Universal 4-pole Connectors		
No.	Color	Circuits
1	White	Ground Return
2	Green	Right Turn & Brake Lights
3	Yellow or Red	Left Turn & Brake Lights
4	Brown	Tail Lights

NOTE: Check all circuits before operating vehicle.

8-contact square connector

## Molded Connectors

- All molded connectors are manufactured with 16 gauge tinned copper wire, except the 8-contact connector which is manufactured with 3-12 gauge and 5-16 gauge wires.
- All 4-contact flat connectors are molded with an Easy Grip® for fast and easy disconnect.
- Color coding in accordance with S.A.E. recommended practice.

### SP! SPECIALNOTE!

All *male* connectors are shown on the left and all *female* connectors are shown on the right.  
trailer = male      tow vehicle = female

## Molded Connectors with a Loop

- Molded trailer connectors are manufactured with a loop of 16 gauge tinned copper primary wire between a male and female end, except 8-contact which are manufactured with 3-12 gauge and 5-16 gauge tinned copper wires.
- Four-contact, flat connectors are molded with an Easy Grip® for fast and easy disconnects.
- Loop may be cut as desired for splicing into a wiring assembly.

## Weather Pack Environmental Connectors

- The weather pack is designed for the engine compartment of a vehicle. Also ideal for use in marine, agriculture and other harsh environmental applications.
- Audible snap-action locking for housing and secondary terminal lock helps reduce terminal stress, provide proper terminal positioning and provides access to the terminals for service.
- Stops in cavities to insure proper insertion of terminals.
- Indexed nylon housings are rated to -40°C to 125°C (-40°F to 257°F).
- Housing, terminals, plugs and seals are sold separately.

Three basic environmental seal tests were performed which involved salt, fog, immersion and immersion flex. Between lab tests and millions of miles logged on current vehicles, these connectors have proven reliable and provide a fail-safe environmental connection.

## Terminals

- Flex-pin and lap-lock design gives these terminals a positive connection rated for a continuous current of 20 amps.
- Dual "tangs" lock terminal into connector cavity.
- Cable seal crimp wings reduce strain on the cable core and assure proper positioning of the cable seal.

Part No.	Description	Gauge
75032	Female Terminal, sealed	20-18
75036	Female Terminal, sealed	16-14
75040	Female Terminal, sealed	12
75030	Male Terminal, sealed	20-18
75034	Male Terminal, sealed	16-14
75038	Male Terminal, sealed	12

## Cavity Seals & Plugs

- Self-lubricating, silicone seals have multiple "ribs" to guard against dust, moisture, engine compartment fluids and chemicals.
- Cavity seals are crimped to the terminal to assure positive position of the seal in the housing cavity.
- The cavity plug is designed to fill and seal unused cavities.

Part No.	Style	Gauge
75000	Purple	22-20
75002	Green	20-18
75004	Grey	16-14

75042	Green Cavity Plug	—

### Assembly Instructions

1. Apply seal to cable, before stripping insulation.

2. Crimp terminal onto stripped wire and seal and insert into connector housing.

3. Once all terminals are inserted, lock wire and seals as shown above.

4. Once steps 1, 2, and 3 are completed for male and female housings connect together until locked.

## Weather Pack Kit - *microSERIES*™

- An excellent starter kit for the Weather Pack system.
- Contains an assortment of male and female terminals, as well as seals and plugs.
- All contained within a durable, lightweight, translucent plastic carrying case (4 1/2" x 2 5/8" x 1 5/16").
- **For a complete listing of kit contents, see page 228.**

Part No.	Description
75050	Weather Pack Kit

## Weather Pack Connector Kit

- Everything you need to make a quality weather-resistant connection over and over again.
- Whopping assortment of 1,280 total pieces, including terminals, seals and housings.
- All contained within a rugged, grey metal scoop box (18" x 12" x 3").
- **For a complete listing of kit contents, see page 228.**

Part No.	Description
75045	Weather Pack Connector Kit

## Weather Pack Kit

- 1100 piece assortment of both male and female terminals, seals and plugs.
- Also included are 2 ratchet style crimping tools and 1 terminal removal tool.
- All contained within a rugged, grey metal scoop box (18" x 12" x 3").
- **For a complete listing of kit contents, see page 228.**

## Metri-Pack™ Sealed 280 Series Connector Housings

- Positive locking action ensures proper connection between housings.
- Made from heat stabilized, impact modified Polyamide 66 material.
- Tri-ribbed seal on female housing aids in resistance to harsh environments.
- Temperature rating: -40°C to 125°C (-40°F to 257°F).
- Available in 1 through 5 connector housings.

## Expandable Sleeving MADE IN USA ®

- This polyethylene terephthalate is an ideal cover for outboard motor cables, marine hoses, trailer chains and harness assemblies.
- Operating temperature: -75°C to 125°C (-103°F to 257°F).
- Manufactured to meet UL and CSA requirements.
- To cut expandable sleeving, see hot knife on page 29.

### Analog Brake Controller Class I Light-duty Economy

- Operates on a time based circuitry.
- Mounts in any position.
- Manual slide for full braking output when desired.
- Red LED light monitors controller performance and trailer wiring integrity.
- Recommended for light duty trailers with 2 or 4 electric brakes.

Part No.	Description
63004	Light-duty Economy Analog Brake Controller

### Digital Brake Controller Class II Medium-duty Economy

- Operates on a time based circuitry.
- Solid state electronics allow no leveling to be required
- Digital display assists in setup & operation.
- Manual slide for full braking output when desired
- Recommended for light/medium-duty trailers with 2, 4, or 6 electric brakes.

Part No.	Description
63008	Medium-duty Economy Digital Brake Controller

### Analog Brake Controller Class III Heavy-duty Standard

- Patented pendulum sensing device used to monitor and measure tow vehicle deceleration.
- Mounts in a variety of positions. Red LED light monitors controller performance and trailer wiring integrity.
- Recommended for medium / heavy-duty trailers with 2 or 4 electric brakes.

Part No.	Description
63006	Heavy-duty Standard Analog Brake Controller

### Digital Brake Controller Class V Heavy-duty Premium

- Two-Axis Accelerometer senses rate of deceleration.
- Versatile mounting range from -35° to 90°.
- Recommended for all types of trailers.
- Works with electric or electric-hydraulic brake systems.
- Digital display assists in setup & operation.
- Recommended for 2, 4, 6, or 8 electric brakes.

Part No.	Description
63010	Heavy-duty Premium Digital Brake Controller

63014

63018

## Wire Harnesses

- Mates your brake controller directly to your OEM's wire harness with no cutting or splicing.
- OEM harness includes dual mating connectors; wires are encased in slit loom.

Part No.	Description
63012	GM/Chevy 2002-1999
63014	Ford 2007-1994
63016	Dodge 2007-1996
63018	Universal Wire Harness w/only 1 end connector

## Breakaway Kit

- Includes battery, battery charger, case, breakaway switch with pin and cable, and mounting hardware.
- Easily installs on tongue or trailer frame.
- Rechargeable 12 volt 5 amp/hr battery.
- Rugged, lockable case holds battery and charger.
- Recommended use for all trailers with 2, 4 or 6 electric brakes.

Part No.	Description
63002	Breakaway Kit

## Breakaway Switch

- 48" covered steel cable with loop.
- 48" wire leads that connect to the breakaway battery unit.
- Durable plastic housing mounted to steel bracket.
- 1/4" mounting hole for easy single screw installation.
- For use with electric trailer brake systems.

Part No.	Description
63000	Breakaway Switch

## Trailer Cable

- Manufactured with a polyvinyl chloride (PVC) over-all jacket outside and general purpose primary wire inside.
- The single conductors are stranded copper, and each conductor is color-coded for identification purposes.
- Very tough cable with resistance to cracking, abrasion, oil, grease, acid and weather.
- Temperature rating: -40°C to 85°C (-40°F to 185°).
- Choose 7 Conductor cable (4-12 Ga./2-10 Ga./1-8 Ga.) for ABS applications.

PAGE 10

### Tail Light Converter

- An electronically non-obstructive 3 to 2 wire trailer light converter for all foreign and American cars with separate amber turn signals.
- Without the converter you cannot wire direct to a standard trailer because of the special lighting system.

Part No.	Description
74991	Trailer/Tail Light Converter, 18"; 3 to 2

74995

### Trailer/Tail Light Converters

- For cars and trucks with separate bulbs for stop (red) and turn (amber or red) to operate the trailer lamps that have one bulb for both stop and turn without converter. Only the stop or turn will operate, not both.
- For 12 volts (DC) negative ground - 3 amps.
- Self-adhesive backing provided.

74993

Part No.	Description
74995	Tail Light Converter
74993	Trailer/Tail Light Converter, 12"; 5 to 4 w/plug contact

73010

### Trailer Connector Adapters

- Innovative 1-piece molded design adapts 7, 6 or 4-way trailer connectors.
- Manufactured to interchange with standard trailer and molded connectors.
- Manufactured from nylon material for corrosion resistance.
- Socket material and molded connector wire lengths may vary, but function remains the same.

73011

73012

73016

### Protective Covers

- Protective cover for both male and female 4-pole flat molded connectors.

Part No.	Description
73090	Protective Covers

### Trailer Connector Tester

- LED trailer connector tester.
- Confirms and analyzes tail light, turn signal and ground connections.

Part No.	Description
73095	4-Pole Trailer Connector Tester
73097	7-Way Flat Trailer Connector Tester

### Knockout Connectors

- Patented knockout to eliminate the unsightly and corrosive effect of conventional plugs hanging loose below the bumper.
- Mates with most 4-way conventional male plugs on the market.
- Four-way female molded trailer connector with a weather-proof dust cover.
- Molded with 30" of 16 gauge wire, long enough to reach either side of the towing vehicle to tap into the trailer lights.
- The wires are color coded- green, yellow, brown and white.
- 70985 is very simple to install, no holes to drill.

Part No.	Description
74405	Knockout Molded Connector
70985	Knockout Mounting Bracket

"the knockout"

As shown, "the knockout" is designed to snap into pre-existing 1/4" hole on either side of the bumper.

70985  
Contains 1 mounting bracket only which fastens under the ball.

### 'Kwik Connect' Jumper

- 36" loop of 16 gauge wire, with 4-way male connectors on each end for connecting 'Knockout' connector on trailer to 'knockout' on car end.
- Makes a fast and easy connect.

Part No.	Description
74045	'Kwik Connect' Jumper

### Small Trailer Connectors

71215 only

- Two- and four-contact 20 amp connectors.
- Polarized contacts with screw connections protected by rubber boots.
- Length 2 1/16".
- 6, 12 and 24 volt applications.
- Plug and socket supplied as complete unit.

plug

socket

Part No.	Description
71215	2 contact, complete unit
71415	4 contact, complete unit

### 7 Conductor Coiled Trailer Cable

- Patented Xenoy plugs are virtually destruction and corrosion proof with a temperature rating of 56°C to 204°C (-70°F to 400°F).
- Meets S.A.E. and ATA standards.
- Coil jacketing resists chemicals, cutting, abrasion, gasoline, ozone, water, solvents and sunlight.
- Plugs are lightweight and have locking grit that will not disengage from a pull force of up to 480 lbs.
- Sag-proof coil memory.

Part No.	Description	Gauge/Conductor
9000	Green ABS Coiled Cable, 12-ft	4-12 Ga, 2-10 Ga, 1-8 Ga
9005	Green ABS Coiled Cable, 15-ft	4-12 Ga, 2-10 Ga, 1-8 Ga
9010	Black Jacket Coiled Cable, 12-ft	6-12 Ga, 1-10 Ga
9015	Black Jacket Coiled Cable, 15-ft	6-12 Ga, 1-10 Ga

### 7-contact Truck/Trailer Connectors

- 40 amp connector with heavy gauge drawn steel plug and socket.
- Interchanges with most other 7-contact connectors.
- Has a polarized round brass contact.
- Socket cover locks in place and keeps out elements when not in use.
- Mounting holes 2<sup>15</sup>/<sub>16</sub>" on centers.
- Cadmium plated.

Part No.	Description
73725	Plug
73735	Socket
73745	Protector Spring
73685	Connector boot; fits 73735

### 7-contact Truck/Trailer Connectors

- Seven-contact plug and socket.
- Nylon material helps eliminate corrosion, rust and poor appearances.
- 6 terminals accept up to 10 gauge, 1 up to 8 gauge.
- Labeled to industry standards.
- Rated to 40A continuous at 6-28V DC.

Part No.	Description
73731	Nylon Plug
73740	Nylon Socket, Solid Pin

### 7-contact Mobile Home/RV Connectors

- Constructed for maximum weather and corrosion resistance.
- Safety latch prevents damage from accidental pull-away.
- Interchangeable with most well-known RV types; color coded to RVI standards.
- 70975 is a rust-proof bracket for mounting 73675 socket.

Part No.	Description
73665	Plug
73675	Socket
70975	Mounting Bracket

73771

73770

### 7-contact Mobile Home/RV Connectors

- Seven contact RV connector and plug.
- Nylon material helps to eliminate corrosion, rust and poor appearance.
- Design incorporates dual handles for ease of insertion and removal.
- Labeled to industry standards.
- 70955 is zinc-plated, with an e-coating finish for mounting 73771 socket.

Part No.	Description
73770	Nylon Plug
73771	Nylon Socket
70955	Mounting Bracket

70955

### OEM Style RV Socket and Harness Kit

- Kit includes socket, 4-ft harness with connector and mounting bracket
- The 7-wire leads are color-coded to RVI standards for ease of installation.
- Assembly is corrosion resistant featuring tin-plated copper alloy terminals and silicone at the rear of the socket to complete a sealed connection.
- Fits many popular OEM truck applications.

Part No.	Description
73750	OEM Style RV Socket and Harness Kit

### 6-contact Metal Connectors & Boots

- 35 amp connector with die cast metal construction and spring-loaded cover.
- Round brass contacts are interchangeable with other popular 6-way connectors.
- Mounting holes 2<sup>15</sup>/<sub>16</sub>" on centers.
- 70965 is a rust-proof bracket for 73635 socket.

73635

73625

Part No.	Description
73625	Plug
73635	Socket
70965	Mounting Bracket

70965

### 6-contact Concealed Terminal Trailer Connector

- Contains split brass pins for best conductivity.
- Terminals accept up to 12-gauge wire.
- Extended barrel of socket supports and conceals terminal connection.
- Manufactured from heavy gauge drawn steel.
- Rated for 6-24V DC.

Part No.	Description
73730	Concealed Terminal Socket

73775

73765

### 6-contact Chrome Connectors

- 35 amp connector.
- Interchangeable with all round types using spring-loaded plugs.
- Black molded plastic socket with plated spring-loaded cover.
- Die casted with molded interior.
- Mounting holes 2<sup>15</sup>/<sub>16</sub>" on centers.
- Designed for recreational vehicles.
- 70965 is a rust-proof bracket for 73775 socket.

Part No.	Description
73765	Plug
73775	Socket
73695	Protective boot; fits 73775
70965	Mounting Bracket

71565

71545

### 4-contact Round Trailer Connector

- Rated to 35 amps at 12-24 volts with a zinc metal construction.
- Spring-loaded cover protects split pin design.
- Extended barrel of socket supports and conceals terminal connection.
- Two ¼" mounting holes 2-<sup>7</sup>/<sub>8</sub>" center-on-center.

Part No.	Description
71545	Plug
71565	Socket

71595

71575

### 4-contact Chrome Metal Connectors

- Chrome-plated, 20 amp polarized connector.
- For automobile, truck, marine and recreational vehicle use.
- Spring loaded cover holds plug in place and keeps out elements when not in use.
- Heavy round brass contacts.
- Two-hole flange mounting 1<sup>15</sup>/<sub>16</sub>" on centers.

Part No.	Description
71575	Plug
71595	Socket
70965	Mounting Bracket

71571

71570

### Single-contact Trailer Connectors

- Ideal for almost all heavy-duty power applications.
- Provides power from battery to auxiliary equipment.
- Interchangeable with competitive brands.
- Rated for 300A continuous duty.
- Pin accepts up to 2/0 cable (solder connection) and grounding lug is 4-2 gauge cable.
- Use 73745 protector spring (pg. 158) for strain relief on 71570.

Part No.	Description
71570	Plug
71571	Socket

73442

73440

### Locking Trolling Motor Plug & Receptacle

- Locking plug and receptacle provides a superior electrical connection for trolling motors.
- Plug "locks" into receptacle and provides a waterproof seal; screw terminals will not loosen under extreme hull vibration, and drain holes in receptacle keep water away from electrical components.
- Universal design for 2- or 3-wire configuration 12, 24, 12/24, 24/36 or 36 volt systems.
- Corrosion resistant, plated brass electrical components; standard 1 1/8" diameter mounting hole.
- Easy to install, with supplied mounting plate for front panel installation, or locking ring for rear access installation; easily replaces other plugs and receptacles.
- Receptacle accepts 10 and 8 gauge wire; plug accepts 16 to 8 gauge wire.

Part No.	Description
73442	Locking Trolling Motor Plug
73440	Locking Trolling Motor Receptacle

73540

73542

### Deluxe 12V Plug & Receptacle

- Plug "locks" into receptacle and provides a waterproof seal.
- Easy to install, with supplied mounting plate for front panel installation, or locking ring for rear access installation.
- Watertight sealing cap on the receptacle; moisture proof sealing ring on the plug.
- Compatible with standard 12V plug and receptacles.
- Plug has internal strain relief and cord seal, and an interchangeable 10A fuse.

Part No.	Description
73540	Locking 12V Plug
73542	Locking 12V Receptacle

### Auxiliary 12 Volt Lighter Socket

- Lighter plugs with protective snap-on cover.
- Standard .250" push-on terminals for wire connection.
- 1.100" mounting hole.

Part No.	Description
73549	Auxiliary 12 Volt Lighter Socket

### Snap-in Female Lighter Socket

- Fast mounting expandable clips.
- Lighter plugs with protective snap-on cover.
- Under dash mounting bracket included.

Part No.	Description
73548	Snap-in Female Lighter Socket
