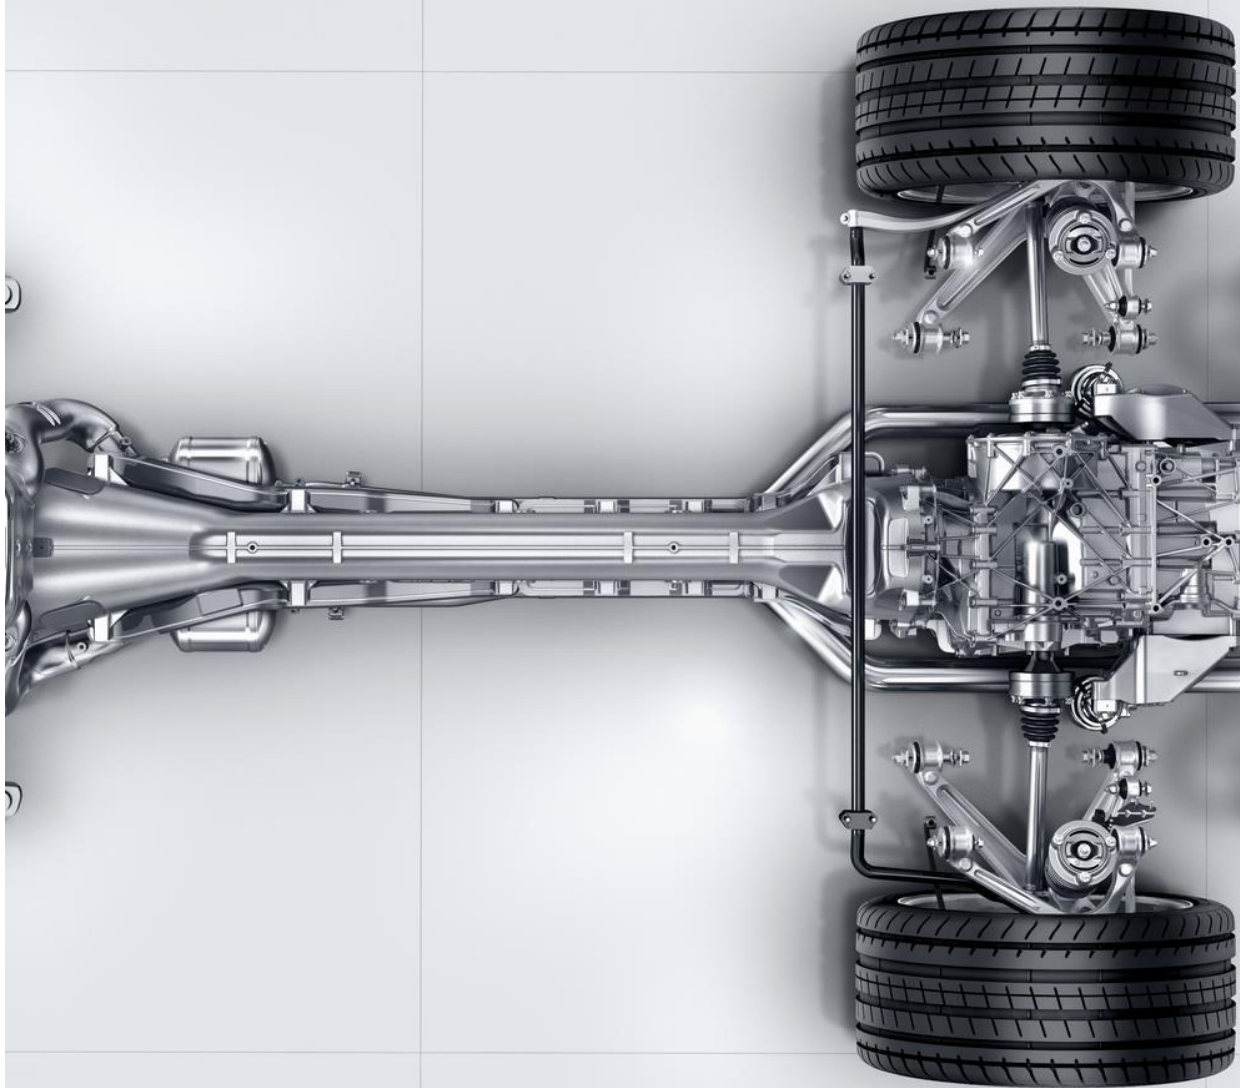

- **0-60mph:**

3.5 sec

- **Top Speed:**

198 mph (electronically limited)

## AMG SPEEDSHIFT® DCT 7-speed transmission

### AMG SPEEDSHIFT® DCT 7-speed transmission

#### Standard

Connected to the engine through the Carbon Fiber driveshaft, itself weighing less than 9lbs., this Dual-clutch transmission boasts spontaneous gear changing and extremely short shift times. 7 gears, 4 or 5\* automatic modes, one manual mode plus double declutching and RACE START\* functions allow exceptionally dynamic acceleration.

- 6 modes selectable using the AMG DYNAMIC SELECT Controller (5 modes for GT)
- Momentary Manual mode: Change to "M" by actuating the shift paddles, will resume to automatic mode after 10 seconds
- When calling on Momentary Manual mode, holding the downshift paddle will place the car in an "optimized downshift" gear, while holding the upshift paddle will place in "highest possible" gear
- The Transaxle transmission is paired to two types of limited-slip differentials, depending on model - with GT featuring a mechanically-actuated version and GT C and GT R featuring electronically-actuated versions with faster detection of variance of wheel speeds
- Partial ignition interruption during upshifts and automatic double-declutching function when downshifting, for emotional exhaust note
- Able to perform 7-3 and 5-2 downshifts cycles when throttle is called upon, with less than 100ms shifts in Sport Plus "S+" and "RACE" modes
- ECO start/stop function and sailing mode in "C" mode

## *AMG Sport Suspension*

### **AMG Sport Suspension**

*Standard on GT (GT only)*

The AMG Sport Suspension delivers impressive roadholding performance thanks to implementation of a double-wishbone design that has proved so successful in AMG motorsports.

Due to this double-wishbone design, the wheel location and suspension functions are entirely separate. Therefore, the driver benefits from stable and harmonious handling performance, even at the limits, thanks to a high level of camber and enough damping in the suspension for quick reflexes in a track setting.

- All 4 wheels are located on double wishbone suspension, with separate control of wheels and springs
- High level of camber and track rigidity: Ensures more precise wheel location and more communicative road feel at the handling limit
- For even more precise roadholding, the spring/damper struts on the rear axle are directly connected to the hub carrier
- Wishbones, steering knuckles and hub carriers made of forged aluminum reduce unsprung weight

## AMG RIDE CONTROL Sport Suspension w/ Variable 3-stage Damping

### **AMG RIDE CONTROL Sport Suspension**

*Optional on GT, Standard on GT C & GTR*

The AMG 3-stage Adaptive Sport Suspension with adaptive adjustable damping provides three different driver-selectable suspension modes. The driver is able to choose between "Comfort", "Sport" and "Sport Plus" at the touch of a button on the center console or by selecting the mode on AMG DYNAMIC SELECT, optimizing the damping characteristics for the current driving situation – from highly comfortable for cruising to sporty for cornering at speed.

The suspension also delivers impressive racetrack performance thanks to implementation of a double-wishbone design that has proved so successful in AMG motorsports.

3 suspension levels: "Comfort", "Sport", "Sport Plus", manually adjustable or selectable by selecting the mode with the AMG DYNAMIC SELECT Controller

Continuously operating damping system enhances driving safety and provides excellent lateral dynamics and driving stability at high speeds.

Damping tuning is controlled individually for each wheel and is dependent on the driving style, the road surface condition and the selected suspension setting.
