Mercedes-Benz

Enhances your in-vehicle experience.

On the go doesn't have to mean out of touch

Let's face it - we've all become accustomed to using technology to keep us connected, to make day-to-day tasks more convenient, and simply enhance the quality of our lives. Mercedes-Benz believes that just because you get behind the wheel of your E-Class, you shouldn't have to sacrifice the convenience and productivity that technology offers.

Mercedes-Benz Entertainment and Communication Accessories combine expertly engineered, leading-edge technology with ease of use and high style to keep you in touch with your office or your home, help you stay productive, or just let you relax and enjoy the ride.

iPod® Integration¹ and CD-Changer

Your music. Your Mercedes-Benz.

6-Disc CD Changer

Conveniently located in the center console and fully integrated with the audio or COMAND system in your E-class, the optional single-feed 6-disc CD changer can play MP3-encoded CDs, and makes it easy to enjoy hours of your favorite audio entertainment. | Installation kit required |

Taking your personal music collection with you wherever you go has never been easier. Mercedes-Benz now offers seamless integration of your iPod into the audio system of your E-Class. With an interface that is compatible with any dock-connector-equipped iPod device, your iPod charges even while playing.

Steering wheel controls and a visual display of the track information make your iPod a perfect fit with your Mercedes-Benz.

The controls on the iPod device are disabled and its screen displays the Mercedes-Benz trademark while docked to the vehicle. Access to any video or photographic images stored on the iPod is not possible while the device is docked. iPod Integration Kit only provides access to and integrated control of audio files stored on the iPod.

Control your iPod via steering wheel buttons:

- ▶ Navigate within the current iPod music menu
- ▶ Volume control
- ▶ Select, Change menu
- ▶ Display of current iPod selection

* The iPod Interface Kit and the iPod cradle are compatible with following models:

iPod 3rd Generation
iPod video
iPod photo
iPod U2 Special Edition
iPod mini
iPod nano

iPod Cradle*

This black felt-lined cradle holds your iPod in the glovebox. The soft flocked surface blends perfectly into the glovebox and helps protect your iPod against scratches and damage.

¹ iPod is a registered product of Apple Computer. All iPod devices are sold separately.

Interfaces for Hands-Free Communication System²

Keeping you in touch.

▶ The Mercedes-Benz Hands-Free Communication System offers state-of-the-art communications technology with the engineering expertise of Mercedes-Benz. Unlike conventional systems, the Hands-Free Communication System seamlessly integrates into your vehicle and is engineered by Mercedes-Benz to provide optimum reception and sound quality while helping you keep your eyes on the road and your hands on the wheel.

The Hands-Free Communication System is available with a selection of factory option packages. And we offer two ways to take advantage of it based on your lifestyle and how you use your mobile phone...

MHI Interface Cradle³

With the Multi-Handset Interface (MHI) Cradle, your phone is stored securely out of the way, it is continually charged so you never have to worry about a depleted phone battery in the car, and it links to an external antenna to provide the best possible reception when placing or receiving a phone call.

There are MHI Cradles available to accommodate a selection of popular mobile phones for most major carriers.

Bluetooth Interface Module³

With Bluetooth technology your phone connects wirelessly with the Hands-Free Communication System. Bluetooth supports hands-free audio and limited call handling functions. Since the phone is not connected in a cradle, battery charging and use of an external antenna are not possible. However you can keep your phone on your belt, in your purse... wherever it's convenient.

Regardless of the option that you choose for the Hands-Free Communication System, the experts at Auto Wireless Solutions can help you choose the right phone for your lifestyle and for your E-Class.

For a current list of compatible phone models, visit AWS at www.Wireless4MB.com or call Auto Wireless Solutions at 1-800-910-1021 to speak to an advisor.

- ² Always plug an approved phone into the cradle for use inside the vehicle or use the approved Bluetooth interface. Otherwise operating a non-approved phone or radio transmitter with its own attached or built-in antenna while the engine is running can interfere with the vehicle's electronic systems. For safety reasons, the driver should not use the cellular phone while the vehicle is in motion. We encourage the driver to stop the vehicle in a safe location before answering or placing a call. See your Mercedes-Benz dealer for current handset availability.
- ³ MHI Interface Cradle and Bluetooth Interface Module are sold separately and offer one year/unlimited mileage warranties.

Mercedes-Benz Navigation System⁴

More than a map.™

- ▶ The Mercedes-Benz Navigation System is a fully integrated system that combines Global Positioning System (GPS) technology with detailed electronic maps to allow you to plan trips, navigate detours and help avoid getting lost. Your vehicle's location is continuously tracked by Global Positioning System (GPS) satellites, and is displayed on the map.

The system can route you through more than 4.6 million miles of navigable roads in the United States and Canada. Just enter the address on the intelligent destination input screen, and the system takes over from there, guiding you audibly and with a clear and detailed 7" LCD map display.

Do you need an idea where to go? The Navigation System also offers 1.6 million Points of Interest in 40 categories including ATMs, restaurants, hotels, airports, museums and more.

Navigation Update Disk

Your Mercedes-Benz Navigation System relies upon a detailed electronic map to guide you to your destinations and help you find the services and attractions that you need and want in your daily life. But things are constantly changing out there. Roads are added or diverted, restaurants open and close, hotels and hospitals are built, ATMs move. In fact, as much as 20 percent of the navigation data is updated every year. That is why Mercedes-Benz offers updated navigation data, available for purchase from your authorized Mercedes-Benz dealer, to help ensure that you always have current navigation information.

⁴ Navigation system data represents the United States (excluding Alaska) and Canada. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. See your authorized Mercedes-Benz dealer availability and for details.

Tele Aid⁵

There at the touch of a button.

► **Mercedes-Benz doesn't think that you should have to face any of life's surprises – big or little – alone. That's why we've included Tele Aid as standard equipment in every E-Class. Tele Aid can serve as your lifeline, your co-pilot, even your full-time personal assistant.**

Tele Aid is a collection of services designed to keep you connected when you are in your vehicle. Tele Aid puts a variety of services at your fingertips with three simple buttons: SOS, the Wrench Button, and the i-Button. Touch one and you can contact a Tele Aid Response Specialist who is ready to assist in every way.

When you subscribe, you can choose between Tele Aid Security & Care, a package that brings an extra measure of security and peace of mind to your travels, or Tele Aid Luxury & Convenience, an additional cost premium package that offers you a genuine sense of ease and comfort that you've come to expect from Mercedes-Benz.

Wrench Button

If you need Mercedes-Benz Roadside Assistance, push the Wrench Button. Service personnel will help you identify the trouble and if necessary dispatch Roadside Assistance.

⁵ Tele Aid equipment is standard on many Mercedes-Benz vehicles. See your dealer for details. The first year's basic Tele Aid Security & Care package is provided at no additional cost. Subscription and acquaintance call required for system to be active. Service operates only where cellular and Global Positioning Satellite system coverage is available. See your dealer for details. Owner must authorize vehicle tracking by providing passcode and a valid stolen vehicle police report number. PIN code required to activate Remote Door Unlock.

Tele Aid

Choose the Tele Aid package that fits your lifestyle:

Tele Aid Security & Care⁵

Now, Tele Aid Security & Care enhances your sense of security by providing:

- ▶ Emergency notification services
- ▶ Roadside Assistance
- ▶ Remote Door Unlock
- ▶ Stolen Vehicle Recovery
- ▶ Anti-Theft Alarm Notification

With an active Tele Aid subscription, you may be eligible for a discount from your insurance provider.⁶

i-Button

Push the i-Button to contact the Customer Assistance Center or to be connected to your preferred Mercedes-Benz dealer. You can also reach the Concierge Service, receive Route Assistance and Traffic Information.⁷

SOS Button

In case of an emergency, push the SOS Button for a Tele Aid Response Specialist who can notify police, paramedics, or other emergency personnel of your vehicle's location. SOS is automatically triggered in the event of an airbag or seat belt emergency tensioning device deployment.

Tele Aid Luxury & Convenience⁷

The Tele Aid Luxury & Convenience package builds on the services of Tele Aid Security & Care and adds access to premium services that enhance your in-vehicle experience.

▶ Personal Concierge acts as your personal assistant on the road. Fulfilling your requests for nearly “anything, anytime, anywhere”... at the touch of a button. You can also use the Online Concierge, which allows you to access your Personal Concierge via your computer or even your PDA or anywhere you have Internet access.

▶ Enhanced Traffic Information provides full metro traffic reports within 30 miles of your location, metro street traffic, programmable radius traffic, details on traffic conditions along your route and more.⁸

▶ Route Assistance connects you to a trained specialist who has the resources to locate and help you to get to your destination.

Tele Aid⁵ puts a variety of services at system subscriber's fingertips with three simple buttons: SOS, the Wrench Button, and the i-Button.

⁶ Many insurance carriers offer comprehensive premium reduction for Mercedes-Benz vehicles with an active Tele Aid subscription. Check with your insurance carrier to see if you qualify for an insurance premium discount. Rates and eligibility may vary.

⁷ Concierge service available only in Tele Aid Luxury & Convenience package. Traffic Information and Route Assistance use is included as part of Tele Aid Luxury & Convenience package at no additional cost, and are available at an additional per use charge when used with Tele Aid Security & Care package.

⁸ Traffic information is available in over 100 cities and is based on available broadcast data and is not available in all areas. Reports provided based on your vehicle's current location (within a pre-defined radius) or along any of up to five regular commutes that you program at the Tele Aid website. Route Assistance is limited to available digitized map data which does not include all areas or routes within area.
