

The high-beam headlamps are switched off automatically. The  indicator lamp in the instrument cluster goes out. The  indicator lamp in the multifunction display remains lit.

- ▶ **To switch off:** move the combination switch back to its normal position or move the light switch to another position. The  indicator lamp in the instrument cluster goes out.

Headlamps fogged up on the inside

The headlamps may fog up on the inside if there is high atmospheric humidity.

- ▶ Switch on the light and drive off. The level of moisture diminishes, depending on the length of the journey and the weather conditions (humidity and temperature).
- If the level of moisture does not diminish:
- ▶ Have the headlamps checked at a qualified specialist workshop.

Interior lighting

Overview of interior lighting

Front overhead control panel

- ①  To switch the right-hand reading lamp on/off
- ②  To switch the left-hand reading lamp on/off

Interior lighting control

General notes

In order to prevent the vehicle's battery from discharging, the interior lighting functions are automatically deactivated after some time unless the SmartKey is in position **2** in the ignition lock.

The color and brightness of the ambient lighting can be adjusted using the on-board computer (▶ page 250).
