

E-Class Sedan

W213

Model Year 2020

Preliminary - Subject to Change

Mercedes-Benz

The best or nothing.

Important note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

ENERGIZING Comfort Package (DB8)

ENERGIZING Comfort Package (DB8)

Option Price: \$TBD

*Recommended w/ 432 Active Multicontour Front Seats w/ Massage Feature, w/ 401 Heated & Ventilated front seats and w/ 906 Heated Armrest to get all six programs, **otherwise three programs are available** (Refresh, Vitality and Training). 432 adds the programs Enjoyment and Well-Being, 906 adds Warmth.*

- ENERGIZING Comfort is a world-first entering series production to enhance the physical comfort and performance both while driving and during breaks
- It systematically uses the functions of the climate control system (including fragrancing) and the seats (heater, ventilation, massage – when ordered w/ code 873, 401, 432), the console heating as well as lighting and musical atmospheres, and enables a specific wellness set-up tailored to the mood and need of the driver
- The following six Energizing Comfort programs can be selected: Refresh, Warmth, Vitality, Enjoyment, Well-Being and Training (three trainings – muscle relaxation, muscle activation and balance – each with several exercises).
- Each program runs for ten minutes and are visualized on the headunit with color graphics, and backed by suitable music.
- Five songs are already stored in the program and if personal music selections are available, for example via the Media Interface, the system analyzes them in the background and assigns them to a program based on the beats per minute (bpm).
- ENERGIZING Comfort also incorporates ambient lighting, which is harmoniously tailored to each of the individual screen designs.

Performance & Handling

- 9G-TRONIC 9-Speed Automatic Transmission
- New 2.0L Inline-4 turbo engine: 255 hp, 273 lb-ft (E 350/4M)
- 3.0L V6 biturbo engine: 362 hp, 369 lb-ft (E 450 4M)
- 18" MB wheels (w/Sport Styling)
- AMG Body Styling
- DYNAMIC SELECT driving programs
- Lowered suspension with selective damping
- Perforated front brake discs & front brake calipers w/ "Mercedes-Benz" lettering (E 450 4M)

Comfort & Convenience

- 12.3" COMAND® display
- 64-Color Ambient Lighting
- Auto-Dimming Driver-Side and Rearview Mirrors
- Bluetooth® Connectivity
- COMAND® Navigation System

All functions of the standard LED headlamps plus:

- Automatic high-beam control by Adaptive Highbeam Assist
- Automatically activated cornering lights
- Active light function for significantly better illumination in bends

Steering Wheels

E-Class Coupe interior shown

3-Spoke multifunction steering wheel (L3B)

Standard

- Redesigned 3-spoke multifunction steering wheel in nappa leather
- Touch Control Buttons to directly control the instrument cluster and functions of the multimedia system
- Painted steering wheel shift paddles (428)
- Optional Active Distance Assist DISTRONIC® or standard cruise control is controlled via steering wheel-mounted controls

E-Class Coupe interior shown

Wood/leather steering wheel (L3D)

Optional

Requires Burl Walnut wood trim (731)

Not available with heated steering wheel (443) or Warmth & Comfort Package (DB0)

- The combination of high-quality leather in the grip area and fine wood inserts at the top and bottom make this steering wheel a visual and tactical highlight.
- Painted steering wheel shift paddles (428)

E-Class Coupe interior shown

Heated Steering Wheel (443)

Optional

Requires L3B

Not available with wood/leather steering wheel (L3D)

- On cold days, the heated 3-spoke steering wheel rim very quickly warms the grip area of the steering wheel to around 95°F to ensure pleasantly warm hands.
- The function is switched on and off by turning the control lever for adjusting the multifunction steering wheel.

AIR BODY CONTROL (489)

AIR BODY CONTROL air suspension (489)

Option Price: \$1,900

- Multi-chamber air suspension combined with continuously adjustable damping to improve ride comfort and driving dynamics
- Vehicle characteristics can be varied from comfortable through to sporty using the DYNAMIC SELECT switch.
- "Comfort" and "Sport" settings for a more comfortable or stiffer, sportier setup
- Constant vehicle level irrespective of load thanks to pneumatic all-round self-levelling suspension
- Suspension level can be raised for poor surfaces and is automatically lowered at high speeds, helping to reduce aerodynamic drag and further improve handling stability.
- Selective luggage compartment lowering not applicable on E350/E350 4M / E450 4M

Burmester® Surround Sound System (810)

Burmester® Surround Sound System (810)

Included in Premium Package (DP1)

- 13 high-performance speakers precisely configured for the vehicle interior to ensure well-balanced and very dynamic music reproduction
- 9-channel DSP amplifier with a total output of 590 watts (7 x 50 W and 2 x 120 W) for maximum sound quality with very high volume reserves
- Frontbass® technology with woofers integrated into the dash for vibrant bass reproduction
- Combination of digital and analogue filter elements for the unique Burmester® "feel-good sound"
- Sound optimization for the front and rear seats
- Noise compensation (VNC)
- Sound preset: surround function to generate virtual all-round sound
- Support for popular multi-channel formats such as Dolby Digital 5.1/DTS for example, for true surround sound

Natural Grain Black Ash wood trim (736) & Natural Grain Brown Ash wood trim (H09) w/ matching center console

Natural Grain Black Ash wood center console

Natural Grain Brown Ash wood center console

Details on Image might differ from actual center console

designo Black/Titanium Grey Pearl (DD1)

designo Macchiato Beige/Saddle Brown (DD2)

Panorama Sunroof (413)

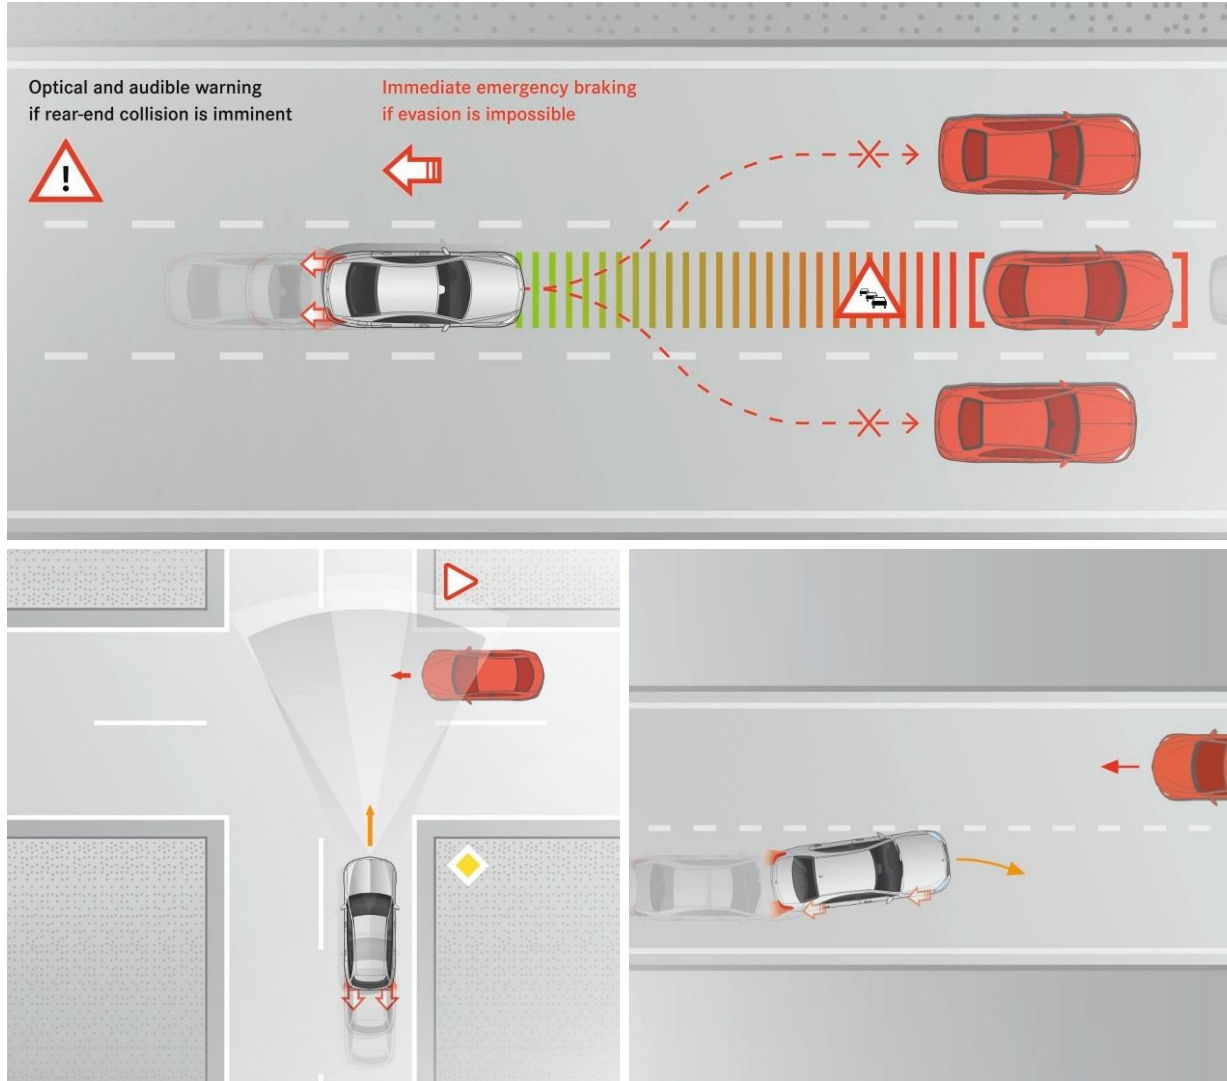

Panorama roof (413)
Option Price: \$1,000

Driver Assistance Package

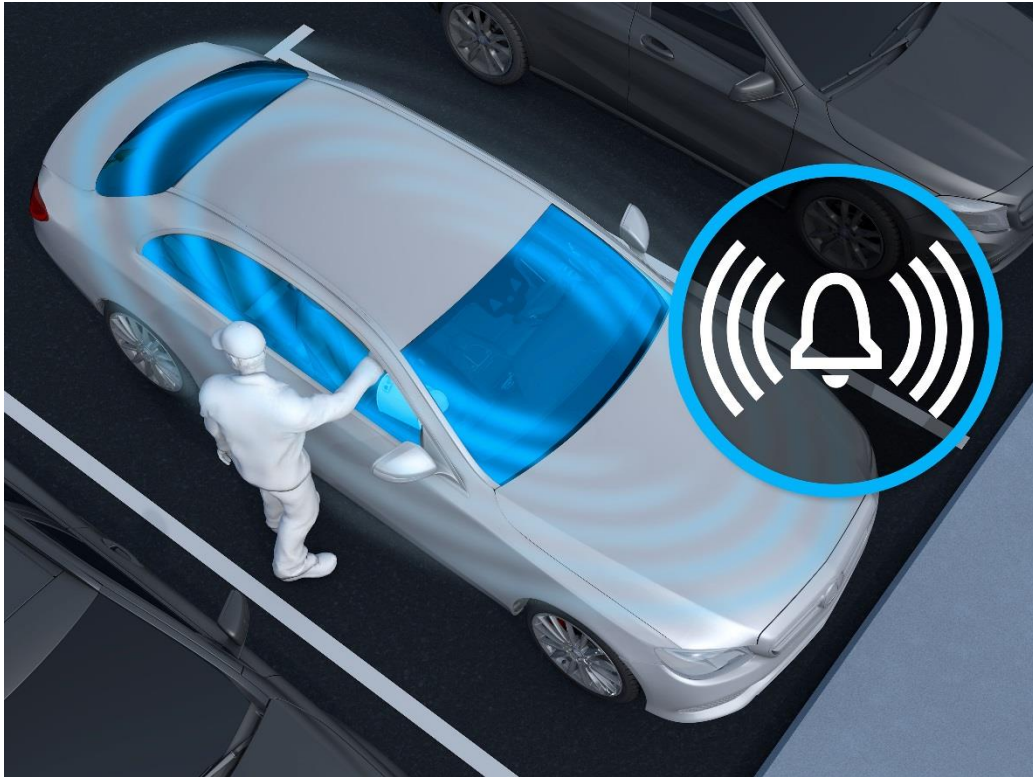

Driver Assistance Package (DA2)

Option price: \$2,250

- **Active Distance Assist DISTRONIC®** is able to follow a vehicle in front at a pre-selected distance at wider range of speeds.
- **Active Steering Assist** functions at a wider range of speeds and can now actively intervene even if road lines are unclear or non-existent at certain speeds; can now function in curves with a tighter radius.
- **Active Emergency Stop Assist** brakes the vehicle to a standstill in its lane if it detects that the driver is no longer actively driving the vehicle while it is on the move with Active Distance Assist DISTRONIC and Active Steering Assist engaged. Can now unlock the doors when the vehicle is stationary to allow first aid responders immediate access to the vehicle's interior.
- **Active Lane Change Assist** is a radar-and-camera-based system that aids the driver when changing lanes. When a turn is indicated, this feature will aid with steering into the adjacent lane if it detects the lane is empty.
- **Active Speed Limit Assist** can adapt vehicle speed to identified speed limits and can now adjust preemptively when speed limits are going to change.
- **Route-Based Speed Adaptation** the vehicle is now able to reduce the speed in anticipatory mode by referencing the COMAND map data ahead of bends, junctions, roundabouts, toll booths and exit roads.
- **Active Brake Assist with Cross-Traffic Function**
- **Evasive Steering Assist** assists by adding calculated steering torque to aid in steering wheel movement when a driver deliberately or instinctively performs an evasive maneuver around a pedestrian.
- **Active Blind Spot Assist** is active at a wider range of speeds and informs the driver to help avoid an imminent side impact by single-sided braking.
- **Active Lane Keeping Assist** is now active at a wider range of speeds.
- **PRE-SAFE® Impulse Side** moves the driver or passenger towards the center of the vehicle when a side impact is detected. This increases the distance between the occupant and the door.

Advanced Alarm System and Parking Damage Detection (Codes: 551, 852, and 08U)

Standard Equipment

This system combines a number of security features that improve protection for both your vehicle and any valuables in the interior. It gives an audible and visual warning when it detects a break-in, attempted theft, interior motion, unauthorized towing, and even damage while the vehicle is parked.

An alert is then also sent to your mobile device for quick response. From the Mercedes me connect app, the user is made aware of the issue and is even able to turn off the alarm. Once back in the vehicle, a notification on the central display will detail what issue was detected.

1. The Advanced Alarm System is able to recognize unauthorized attempts to open the vehicle doors or trunk, along with detecting any motion inside the vehicle. The integrated tow-away protection is activated as soon as a change in the vehicle's position is detected and an alarm is triggered in this case as well.
 - The vehicle's interior is monitored via an ultrasound sensor located in the overhead control unit which will detect movement within the vehicle once the alarm is active (after the vehicle is locked)
 - Contact sensors located in the vehicle's doors and trunk lid will detect any unauthorized access to the vehicle, triggering an alarm and a notification via the Mercedes me connect app and in the headunit
 - Notifications are sent to the Mmc app when doors/trunk/hood are opened, movement is detected inside vehicle, or towing sensors are triggered
2. Parking Damage Detection can identify potential damages to a parked vehicle by measuring impacts with an accelerometer located in the overhead control unit. The customer will be notified about damage events through the Mercedes me connect app as well as in the central display once back in the vehicle.
 - The trigger levels can be detected in different levels: minor, moderate, etc.
 - The system is active when the vehicle is at a standstill and locked
 - Notifications are sent to the Mmc app when parking damage is detected
 - Once back inside the vehicle, a notification will ask the user if the damage is severe enough to need assistance from the CAC
