Comparison Standard vs. AMG Line

Standard

AMG Line (DG3PKG)

Comparison AMG Line vs. AMG Line + Night Package

AMG Line (DG3PKG)

AMG Line (DG3PKG) + Night Package (DC1PKG)

Mercedes-Benz User Experience (MBUX)

MBUX - the newest head unit generation from Mercedes-Benz

Standard on all GLB models

- Offered with two 7" digital displays as standard (10.25" digital displays as optional equipment)
- MBUX was designed for a touch interface with intuitive operation
- There are four ways of interacting with the system:
 - An all-new Touchpad, Touch Control Buttons on the steering wheel, a touchscreen center display, and an all-new generation of Voice Control
- Multiple users can set up Profiles which save their settings for future use
 - Including: seat settings, music preferences and radio settings, phone settings, themes/moods, Bluetooth connections, etc.
- Over time, the system learns more about it's owners and creates Suggestions based on past behavior of the user
- Whole groups of settings can be saved together in the form of a Theme/Mood
 - Including: ambient lighting, climate control, music preferences, and setup of the Digital Instrument Cluster and head unit display, etc.
- Using over-the-air updates, MBUX can continuously be improved over time
- The system is very quick and responsive due to it's impressive graphics processing and computing power

Voice Control

The most advanced Voice Control in any Mercedes-Benz vehicle

Standard on all GLB models

- Voice Control with MBUX is greatly enhanced over other systems by using both an onboard and offboard system for voice recognition
 - This ensures quick and appropriate responses
- The system also uses Natural Language Understanding so there's no need to remember the order of words for a specific command, just talk to the voice assistant as you would speak to another person
 - There are many ways of saying the same thing: *"I'm feeling cold"*, or *"Set the temperature to 72 degrees"*, or even *"I'm cold"*
- Indirect commands can also be given like *"Will I need an umbrella today?"* and the Voice Control system understands that the user is really asking whether it will rain today
- In-vehicle components can also be controlled via Voice Control, like seat heating, climate control, ambient lighting, massage programs, and even the sunshade for the Panorama roof
- Voice Control is also capable of learning from its users and adjusting its understanding to their specific way of speaking
- Keyword Activation ensures you can quickly interact with Voice Control without having to press the button on the steering wheel
 - The system wakes up with a simple *"Hey Mercedes"* or *"Hi Mercedes"*

MBUX Interior Assistant (77B)

MBUX Interior Assistant (77B) -available from 12/2019-

Option Price: \$300

Available on all GLB models

Enjoy contactless ease of operation: this innovative system detects and interprets your hand and arm movements. As such you can activate selected functions in a matter of seconds. As part of this the system is able to differentiate between driver and front passenger – so that you reach precisely the menus you wish to use.

- 3D camera in the overhead control panel, proximity sensors near the media display and touchpad
- The system detects and interprets hand movements and as part of this differentiates between the driver and front passenger
- Specifically highlights certain elements in the media display or enlarges them (media/radio, seat adjustment, navigation or Active Parking Assist)
- Activate reading lamp – move hand up and down beneath rear-view mirror
- Activate search light – stretch hand out towards the unoccupied front passenger seat
- Call up the personal favourites menu – defined gestures, form a "V" using index and middle fingers

Comparison 7" Screen vs. 10.25" Screen

2x 7" Screen

Standard on GLB 250 and GLB 250 4MATIC

2x 10.25" Screen

Requires Premium Package (DP1PKG)

Please note: A-Class images shown – GLB similar

Comparison Steering Wheels

Multifunction Steering Wheel in Leather (L3E)
w/ touch control buttons and shift paddles
Standard on GLB 250 and GLB 250 4MATIC
Not available w/ Steering Wheel Heating (443)

Multifunction Steering Wheel in Leather (L3B)
w/ touch control buttons and shift paddles
Requires Steering Wheel Heating (443)

Multifunction Sport Steering Wheel in Nappa Leather (L5C)
w/ touch control buttons, shift paddles in silver chrome, perforated
grip area and flattened bottom section
Requires AMG Line (DG3PKG) or Night Package (DC1PKG)
Not available w/ Steering Wheel Heating (443)

Please note: A-Class images shown – GLB similar

Touchpad Controller (448)

Touchpad Controller (448)

Standard on all GLB models

The functions of MBUX can be controlled intuitively via the innovative touchpad, using single or multi-finger gestures (multi-touch):

- Touchpad approx. 3.35 x 3.54 inches in size
- Additional full-fledged input option supplementing the central controller, Touch Control Buttons on the steering wheel and voice control
- Recognizes single and multi-finger gestures (multi-touch), swiping movements and zoom gestures achieved by spreading the fingers or pinching them together
- Innovative handwriting recognition feature: Users are able to input letters, special characters and numbers in their normal handwriting, in any language available in the headunit
- 3 buttons located on the touchpad allow fast and direct operation of important functions
- Clear haptic feedback when using the touchpad or keys

Off-Road Engineering Package (430)

Off-Road Engineering Package (430)

Standard on GLB 250 4MATIC, not available on GLB 250

As standard, vehicles with 4MATIC feature an Offroad driving mode, which can be selected via the DYNAMIC SELECT switch. Turned on, the Offroad driving mode offers the following features for a safer and more comfortable off-road driving experience:

- 4MATIC with an aimed torque split of 50:50 for excellent traction even in difficult conditions
- Downhill Speed Regulation (can be activated separately)
 - Improves active safety by enabling a pre-selected vehicle speed to be maintained when driving downhill or on easy off-road terrain
 - Can be activated in the speed range from approx. 1 to 11 mph; a set speed of up to 21 mph can be selected in 1 mph steps using the cruise control lever
- Adjusted characteristic lines for ABS, ESP®, ETS, accelerator pedal and gear shift points
- Visualization of relevant information in the instrument cluster, the media display or the head-up display:
 - Accelerator pedal position in %
 - Brake pedal position in %
 - Status display of Downhill Speed Regulation
 - Vehicle inclination angle, side tilt angle
 - Steering angle in degrees
 - Uphill or downhill gradient in %
