

If there are several entries for a city or if several cities of the same name are stored, then **OK** is highlighted in the character bar.

- ▶ Press **OK** the COMAND controller.

Option 2: city list as selection list

COMAND either shows the selection list automatically or you can call up the selection list from the list with the character bar.

The example shows the selection list after the city **NEW YORK** has been entered. The entry is highlighted automatically.

- ▶ Confirm **NEW YORK** by pressing **OK** the COMAND controller.
The address entry menu appears. You can now enter a street, for example.

Observe the information on destination entry (▶ page 63).

SPLITVIEW

Method of operation

SPLITVIEW allows you to simultaneously use different COMAND functions on the front-passenger side and on the driver's side. Different content is seen depending on your perspective when viewing the display.

The "Navi" function, for example, can be used from the driver's side while a video is watched from the front-passenger side.

SPLITVIEW is operated with the remote control from the front-passenger side.

To do so, use the special radio headphones. Using the headphones on the correct sides ensures an optimal sound.

You can connect your own headphones to a special headphones jack. You can use the remote control to operate them.

Points to remember

- You can only adjust the volume for the headphones supplied, directly on the headphones.
- Only entertainment functions, i.e. audio, TV, video and Internet, for example, may be used with SPLITVIEW.
- You can only operate media from the driver's and front-passenger sides separately if the media are from different sources. Example: if a medium from the DVD changer is being played on the driver's side. Then, no other medium can be used separately on the front-passenger side that is also played from the DVD changer. However, other media can be used at the same time on the front-passenger side, including radio, memory card, MUSIC REGISTER, Media Interface, USB or AUX.
- If you use the same medium on both sides, you can both carry out the respective settings.
- Internet use is only available at any one time to the driver or the front passenger. A corresponding message appears on the display.
- Internet can only be used, if it is set and connected via a telephone on the driver's side.
- The multifunction steering wheel can only be used for functions which relate to the driver's side.

Switching SPLITVIEW on/off

Switching on SPLITVIEW

- ▶ Select **System** in the main function bar by turning the COMAND controller and press to confirm.
- ▶ Select **2** in the menu bar and confirm. SPLITVIEW symbol **1** appears in the display, and display **2** switches to **Off**.

The front passenger sees the display of the function last activated. If the switch-on time was longer than 30 minutes previously, the display from the driver's side is shown.

Switching off SPLITVIEW

- ▶ Select **2** in the menu bar by turning the COMAND controller and press to confirm. SPLITVIEW symbol **1** disappears from the display. Display **2** switches to **On**.

i If COMAND has already been switched on, you can also use the remote control to switch SPLITVIEW on and off. Make sure that the SPLITVIEW symbol is set on the remote control thumbwheel (▷ page 239).

The SPLITVIEW display remains on for approximately 30 minutes after the SmartKey has been turned to position **0** in the ignition lock. After this time or after the SmartKey has been removed, the settings on the front-passenger side are saved for approximately 30 minutes longer. After this period, reactivation on the front-passenger side

means that the settings from the driver's side will be used.

Transferring the driver's website

- ▶ To switch on SPLITVIEW: select **System** from the main function bar by turning the COMAND controller and press to confirm.
- ▶ Select **2** in the menu bar and confirm. SPLITVIEW symbol **1** appears in the display, and display **2** switches to **Off**.
- ▶ Select in the main function bar with the remote control.

A carousel view appears with the following options:

- [Operator's Manual](#)
 - [Enter URL](#)
 - [Internet Favorites](#)
 - [Mercedes-Benz Apps](#)
 - [Internet Radio](#)
 - [Mercedes Mobile Website](#)
 - [Transfer Driver's Website](#)
- ▶ Select **Transfer Driver's Website** with the remote control. You see the last website called up by the driver.

Transferring a destination to the driver

Using SPLITVIEW you can select a destination from the front-passenger side and transfer this to the driver's side.

- ▶ To switch on SPLITVIEW: select **System** from the main function bar by turning  the COMAND controller and press  to confirm.
- ▶ Select **2** in the menu bar and confirm. SPLITVIEW symbol **1** appears in the display, and display **2** switches to **Off**.
- ▶ Select  in the main function bar with the remote control. The carousel view appears.
- ▶ Select **Mercedes-Benz Apps** with the remote control. You see the selection of Mercedes-Benz Apps.
- ▶ Select **Google Local Search** with the remote control. Using a menu you can select a category for the destination.
- ▶ Select **At Current Location**, for example. Using a menu you can determine the type of search inquiry.
- ▶ Select **Enter a search term**, for example. An input field appears.
- ▶ Enter the destination with the remote control and confirm the entry with **OK**. You see the results list from Google.
- ▶ Select the exact destination with the remote control. An additional menu appears.
- ▶ Select **Navigate to**.
- ▶ A pop-up window appears on the driver's side with the message: **Should the navigation data from Mercedes-Benz Apps be accepted?**
