- www.carlife-mall.net
- AMI cable * 1pc
- Screen* 1 pc

- Fit for benz ntg4.x
this UI ntg4.x,

- this ntg5.x

- www.carlife-mall.net
A, CLA, GLA, G all can fit

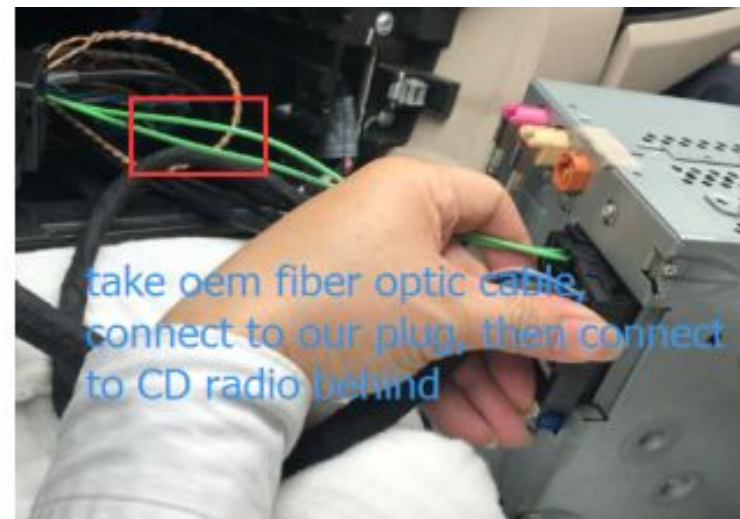

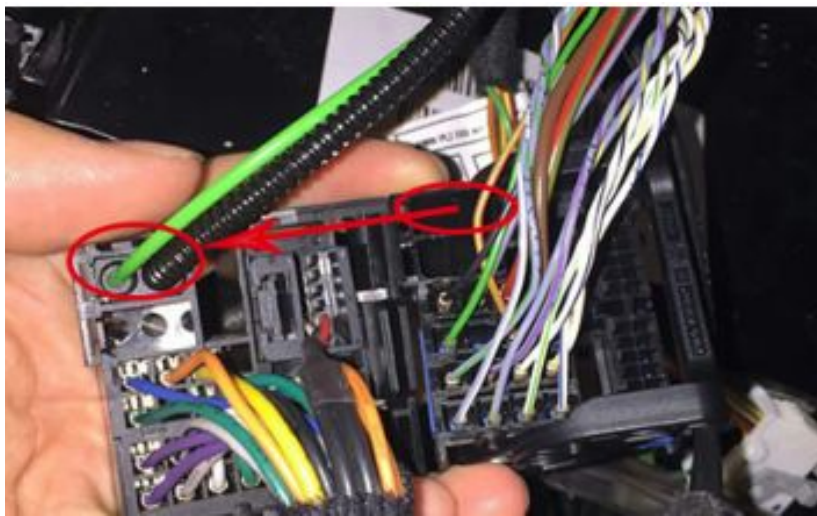

- Installation:
- Dismantle the screen and CD radio:

- Use our LVDS connect to the oem lvds,
and oem square connector no need to use

- Power plug installation:

If OEM plug has no fiber, then directly connect OEM male plug to our female plug, and connect our male plug to CD radio behind,
www.carlife-mall.net
if OEM plug has fiber optic, remove fiber optic from OEM male plug to our male plug
from OEM male plug to our male plug

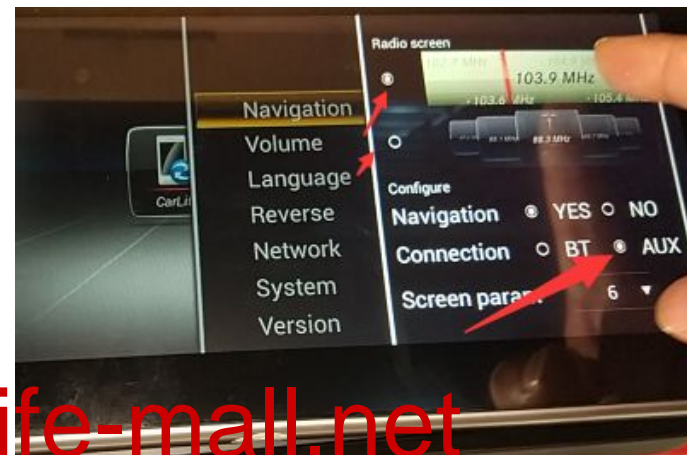

- **NOTE:**

This 10.25 inch android Benz use aux to have aftermarket audio,

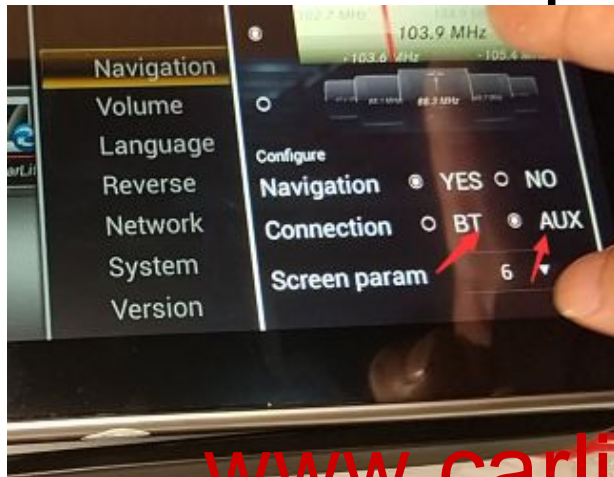

No matter your car has aux or not, both use aux

To different car, go to setup, choose different option here

www.carlife-mall.net

- If OEM car has aux, choose aux, if not, still choose aux if for ntg4.x, but need we active it,
- First choose aux in the setp, then will appear an window, choose not have aux, then will has options to active it, choose it:

- first choose BT, then change to aux, window will appear

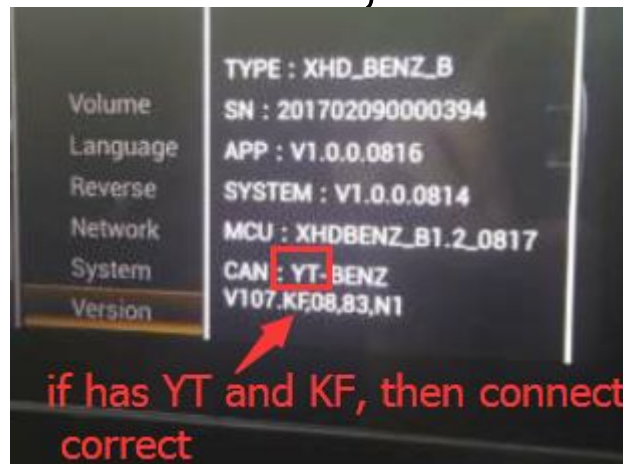

www.carlife-mall.net

how to know if CAN is correct

- Refers to this cable connection:

Always take out A male and female, connect the A/B to A, then done

If not correct, change B instead of A
