What's New

EQE SUV Highlights and Positioning

The EQE SUV, the perfect electric SUV and the ideal companion for your everyday adventures.

All-New Driver Assistance Features

- [LINK TO VIDEO](#)
- New Automatic Lane Change Feature with Driver Assistance Package (in Exclusive and Pinnacle)
- With Driver Assistance enabled, the EQE SUV can automatically initiate a lane change and pass slower vehicles on the highway without driver intervention.
- With Driver Assistance and Navigation enabled, the EQE SUV can even help follow the active route guidance to ensure the vehicle is in the correct lane when approaching an exit or if the highway splits.
- In the instrument cluster, next to the green active steering assist icon (steering wheel with hands), an "A" will appear on the left and right side of the steering wheel indicating that the system is on.
- When initiating a lane change, a chime sounds to indicate to the driver that the vehicle is changing lanes, and the turn signal is activated.
- An automatic lane change can be canceled by the driver at any point.
- The driver must remain responsible at all times and ready to takeover.
- The EQE SUV will be the first model in the EVA2 family to launch Automatic Lane Change. Other models will see this feature in subsequent model years.

Top Highlights

- The EQE SUV is available with many of the same essential innovations and luxuries from the EQS SUV - but in a more dynamic and sporty package.
- All-new innovations to improve the efficiency of the EVA2 platform launch with the EQE SUV, including:
 - Heat Pump which utilizes waste heat from the e-motor and inverter, to heat the cabin thus improving winter range.
 - All-new intelligent powertrain management system that monitors at 160 times per second if the front electric motor is necessary. If not, a clutch disconnects, or re-engages the front motor in 100 milliseconds. The decoupling of the front drive unit reduces drag and improves range.
- 4MATIC models feature an OFF-ROAD drive program with transparent hood camera feature. When coupled with optional AIRMATIC Air Suspension (489), lifts the vehicle an additional inch to help conquer all roads.
- Standard Burmester Sound with Dolby Atmos enables Apple Music subscription holders to stream the highest-quality Spatial Audio natively within MBUX.
- Incredible aerodynamics, with a coefficient of drag of only 0.25.

Comfort & Convenience Highlights

- Power, Heated Front Seats with Contour Ambient Lighting & Memory (MB-Tex on EQE 350+ & 350 4M, Leather on EQE 500 4M)
- Available Multicontour Front Seats (399) with soothing massage programs
- Two-Years of Complementary 30-Minute DC Fast Charging Sessions on the Electrify America Network (requires Mercedes Me Charge activation)
- Coming Soon - a new "Serene Breeze" fourth soundscape will be available with a relaxed and natural sound experience.

Infotainment and Tech Highlights

- MBUX w/ 12.8" OLED Central Display & 12.3" Driver Display as Standard Equipment
- Standard MBUX Navigation with Electric Intelligence, with charging station availability and active range monitoring
- Proactive user interface with Zero Layer - learns your usage and over 80% of input requests can be made directly on the home screen without having to find features within submenus.
- Optional Digital Light LED Headlamps (DA4) (optional and standard w/ Pinnacle) with 1.3 million pixels per headlamp with projection functions, welcome animation, and active curve light

Safety Highlights

- Standard Blind Spot Assist & Active Lane Keeping Assist
- Standard Surround View System with PARKTRONIC
- Standard Guard 360 Vehicle Protection Plus
- Standard LED Headlamps with Highbeam Assist

Standard Equipment

- EQE 350 +: Highlights include Parking Package with Surround View System and PARKTRONIC, Burmester Sound System, Heated MB-Tex Seats, Keyless-Go Comfort Package, and MBUX with 12.8" OLED Portrait Display
- EQE 350 4MATIC: No additional equipment on top of EQE 350 +
- EQE 500 4MATIC: Adds AMG Line Exterior, Leather Upholstery, & Rear Axle Steering
