Increase Your Scanner™ or Color Graphing Scanner™ Scan Tool's Capabilities

New
'02/'03
Coverage

Mercedes Benz Vehicle Communications Software

1992 – 2003 Coverage

Primary Cartridge: MT25001103*

Primary PROM Update Kit: MT25003103**

* includes cartridge kit, adapters, personality keys™ & instruction manual

** updates existing Mercedes-Benz primary cartridges - includes new PROMS & manual

New coverage for

SIM4/LE

Airbag Systems

Climate Control Systems

ME-SFI from '96 - '03 (2.7.5 & 2.8.1)

Base Module (BM)

Transmission (EGS 5.2, '02-'03)

Electronic Actuator/Cruise/Idle Speed Control Module (EA/CC/ISC)

M-Class Transfer Case ('98 - '03)

New transmission adaptation reset/relearn procedure

New ECU Reset for fuel, throttle & sensor gear adaptations

- Provides 1992 - 2003 model coverage with the latest advanced diesel & electronic transmission systems coverage
- Full engine coverage, including EZ, DM, DM2, LH, HFM, ME1.0, ME2.0, ME2.1, ME2.7, ME2.8, SIM4, as well as EDS/EDC & IFI diesel electronics systems
- EGS and EAG transmission systems coverage from 1989 through 2003.
- Complete engine and transmission data list.
- Movie feature and data recording capability.
- ECU module replacement version coding.
- Perform bi-directional actuator tests on most systems with many of the same capabilities of the factory tool.
- Cartridge includes automatic transmission data communication, functional test, adaptation values, clutch fill time, fill cycles, adaptation reset capabilities, transmission controller replacement reflash, and is the only aftermarket tool to access adaptation procedures similar to the factory tool.

WARNING •Wear safety goggles (user and bystanders). •Read and follow instructions.
