

# AMG GLS SUV

X167

Model Year 2021

Preliminary – Subject to Change

**AMG**  
DRIVING PERFORMANCE

## Important note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

Specifications

## *GLS 63 (167.989)*

- MSRP \$TBD
- Handcrafted AMG 4.0L V8 biturbo engine with EQ Boost
- 603 hp (+21 hp)
- 627 lb-ft (+184 lb-ft)
- 4.1 sec est (0-60 mph)
- Launch Date Summer 2020

## *Exterior*

- AMG-specific radiator grille with AMG logo and vertical lamellas in high-gloss chrome
- Emotional and dynamic design
- AMG side skirts vehicle color
- Exterior mirror casings in vehicle color
- Window frames in high gloss chrome
- Two cornered twin tailpipes in high-gloss chrome
- Active Dynamic Engine Mounts
- Electronic Locking Differential
- “V8 BITURBO 4MATIC+” badging on front wings
- Hood with demonstrative power domes
- Spoiler lip on roof
- New: large 21-23” wheels
- AMG lettering on brake calipers
- Air intakes in the AMG front apron with fins in silver chrome
- New exterior paint colors

## *Interior*

- Progressive all-new SUV interior design
- New AMG Performance Steering wheels with touch controllers
- Instrument cluster with AMG specific design and specific AMG functions
- MBUX User Interface
- NFC Wireless Charging
- 12.3” Digital Instrument Cluster
- 12.3” Media Display with Touchscreen
- Touchpad in Center Console
- 9 USBs Type-C
- New trim options
- Two dominant grab handles on the center console
- SUV-specific storage compartments

## Mercedes-Benz User Experience (MBUX)

### MBUX - the newest head unit generation from Mercedes-Benz

*Standard on all GLS models*

- Offered with two 12.3" digital displays as standard equipment
- MBUX was designed for a touch interface with intuitive operation
- There are four ways of interacting with the system:
  - An all-new Touchpad, Touch Control Buttons on the steering wheel, a touchscreen center display, and an all-new generation of Voice Control
- Multiple users can set up Profiles which save their settings for future use
  - Including: seat settings, music preferences and radio settings, phone settings, themes/moods, Bluetooth connections, etc.
- Over time, the system learns more about it's owners and creates Suggestions based on past behavior of the user
- Whole groups of settings can be saved together in the form of a Theme/Mood
  - Including: ambient lighting, climate control, music preferences, and setup of the Digital Instrument Cluster and head unit display, etc.
- Using over-the-air updates, MBUX can continuously be improved over time
- The system is very quick and responsive due to it's impressive graphics processing and computing power

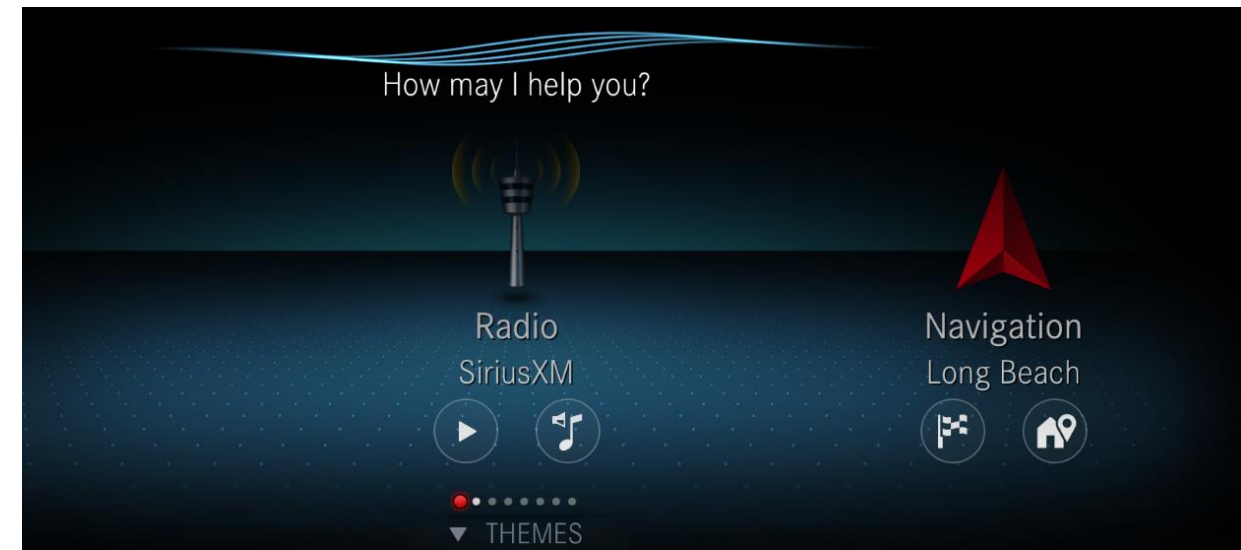

## Voice Control

### The most advanced Voice Control in any Mercedes-Benz vehicle

Standard on GLS 63

- Voice Control with MBUX is greatly enhanced over other systems by using both an onboard and offboard system for voice recognition
  - This ensures quick and appropriate responses
- The system also uses Natural Language Understanding so there's no need to remember the order of words for a specific command, just talk to the voice assistant as you would speak to another person
  - There are many ways of saying the same thing: *"Take me to Starbucks"*, or *"Find a Starbucks nearby"*, or *"Is there a Starbucks close?"*, or even *"I need a coffee"*
- Indirect commands can also be given like *"Will I need an umbrella today?"* and the Voice Control system understands that the user is really asking whether it will rain today
- In-vehicle components can also be controlled via Voice Control, like seat heating, climate control, ambient lighting, massage programs, and even the sunshade for the Panorama roof
- Voice Control is also capable of learning from its users and adjusting its understanding to their specific way of speaking
- Keyword Activation ensures you can quickly interact with Voice Control without having to press the button on the steering wheel
  - The system wakes up with a simple *"Hey Mercedes"* or *"Hi Mercedes"*

## Touchpad controller (448)

### **Touchpad controller (448)**

*Standard on GLS 63*

The functions of MBUX can be controlled intuitively via the innovative touchpad, using sinGLS or multi-finger gestures (multi-touch):

- Touchpad approx. 3.35 x 3.54 inches in size
- Additional full-fledged input option supplementing the central controller, Touch Control Buttons on the steering wheel and voice control
- Recognizes single and multi-finger gestures (multi-touch), swiping movements and zoom gestures achieved by spreading the fingers or pinching them together
- Innovative handwriting recognition feature: Users are able to input letters, special characters and numbers in their normal handwriting, in any language available in the headunit
- 3 buttons located on the touchpad allow fast and direct operation of important functions
- Clear haptic feedback when using the touchpad or keys

## Head-Up Display (463)

### Head-Up Display (463)

Included in MBUX Technology Package (DA0PKG)

The Head-Up Display at a glance:

- Key driver information at a glance (e.g. speed, speed limits, navigation prompts, warnings or settings for the driving assistance systems) without the driver having to take their eyes off the road
- Projection of a virtual image measuring approx. 9.45" x 3.15" into the driver's field of vision
- Presentation of information in high-resolution and in color, making it clearly legible even on sunny days and at night
- Height position of the image, brightness and displayed content can be changed individually via a menu in the instrument cluster and can be stored conveniently via the optional memory function for the driver's seat

## *Ambient lighting with 64 colors*

### **Ambient lighting with 64 colors (876)**

*Standard on GLS 63*

Showcase the interior according to your personal preferences or current mood. With a total of 64 colors, the ambient lighting gives you almost unlimited scope for lighting schemes, and has the right color available for any situation. Additional light elements in white help to ensure good orientation.

- All colors can be individually selected
- Brightness of the illumination zones can be freely selected between 0 and 100%
- Nine color schemes with different color combinations
- Dynamic mode: atmospheric color changes thanks to slow, seamless transition between different colors
- Climate effect: feedback in color when changing the temperature setting
- Welcome effect: special light display when getting into the vehicle
- Incorporation of ambient lighting into the programs of the ENERGIZING comfort control, in conj. with ENERGIZING package Plus
- Illuminated door sill panels with “Mercedes-Benz” lettering

## *ENERGIZING Package Plus (DB8PKG)*

### **ENERGIZING Package Plus (DB8PKG)**

Option Price: \$TBD

Requires Warmth and Comfort Package (DB0PKG)

The ENERGIZING package Plus is a new feature – it offers ultimate comfort for all the senses. To this end, a maximum of premium features are combined with innovative intelligence.

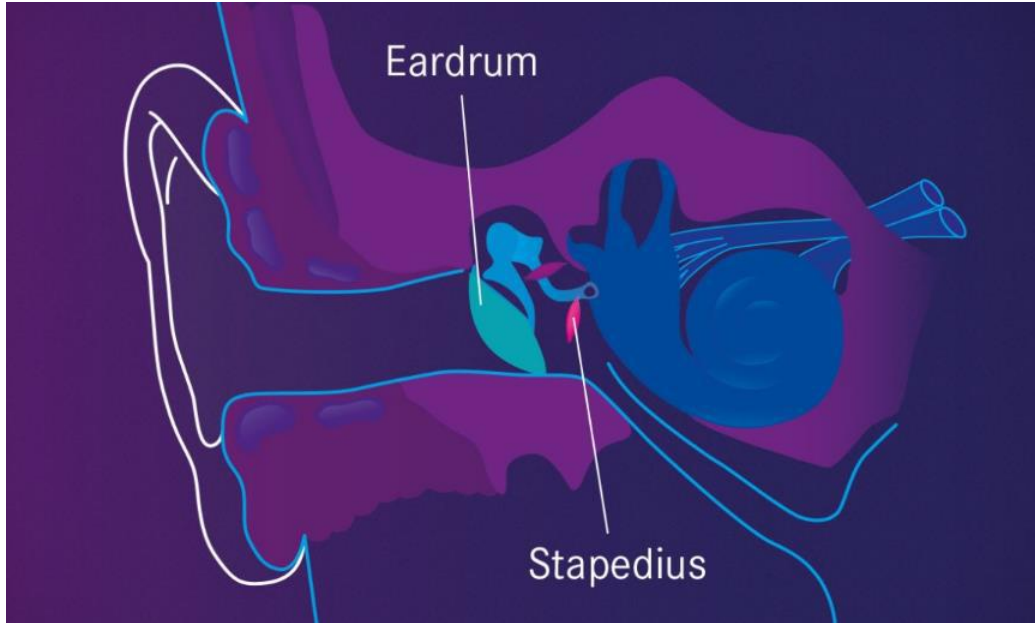

The exciting result: your Mercedes can vitalize and pamper you in specific ways. For prolonged alertness at the wheel and a very pleasant drive.

#### **Programs**

- The "Refresh" program brings a breath of fresh air on board – an intense airflow and activation of the seat ventilation create a revitalizing atmosphere
- "Vitality" gives you new energy – e.g. by including lively music
- Cozy relaxation is the purpose of "Warmth", which activates the seat heating
- If you opt for "Joy", the focus is on an invigorating massage with wave-like lumbar movements
- Your seats also please you in the "Comfort" program – in this program you can enjoy both seat heating and a beneficial hot-stone massage with a pulsating lumbar effect
- "Training", on the other hand, is active rather than passive: you can put intermediate breaks to good use with exercise

Additional functionality with Garmin® wearables (Smartwatch/Fitness Trackers)

## *PRE-SAFE Sound*

### **PRE-SAFE® Sound**

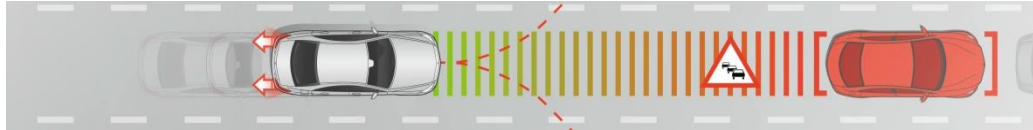

*Standard on GLS 63*

Part of PRE-SAFE, PRE-SAFE Sound is an acoustic occupant preconditioning system which can reduce the effects of the noise from an accident on the occupants hearing.

- When the PRE-SAFE system recognizes a certain dangerous situation, the onboard sound system plays a brief rushing sound, also known as 'Pink Noise', to precondition the hearing
- The natural reflex mechanism of the stapedius muscle enables the inner ear to rapidly prepare for the accident-induced high pressure sound
- Up to 40% reduction of noise exposure impact

## *Active Brake Assist*

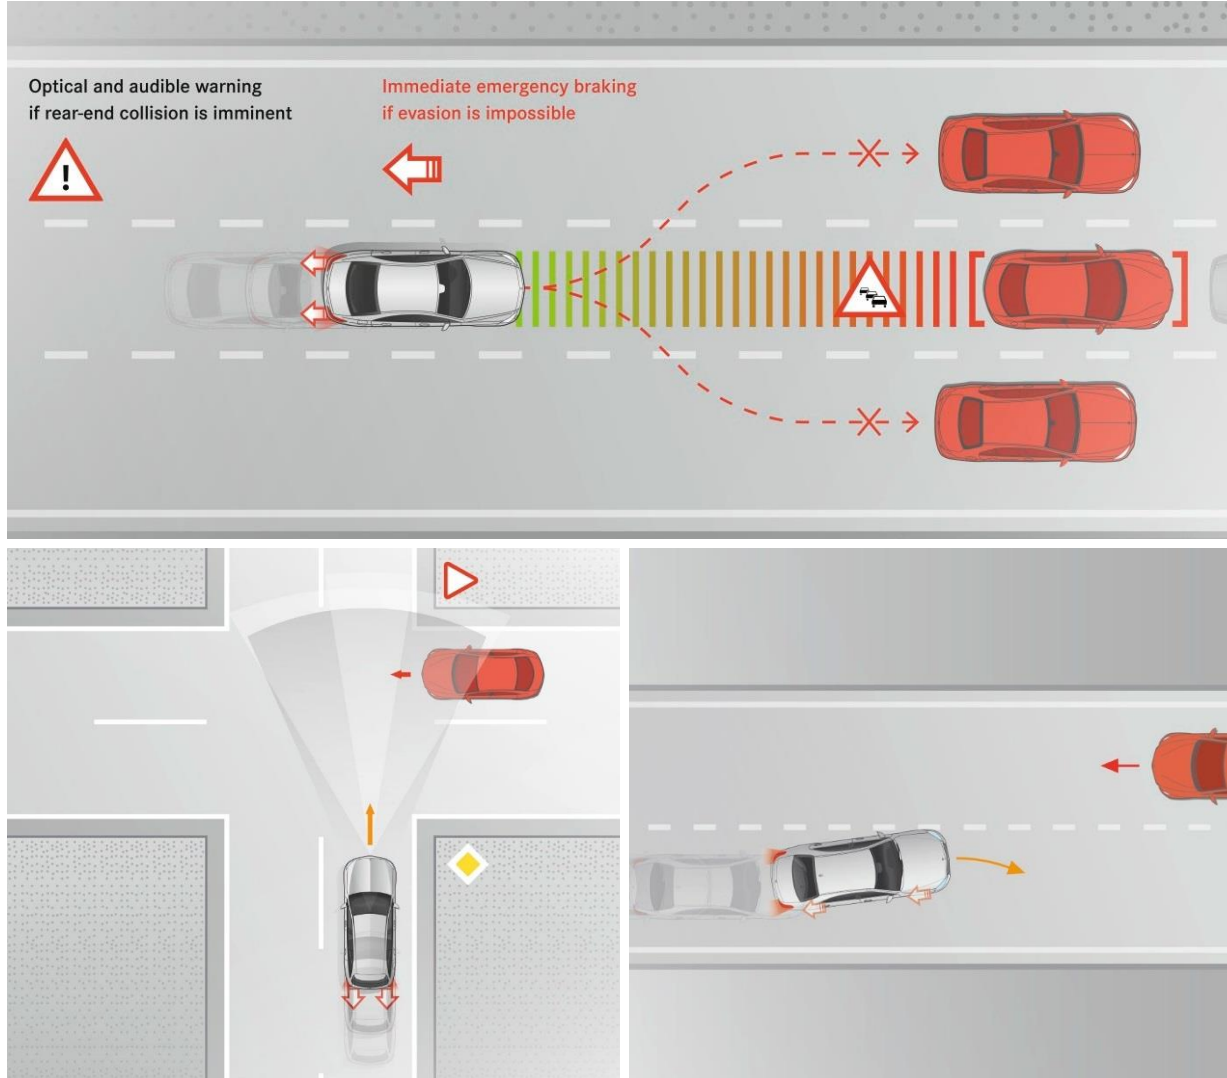

### **Active Brake Assist (258)**

*Standard on GLS 63*

- Radar-based driving assistance system that can help prevent accidents with vehicles ahead and with crossing pedestrians or mitigate the consequences of accidents
- Combination of proximity warning, collision warning, on-demand braking assistance and autonomous braking function
- Additional audible warning if the distance diminishes rapidly
- If the driver initiates emergency braking – if necessary – increase in braking pressure by the on-demand braking assistance
- Initiation of autonomous braking if the driver fails to react
- Visual and audible warning plus almost simultaneous emergency braking if an impending collision with a crossing pedestrian is detected

## Driver Assistance Package PLUS

### Driver Assistance Package PLUS (DA2PKG)

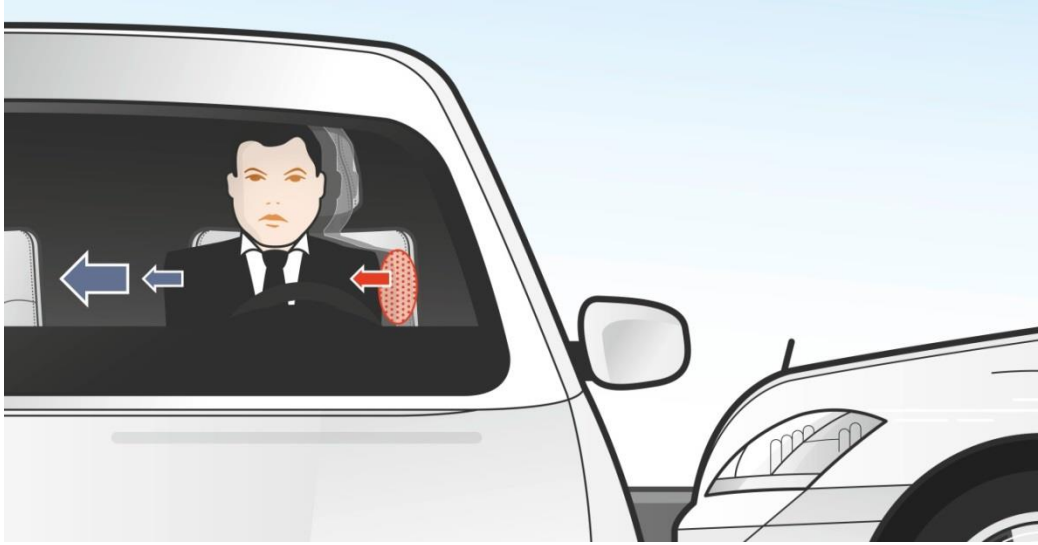

Standard on GLS 63

**Latest-generation of our Advanced Driver Assistance System:** the enhanced intelligent hands-off detection includes sensing via the Touch Control Buttons and is sensitive to specific conditions and can be activated at a wide range of speeds.

- **Active Stop-and-Go Assist** see next slide
- **Active Distance Assist DISTRONIC®**
- **Active Steering Assist** can now actively intervene even if road lines are unclear or non-existent at certain speeds; it can now also function in curves with a tighter radius
- **Active Emergency Stop Assist** is able to brake the vehicle to a standstill in its lane if it detects that the driver is no longer actively driving the vehicle while it is on the move with Active Distance Assist DISTRONIC® and Active Steering Assist engaged. It can now unlock the doors when the vehicle is stationary to allow first responders immediate access to the vehicle's interior
- **Active Lane Change Assist** is a radar-and-camera-based system that aids the driver when changing lanes. When a turn is indicated, this feature will aid with steering into the adjacent lane if it detects the lane is empty
- **Active Speed Limit Assist** can adapt vehicle speed to identified speed limits and can now adjust preemptively when speed limits are going to change
- **Route-Based Speed Adaptation** is able to reduce the speed in anticipatory mode by referencing the vehicle's map data ahead of bends, junctions, roundabouts, toll booths and exit ramps
- **Active Brake Assist with Cross-Traffic Function**
- **Evasive Steering Assist** this system assists by adding calculated steering torque to aid in steering wheel movement when a driver deliberately or instinctively performs an evasive maneuver around a pedestrian
- **Active Blind Spot Assist** helps the driver to avoid an imminent side impact by single-sided braking
- **Active Lane Keeping Assist**
- **PRE-SAFE® Impulse Side** see next slide

## *Driver Assistance Package Highlights*

### **Mercedes-Benz Intelligent Drive – PRE-SAFE® Impulse Side**

*Standard on GLS 63*

- PRE-SAFE® Impulse Side initiates preventative protective measures against an impending side impact, supplementing the measures taken by PRE-SAFE® and PRE-SAFE® PLUS
- In the event of a side impact, PRE-SAFE® Impulse Side can have a positive effect by increasing the distance between the occupant and the door, and at the same time reducing the relative speeds between the side structure and the occupant's torso
- In the event of a recognized, unavoidable side collision, the system can give the driver or front passenger a slight push towards the center of the vehicle on the side facing the impact
- This lateral impulse is initiated by very rapid inflation of an air chamber in the seat bolster

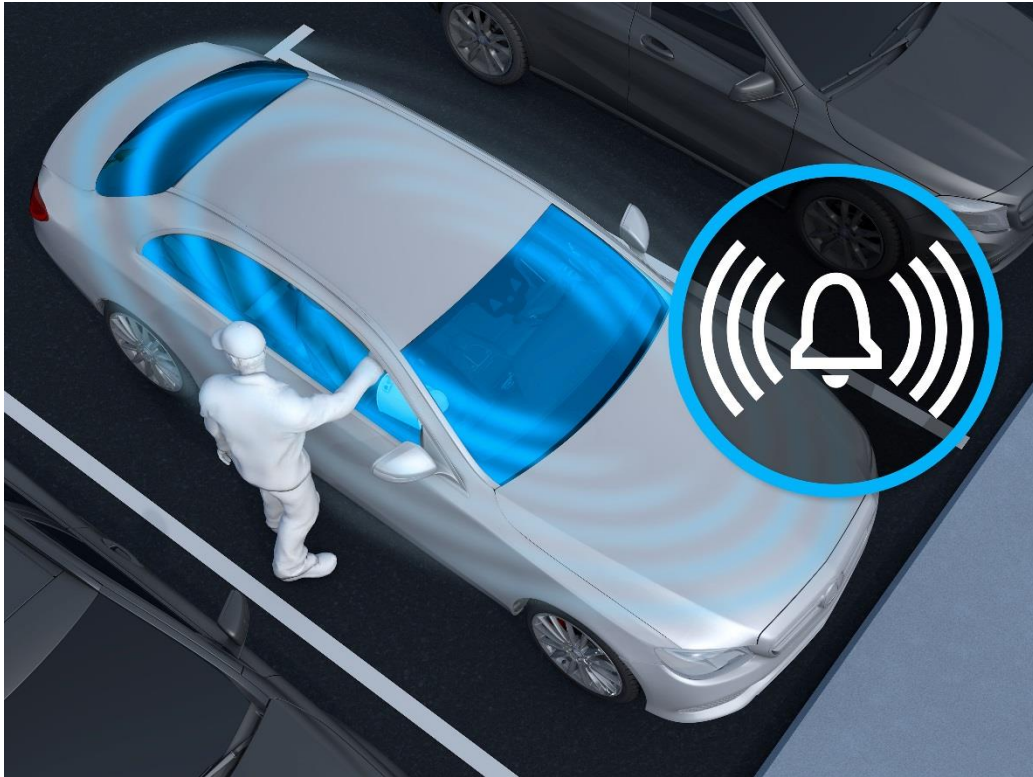

### **Mercedes-Benz Active Stop-and-Go Assist**

*Standard on GLS 63*

- Enables the GLS to recognize traffic jams at an early stage, actively supporting the driver in stop-and-go traffic up to approx. 37 mph

## Advanced Alarm System and Parking Damage Detection (Codes: 551, 852, and 08U)

### *Standard Equipment*

This system combines a number of security features that improve protection for both your vehicle and any valuables in the interior. It gives an audible and visual warning when it detects a break-in, attempted theft, interior motion, unauthorized towing, and even damage while the vehicle is parked.

An alert is then also sent to your mobile device for quick response. From the Mercedes me connect app, the user is made aware of the issue and is even able to turn off the alarm. Once back in the vehicle, a notification on the central display will detail what issue was detected.

**1.** The Advanced Alarm System is able to recognize unauthorized attempts to open the vehicle doors or trunk, along with detecting any motion inside the vehicle. The integrated tow-away protection is activated as soon as a change in the vehicle's position is detected and an alarm is triggered in this case as well.

- The vehicle's interior is monitored via an ultrasound sensor located in the overhead control unit which will detect movement within the vehicle once the alarm is active (after the vehicle is locked)
- Contact sensors located in the vehicle's doors and trunk lid will detect any unauthorized access to the vehicle, triggering an alarm and a notification via the Mercedes me connect app and in the headunit
- Notifications are sent to the Mmc app when doors/trunk/hood are opened, movement is detected inside vehicle, or towing sensors are triggered

**2.** Parking Damage Detection can identify potential damages to a parked vehicle by measuring impacts with an accelerometer located in the overhead control unit. The customer will be notified about damage events through the Mercedes me connect app as well as in the central display once back in the vehicle.

- The trigger levels can be detected in different levels: minor, moderate, etc.
- The system is active when the vehicle is at a standstill and locked
- Notifications are sent to the Mmc app when parking damage is detected
- Once back inside the vehicle, a notification will ask the user if the damage is severe enough to need assistance from the CAC

## *Performance & Handling*

- Handcrafted AMG 4.0L V8 Biturbo Engine
- AMG SPEEDSHIFT TCT 9-speed automatic transmission
- EQ Boost Starter-Alternator
- AMG DYNAMIC SELECT
- AMG Performance 4MATIC+® all-wheel drive
- Active Dynamic Engine Mounts
- Electronic Locking Differential
- AMG ACTIVE RIDE CONTROL Suspension based on AMG RIDE CONTROL+
- Adaptive Damping Plus
- ACTIVE CURVE SYSTEM
- AMG High-Performance Braking System
- 21" AMG Wheels with High-Performance Summer Tires

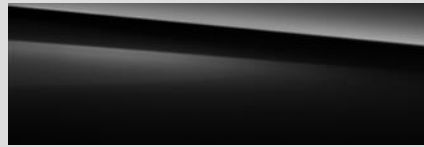

## *Comfort & Convenience*

- KEYLESS START, KEYLESS-GO and HANDS-FREE ACCESS
- Panorama Roof
- AMG Performance Steering wheels with touch controllers
- Active Multi-contour Front Seats with Massage Function
- MBUX User Interface
- Smartphone Integration
- Apple CarPlay™ & Android Auto
- 12.3" Digital Instrument Cluster
- 12.3" Touchscreen Media Display
- 64 Color Ambient Lighting
- 115V Power Outlet
- 9 USBs
- Mercedes Me Connect
- MB Navigation w/ Live Traffic and Map Updates for 3 years
- Active Parking Assist
- Heated and Ventilated Front Seats
- Power Front Seats with 4-Way Lumbar Support and Memory
- Dual Zone Climate Control
- Power Liftgate
- Burmester® Surround Sound System
- SiriusXM Radio
- NFC Wireless Charging

## *Safety & Security*

- ATTENTION ASSIST®
- Active Blind Spot Assist
- Active LED Headlamps & Adaptive Highbeam Assist
- Surround View System with 360 camera
- Active Lane Keeping Assist
- Advanced Alarm System and Parking Damage Detection
- Active Brake Assist
- Power folding Mirrors, Auto-dimming Driver and Rearview Mirrors
- PRE-SAFE®
- Traffic Limit Assist
- eCall-Emergency System
- Anti-Theft Alarm System

## *Headlamps*

### **LED Intelligent Light System w/ Ultra Range Highbeam** Standard on all models

- Advanced LED headlamps and Ultra Range Highbeams
- Ultra Range Highbeam produce light at an increased range for maximum illumination of the road and surround area
- Adaptive Highbeam Assist is also part of the LED Intelligent Light System and allows drivers to drive with activated main beams without dazzling other motorists or pedestrians

## *Burmester® Surround Sound Systems*

### **Burmester® Surround Sound System (810)**

*Standard*

- 13 high-performance speakers precisely configured for the vehicle interior to ensure well-balanced and very dynamic music reproduction
- 9-channel DSP amplifier with a total output of 590 watts (7 x 50 W and 2 x 120 W) for maximum sound quality with very high volume reserves
- Frontbass® technology with woofers integrated into the body-in-white
- Sound optimization for the front and rear seats
- Vehicle noise compensation (VNC)
- Sound preset: surround function to generate virtual all-round sound
- Support for popular multi-channel formats for true surround sound

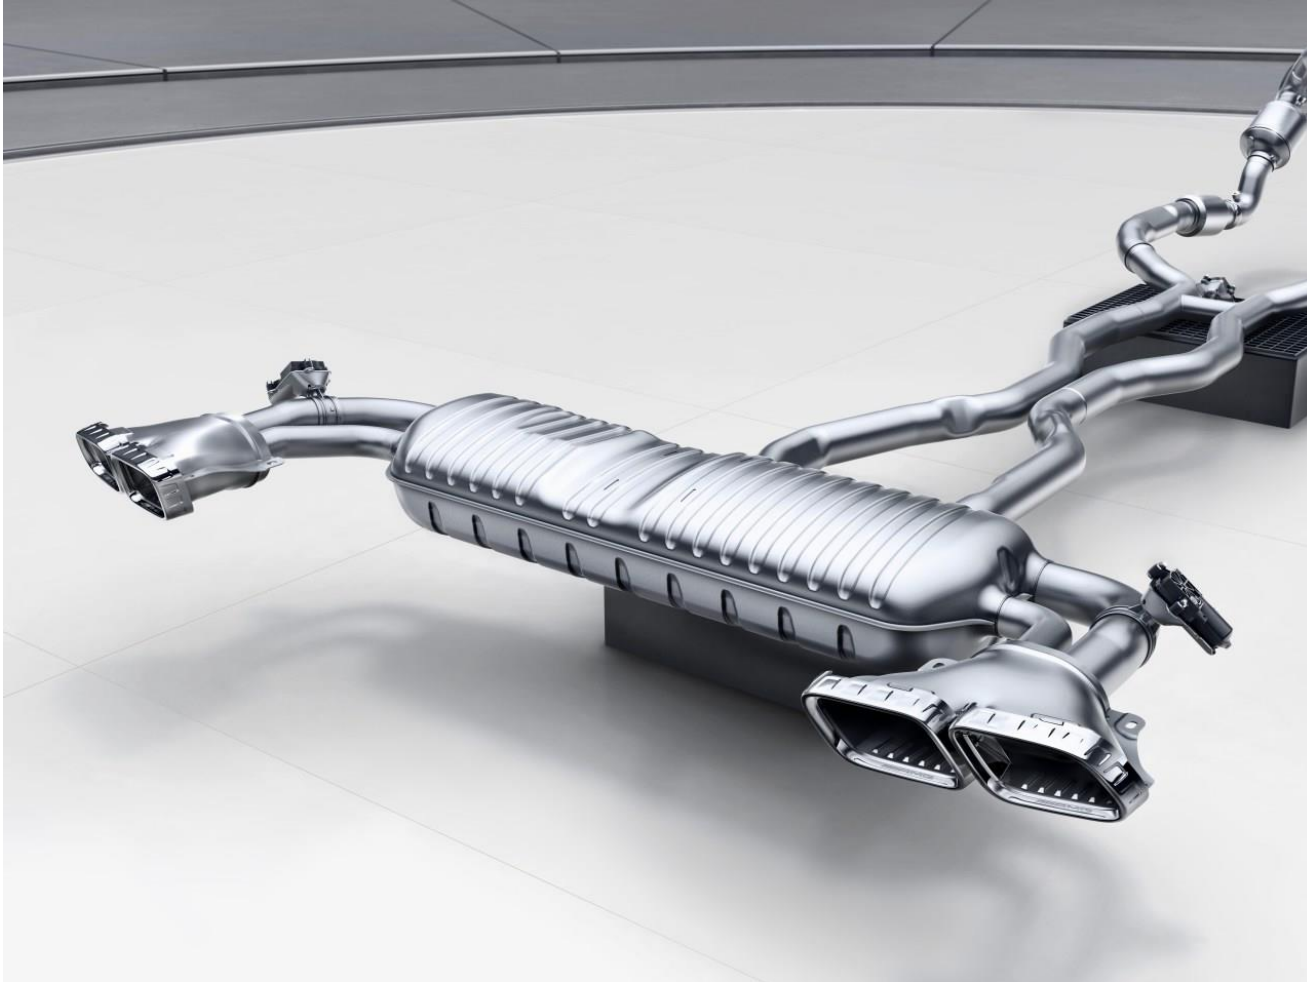

### **Burmester® High-End 3D Surround Sound System (811)**

Option Price \$4,550

*Not with MBUX Interior Assistant (77B)*

- 26 high-end speakers including subwoofer and speaker units in the roof liner
- 27-channel amplifier with digital and active analogue filters and an output of 1,210 watts plus an additional subwoofer booster amplifier delivering 400 watts (total system output 1,610 watts)
- VIP seat function to optimize the sound for individual seats
- Mid-range, low- to mid-range and Frontbass speakers with membranes made of glass-fiber fabric
- Noise compensation (VNC) for dynamic equalizing
- Supports multichannel audio formats

## *AMG Performance Exhaust System*

### **AMG Performance Exhaust System (U78)**

*Standard on GLS 63*

- Stronger differentiation of the sound characteristics by means of two additional exhaust flaps
- Sound characteristics dependent on selected drive program – clear differentiation between rich in drive programs “C” and “S” and emphatically sporty in drive programs “S+” and “Race” (*“Race” mode on GLS 63 Only*)
- Additional control of the sound characteristics by means of a button in the middle control panel of the center console
- Control by means of variably adjustable exhaust flaps – without loss of power
- Control of the exhaust gas flaps is dependent on both engine speed and load, ensuring 100% power delivery
- Double declutching (in “S”) and a misfire (in “S+”) emphasize the sporty characteristics of the particular drive programs)

## Steering Wheel

### AMG Performance Steering Wheel in Black Nappa Leather (L6J)

GLS 63 option price: \$0

- Sporty 3-spoke design with flattened lower section and perforated grip area, completely finished in black Nappa Leather with 12'o clock marking and topstitching.
- Steering wheel spokes and trim in silver chrome with 'AMG' lettering and silver colored aluminum shift paddles.

### AMG Performance Steering Wheel in Nappa Leather /DINAMICA (L6K)

Standard on GLS 63

- Sporty 3-spoke design with flattened lower section, combined version in Nappa Leather with black DINAMICA microfiber in the grip area with 12'o clock marking and topstitching.
- Steering wheel spokes and trim in silver chrome with 'AMG' lettering and silver colored aluminum shift paddles.

### AMG Performance Steering Wheel in DINAMICA (L6G)

GLS 63 option price: *\$tbd*

*includes U88 AMG Drive Unit. Cannot be combined with 443 Heated Steering Wheel*

- Sporty 3-spoke design with flattened lower section, completely finished in DINAMICA microfiber in black with 12'o clock marking and topstitching.
- Steering wheel spokes and trim in silver chrome with 'AMG' lettering and silver colored aluminum shift paddles.

### AMG Performance Steering Wheel in Carbon Fiber / DINAMICA (L6H)

GLS 63 option price: *\$tbd*

*only i.c.w. H86 Carbon Fiber Trim, H31 Natural Grain Grey Oak, or H35 designo® Black Flamed Open-Pore Ash Wood*

- Sporty 3-spoke design with flattened lower section, combined version in high-gloss carbon fiber and black DINAMICA microfiber in the grip area with 12'o clock marking and topstitching.
- Steering wheel spokes and trim in silver chrome with 'AMG' lettering and silver colored aluminum shift paddles.

## *U88 AMG Drive Unit steering wheel buttons*

### **AMG Drive Unit steering wheel buttons**

*Standard on GLS 63*

- When U88 is selected, the AMG Performance Steering Wheel is equipped with a round controller with an integral display beneath the right-hand steering wheel spoke, plus two vertically positioned color display buttons beneath the left-hand steering-wheel spoke
- The round display allows for easy adjustment of the AMG DYNAMIC SELECT Drive Mode
- The vertically-mounted displays offer a configurable hot-key to adjust two key parameters, i.e. a switch to Manual transmission mode (or to Automatic shifting) or a switch from the Comfort exhaust setting to the more emotional Sport setting
- These buttons allow the driver to concentrate fully on dynamic driving without having to take their hands off the wheel in order to change performance-oriented vehicle settings

*Please note, that when equipped with 443 Heated Steering Wheel, the AMG Drive Unit Steering Wheel Buttons are unable to be equipped.*

## *Brakes*

### **AMG High Performance Braking System (U70)**

*Standard on GLS 63*

6-piston front and 1-piston rear calipers

- Red-painted brake calipers with Black AMG lettering

### **AMG High Performance Braking System (B06)**

*Optional on GLS 63*

*Option cost: \$0*

6-piston front and 1-piston rear calipers

- Silver-painted brake calipers with black AMG lettering
