# General Information

## Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

## Revision History

<b>Date</b>	<b>Description</b>
01/16/2024	E450 All-Terrain DOG Published

<i>Interior Dimensions</i>	
<b>Trunk Size (Cubic ft.)</b>	TBD

## Options In Detail

### Illuminated Grille- 5B6 (Optional)

**Included in Pinnacle Trim (DX2) and available as standalone option**

The contour of the radiator grille lights up as a perimeter light, creating an impressive appearance, especially at night - including while on the move. The optic fibers blend discreetly into the surrounding chrome trim.

### Burmester® 4D Surround Sound with Dolby Atmos Spatial Audio- 810 (Standard)

#### Features:

- 17 premium speakers including speaker units in the headliner
- 4 additional sound generators, 2 each in the backrests of the front seats
- 15 amplifier channels and a total system output of 730 watts
- Sound personalisation (32U), for sound reproduction tailored to individual musical taste
- 3 sound profiles: "Pure", "3D-Sound", "Individual"
- Dolby Atmos incl. two 3D speakers in front roof liner
- Dolby Atmos® technology, for compatible audio formats

- Playback via the music streaming services Amazon Music and Apple Music integrated in the vehicle (user account required) or via your own external data carrier (connection to MBUX multimedia system required).

### MBUX Superscreen Package- DA0 (Optional)

**Only with 12H + 667/ 759/ 753/ 671. Not with H17, 10H, 11H, 14H, 70H**

The best entertainment, even while on the move: with the MBUX Superscreen, 2 displays merge under one glass surface - an impressive design element. This gives your front passenger their own personal display and control area to watch films while on the move, use apps or participate in conferences with the selfie and video camera when vehicle is stationary.

- 12.3" touchscreen Front Passenger Display (860) that connects to the center display via black, glass surface
- Selfie and Video Camera (219) on the dash that can be used for video conferencing when vehicle is stationary
- Privacy Function for Front Passenger Display (867) to ensure driver can not view passenger display when dynamic content is playing and the car is in motion
- MBUX Multimedia system (529) is the newest generation of MBUX. Standard for MY24 E-Class

### 3rd Generation MBUX (Standard)

#### Features

MBUX 3rd generation offers an expandable portfolio of In-Car Apps in different categories.

- Integrated App Store to expand the multimedia offering in the vehicle from various categories such as:
  - Music streaming
  - Social media (user account required)
  - Video streaming (user account may be required)
  - Games
  - Productivity
- Native integration of Amazon Music, Apple Music and Spotify (user account required)

### Routines- Included in the all new MBUX System (Standard)

**MBUX Third Generation brings all-new Routines function as standard**

Increasing the personalization and automation of vehicle and comfort features with the introduction of Routines. There are two ways routines can be created:

- Templated generic routines from library
- User-created routines

Example Routines could include: "When I leave for work, turn radio to station X on volume 5" or "When it is cold outside, turn on seat heater".

For more information please see detailed [Routines guide here](#):

### Digital Vehicle Key- 896 (Standard)

#### Mercedes-Benz Digital Vehicle Key

With Mercedes-Benz Digital Vehicle Key, users can unlock, lock, and drive their Mercedes-Benz simply with a compatible iPhone or Apple Watch. Key sharing is also possible with up to 32 devices. In doing so, the main user of the Mercedes me Connect account can assign different access for each device.

Customers with Apple iPhone 11 and newer with iOS 16.4 and Apple Watch Series 6 and newer will be eligible to utilize Mercedes-Benz's latest technological enhancement.

For instructions on pairing with the Mercedes me Connect App, please see: [PowerPoint Presentation \(mborderguides.com\)](#)

### Advanced USB Package- 72B (Optional)

#### Features:

- Two USB-C ports in the center console, with fast-charging capability and suitable for data transfer
- Two USB-C ports under the front center armrest, with fast-charging capability and suitable for data transfer
- Two USB-C ports for the rear on the center armrest, with fast-charging capability
- Two 12 V sockets, one in the front, one in the rear
- With this package, all 6 USB ports are capable of USB Power Delivery (100W)

Note: The standard USB offering includes:

- One USB-C port in the center console, suitable for data transfer
- Two USB-C ports under the front center armrest, suitable for data transfer
- One 12 V socket in the front
- Maximum power for all 3 USB ports is 15W

### Standard LED Headlamps vs. DIGITAL LIGHT LED Headlamps (Digital Light Package- DA4)

Top Image: LED Headlights (Standard)

LED High Performance Headlamps

Bottom Image: DIGITAL LIGHT Package (DA4)

Lighting adapted to the driving situation for relaxed and safe driving: DIGITAL LIGHT constantly adapts the illumination of the road to the lighting conditions, the traffic situation, the course of the road and the weather. The HD system works like a projector and calculates the lighting accurately down to the last pixel.

Please Note: There is the option to activate Projections with the DIGITAL LIGHT Package through the Mercedes me Store. The additional projection functions for DIGITAL LIGHT will not be available to purchase through the store until December 2024. This does not affect the DA4 Package and included functionality

### Guard 360° - P84 (Standard)

In addition to the features included with the standard Parking Damage Detection, Guard 360 Plus visualizes the surroundings of the parked vehicle, for example if a collision has been detected. All the cameras of the 360° camera system are triggered. The resulting images are time-stamped. These images can be viewed in the central display as well as in the Mercedes me App and can then be used for further analysis purposes.

### Transparent Hood- 04U (Standard)

The virtual view shows the area directly in front of your vehicle when driving off-road. This allows you to maneuver confidently and safely around obstacles - in rough terrain, too. Calculated from camera images, the hood appears transparent on the media display to help the driver choose the optimum path to follow.
