- Smartphone Integration connects the mobile phone with the multimedia system wirelessly via Apple CarPlay™ or Android Auto™. This gives you convenient access to the most important apps on your smartphone.

Trailer Maneuvering Assist (553)

Option Price: \$350. Only with Trailer Hitch (550)

The Trailer Maneuvering Assist now works via a camera-based system and is also suitable for trailers equipped with a separate stabilization device. The optional assist system makes maneuvering with a trailer even easier, more convenient and safer. It automatically regulates the steering angle of the towing vehicle up to a speed of 3 mph and an uphill gradient of up to 15 percent. It is also integrated into MBUX and can be operated intuitively via the touchscreen. In addition to stabilizing the vehicle/trailer combination when reversing, the system can also guide the trailer around freely selectable turns of up to 90 degrees. The steering of the towing vehicle is operated automatically so that the selected angle is maintained. This allows more precise positioning of the trailer. The driver can also select a corresponding function once the trailer has reached the desired direction and needs to reverse a straight line. The entire maneuvering process can be followed from different camera perspectives on the central display. Dynamic guide lines show the path ahead and the vehicle width. The system must be briefly trained. However, no markings on the trailer are necessary for the visual measurement of the drawbar length.

Roof Spoiler (D11)

European images shown, pre facelift - wheels n/a in US

Load Sill Protector (D26)

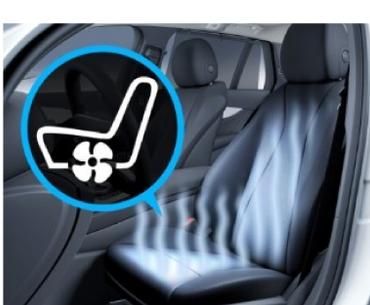

Load Sill Protection (D26)

Option price: \$150

- Contrary to GLE W166, the new GLE will no longer feature a standard chrome load sill guard
- The load sill guard is specifically designed for the new GLE bumper shape and does not only cover load sill but also load sill-bumper edge

Head-Up Display (463)

Head-Up Display (463)

Included with Pinnacle Trim (DX2)

The Head-Up Display at a glance:

- Key driver information at a glance (e.g. speed, speed limits, navigation prompts, warnings or settings for the driving assistance systems) without the driver having to take their eyes off the road
- Projection of a virtual image measuring approx. 9.45" x 3.15" into the driver's field of vision
- Presentation of information in high-resolution and in color, making it clearly legible even on sunny days and at night
- Height position of the image, brightness and displayed content can be changed individually via a menu in the instrument cluster and can be stored conveniently via the optional memory function for the driver's seat

Availability of Ventilated Front Seats (401) with MB-Tex

Ventilated Front Seats (401)

Option Price: \$450

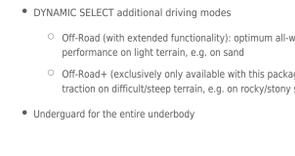

The climatized seats for driver and front passenger comprise seat heating and seat ventilation - for an ideal seat climate all year round. On hot days they provide you with a pleasantly refreshing temperature thanks to cooling ventilation. On cold days, meanwhile, the seat cushions and backrests emit a pleasant warmth.
