

ENGINE 642 in MODEL 164.124/824, 221.122, 251.124, 463.306/336/346

Modification notes

19.6.13	Information on "Mercedes-Benz engine oil MB 229.51 BlueTEC" added		
---------	---	--	--

Due to recent events, we would like to notify you of the new engine oil specification 229.52.

The engine oil must be used for the following models:

- 164.124/824, 251.124, 463.306/336/346
- 164.125/825, 251.125 only for OM642 BIN 5 engines (USA/Canada)
- 221.122 only for English market

At present, this engine oil specification lists five approved engine oils. The link below opens a list of the approved engine oils with the engine oil specification 229.52.

- Link: http://bevo.mercedes-benz.com/bevolisten/229.52_de.html

i The "Mercedes-Benz engine oil MB 229.51 BlueTEC" product from MBBV Sheet 229.51 can also be used for these critical model series.

After the Specifications for Operating Fluids are updated, the other systems (WIS, etc.) will be updated without delay by the end of 07/2013.

Make sure that only the engine oil listed under the link is used for the above-listed models throughout their entire service life.

If problems with regard to the availability of these engine oils are encountered, please inform your responsible national representative.
