

SI00.40-P-0014A	Service Information bulletin: Specifications for Operating Fluids for automatic transmission	21.5.08
-----------------	--	---------

TRANSMISSION 722.6/ 9

i We hereby inform you about information on current changes to the Specifications for Operating Fluids:

5-speed automatic transmission 722.6:

In future only transmission oil as per Specifications for Operating Fluids sheet **236.14** should still be used (miscibility with transmission oil as per Specifications for Operating Fluids **236.12** is possible). In the event of delivery shortages **236.12** can still be used during the transition period.

7-speed automatic transmission 722.9:

Only transmission oil as per Specifications for Service Products sheet **236.14** may still be used.

Transfer case in model 164, 251:

Until further notice only transmission oil as per Specifications for Service Products sheet **236.12 may be used**

i In the case of a repair:

All outboard O-rings of the transmission cooling system should always be replaced when opening the separation points.

The changed Specifications for Operating Fluids can be obtained from the table.

	Specified gear oils (cars, cross-country vehicles) - survey		BB00.40-P-0231-01A
	Automatic transmission fluids (ATF, Sheet 236.12)	5-speed automatic transmission (transmission 722.6)	BB00.40-P-0236-12A
	Automatic transmission fluids (ATF, Sheet 236.14)	5- and 7-speed automatic transmission (transmission 722.6, 722.9)	BB00.40-P-0236-14A
