ricer (/define.php?term=ricer)

(Ricer: from the latin word **Ricarius (/define.php?term=Ricarius)** meaning to **suck at everything (/define.php?term=suck%20at%20everything)**, you attempt)

A person who makes unnecessary modifications to their most often import car (hence the term "rice") to make it (mostly make it look) faster. The most common modifications are (but not limited to):

- Huge exhaust that serves no purpose but to make the car louder
- Large spoiler on the back that looks like something Boeing made for the 747
- Lots of after-market company stickers they don't have parts from, but must be cool
- Expensive rims that usually cost more than the car itself
- Bodykit to make the car appear lower, usually accented with **chicken wire (/define.php?term=chicken%20wire)**
- Clear tail lights and corner signals
- A "performance intake"- a tube that feeds cold air to their engine usually located in areas of excessive heat (behind or on top of the engine)
- Most of these **riced (/define.php?term=riced)** cars (a.k.a. **rice rockets (/define.php?term=rice%20rockets)** or rice burners) are imports; Honda Civics, Accords, Integras, CRXs, RSXs, Del **Sols (/define.php?term=Sols)** Mitsubishi Eclipses, Lancers, Subaru Imprezas, however there are some **domestics (/define.php?term=domestics)** such as Chevrolet Cavaliers, Dodge Neons, Ford Focus; small, slow, economy cars designed specifically to go slow. Please note that some Supras, Skylines, **WRX's (/define.php?term=WRX%27s)** and other higher performance imports are designed to go fast, and are therefore not always considered rice. It really depends on the severity of the case.

The "ricer" attempts to make their car "performance" by adding the modifications listed above. These ricers are not confined to any one ethnic group or color, however different ethnic groups are known for certain styles.

Honda **Civics (/define.php?term=Civics)** with big **spoilers (/define.php?term=spoilers)** and 4" exhaust tips are considered to be **ricers (/define.php?term=ricers)**.

RICERS (/define.php?term=RICERS)

Any teenager or young adult who takes a japeese import car, usually a Honda, and adds relitively cheap **aftermarket (/define.php?term=aftermarket)** parts that have no effect on engine performance. Such parts are aftermarket exhaust, intakes, wings, lights, and stickers. Most commonly added are NOS and **VTEC (/define.php?term=VTEC)** Sitckers. When the hood is lifted however the engine isn't a VTEC and there is no Nitrous Oxide system Installed.

When challenged to a race **ricers (/define.php?term=ricers)** will almost always and laugh and drive away with there exhaust making you deaf for a tempary amount of time. On occasion a ricer will make the mistake of pulling up with the Rap blaring and ask a guy in a small low powered car to "rice" becasue they can't say race. The person will almost always decline the "rice" but if they acceopt they will win because the ricer drives his car in **first gear (/define.php?term=first%20gear)** only becasue it is louder than the higher gears.

*I could beat any **ricer (/define.php?term=ricer)** in my rusty old **corsica (/define.php?term=corsica)**. Execept I wouldn't wake up the neighborhood with my **exhaust (/define.php?term=exhaust)**.*

ricer (/define.php?term=ricer)

any person who spends more money to make their car look like it goes fast than they spend on actually making it **go fast** (</define.php?term=go%20fast>).

Usually people who try to get into the import tuning scene after watching the fast and the furious a few too many times. Not necessarily anyone who goes and buys a bodykit, because a few of those actually do decrease drag, increase cooling, etc., like **veilside** (</define.php?term=veilside>) and stuff, just crappy ripoffs that dont do a damn thing except maybe increase **downforce** (</define.php?term=downforce>), but if you have a FWD car, a spoiler is just gonna make you go slower. Also, if you have any idea how cars work, you'd realize that there really is no point in making a car look fast if it cant go fast, and if you dont understand how cars work, or dont care, you have no business even pretending to be a part of the tuner scene.

*Billy and Bobby both have 6000 to spend on their car. Billy invests it in **suspension** (</define.php?term=suspension>) and engine work, and Bobby buys a "sick" **body kit** (</define.php?term=body%20kit>), and some "tight" rims. So, Billy has a fast car that will surprise anyone wanting to race it, and bobby is hitching a ride back home, because his "sick" body kit blocked **all air** (</define.php?term=all%20air>) to the engine.*

Can you spot the ricer?

Ricer (</define.php?term=Ricer>)

Ricer =

usually 16-24 years old, that spend more money untastefully modding a car, than its even worth. e.g humongous aluminum/**fiberglass** (</define.php?term=fiberglass>), spoiler, cheap, oversized fiberglass bodykit, "clear" rear lights, obnoxious exhaust and oversized exhaust tip, 500 sponsor decals/stickers of performance parts they dont even own, flame **vinyls** (</define.php?term=vinyls>)/paint, etc etc

not a ricer: tasteful/**light body** (</define.php?term=light%20body>) modifications which maintain the car's "sleeper" look, more money invested into the engine rather than aesthetics

1. i put a **coffee can exhaust** (</define.php?term=coffee%20can%20exhaust>), alteeza lights, and an aluminum spoiler on my moms '98 civic (with automatic transmission), i shift into neutral at red lights and **rev it up** (</define.php?term=rev%20it%20up>) so people will think i have a manual, i **peel out** (</define.php?term=peel%20out>), so much im

replacing my tires every 6 months, i was too cheap to buy real rims, but my shiny hubcaps are so cool, my oversized body kit is so big, i need 2 lanes to myself, i drive by highschools reving and **[burning rubber \(/define.php?term=burning%20rubber\)](#)** so the girls will think im cool, my car is lowered so much, i cant make it over a **[speedbump \(/define.php?term=speedbump\)](#)**, i rev at every car at a redline, accelerate as fast as i can to the next light thinking im racing, when the other guy wasnt even paying attention, i put the "vtec" badge on so everyone will think my civic is "high performance", my **[cold air intake \(/define.php?term=cold%20air%20intake\)](#)** triples my horsepower, horsepower is better than torque, i drive up to the local hangouts with my rap music bumpin', my bass is set so high, it gives my whole body a massage, i think everyone is checking out my ride, but theyre just thinking how retarded i look, i have a low self image, so i use my car to get attention, i put NOS and Sparcoc decals on my ride, so i can be like the fast and furious guys/gurls, even though i dont even use NOS, and my my seats are stock, i say my ride is turbocharged and makes 200HP so i can sound like i know alot about car mechanics, but i wont take it to the track becuase i know it will take me **[9 1/2 \(/define.php?term=9%201%2F2\)](#)** seconds to reach 60mph, my spoiler is so heavy, it lowers the back of my car another inch, but i think it makes me go faster yeah thats me, im a ricer!

[ricer \(/define.php?term=ricer\)](#)

When a moron (see: retard, dumbass) decides to take a car (foreign or domestic) and tries to make it look fast. The car will not really gain any hp or performance, but it will gain numerous stickers and **[yellow paint \(/define.php?term=yellow%20paint\)](#)**. It can be identified by one of the following:

1. The sound of a loud fart in a coffee can.
2. The yellow blob with a bookshelf on the trunk that is **[1/4 mile \(/define.php?term=1%2F4%20mile\)](#)** behind real cars.
3. A Honda that has "performance mods" such as stickers, seat harnesses, and a fire extinguisher in full view (just in case the things catches on fire when it hits 40 mph).
4. A driver who claims his car has 100hp per liter but will not **[fess up \(/define.php?term=fess%20up\)](#)** to the fact that his car has a total of 43 ft/lbs of torque.

[Ricers \(/define.php?term=Ricers\)](#) are **[fags \(/define.php?term=fags\)](#)**.

Ricer (/define.php?term=Ricer)

a person who modifies a **vehicle** (/define.php?term=vehicle) for looks with really **bad taste** (/define.php?term=bad%20taste), and no **performance** (/define.php?term=performance).

example of a ricer would be anyone who modifies a vehicle with really bad paint job, mismatched colored interior, and exterior. for performance, the cat is taken out, or just has an exhaust tip instead of an actual full exhaust, **the springs** (</define.php?term=the%20springs>) are clipped to **lower it** (</define.php?term=lower%20it>), and has really bad **camber** (</define.php?term=camber>).

sentence1: that ricer thinks his car looks good, but no one seems to like it.

sentence2: that ricer has no knowledge on cars.
