

Tire Pressure Labels on Mercedes-Benz Vehicles

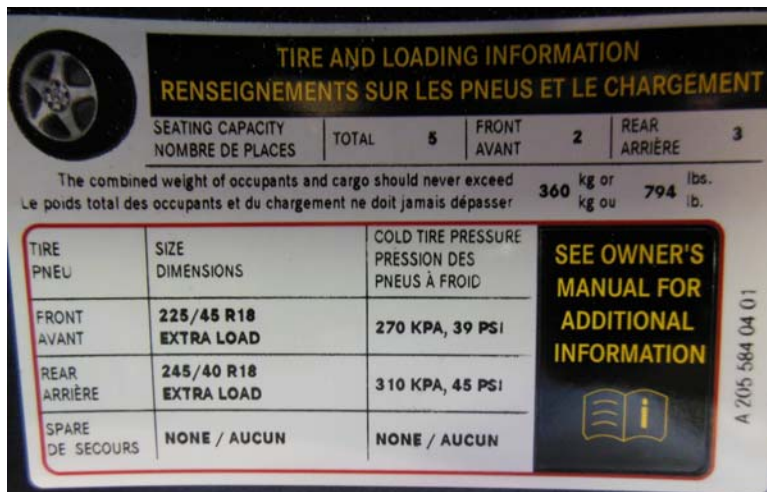

Tire pressure labels found on Mercedes-Benz vehicles have different applications. Please read entire page.

Tire pressure label located on the fuel filler door. These tire pressure values should be used by a customer to get the best ride comfort, fuel economy and longevity of the tires. Pressures should be checked and corrected in the morning before the vehicle has been driven and the tires are cold. **For every day driving applications, customers should use tire pressure values found on the fuel filler door label. Too much tire pressure will create a hard ride.**

*Sample labels shown. Each Mercedes-Benz model has different tire pressure labels

Other tire pressure labels

Tire pressure label located on the right side of the driver door jamb. Shows maximum tire pressure values for this model vehicle.

Other tire pressure labels

Tire pressure label located on the tire. Maximum tire pressure value for this particular tire.
