Latane,

The response date in the letter (signed and dated version attached) was inadvertently set to 4 weeks instead of the 7 weeks ODI would normally allow. The correct response date should have been April 3rd, my apologies for the error. Your request to extend the response to April 13th is approved.

[REDACTED], please place a copy of this email in the investigative file.

Subject: PE 12-001

Scott,

As we discussed, MBUSA and DAG are actively working on responding to the IR letter in PE12-001, but will need more time than originally provided in the text of the IR letter.

The due date in the IR letter is March 16. Because of some issues with the email addresses that were initially used to send this out, we did not get a copy of this letter until February 15. In addition, although the Opening Resume covers approximately 8,130 vehicles, the IR letter expanded the scope of subject vehicles to request data and information on over 300,000 vehicles. This additional scope covers four vehicle models and six model years.

As we discussed, we will get you the requested information by April 13. If possible, we will try to get you the data sooner than that, and will prioritize the field data for the original subject vehicles listed in the Opening Resume first, then the additional field data for all Subject Vehicles, and finally the remaining requests.

Thank you for your cooperation.

Best Regards,

Latane

R. Latane Montague
