Market price analysis

Classified sites price range

Approximate price if you were to purchase this vehicle from a dealer

Market price analysis is based on a vehicle's history such as vehicle class and age, number of owners, accident and damage history, title brands, odometer readings, etc. This information is used to compare the vehicle's favorability against the entire market of vehicles.

Auction price range

The price at which the dealer would purchase this vehicle

This price is typically only available to dealers who have access to the auctions. For this reason this price is not usually used as a base for negotiations
