

## Telephone consoles/ Mercedes-Benz drive-in cinema

Stay in touch safely while on the move. The Mercedes-Benz hands-free system can be used with a range of over-the-counter mobile phones.

The rear-seat entertainment-system means your back seat passengers can watch their favourite movies or cartoons and also listen to CDs.

The system can be fitted easily into the console of your Mercedes-Benz.

A state-of-the-art 7" LCD-colour display provides a high quality image. Optional headphones mean you don't have to listen to the soundtrack unless you want to. The player and monitor can be removed from your vehicle for theft protection.
