

AD28.19-P-2000-02A	Assignment to coupling for transfer case actuator motor	Model 163	
--------------------	---	-----------	--

Assignment to coupling for transfer case actuator motor (A55)

A Output signal from position sensor (position: 4)

B Input signal, Low \Rightarrow High

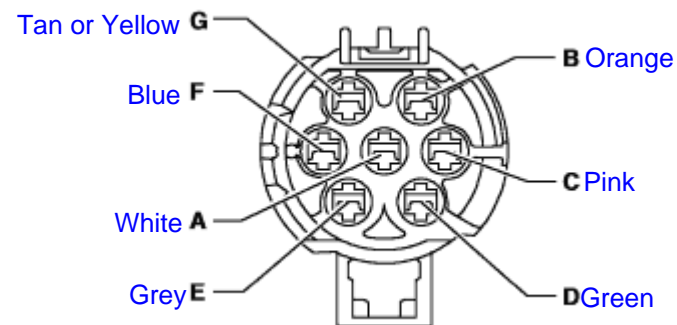

C Output signal from position sensor (position: 3)

D Output signal from position sensor (position: 2)

E Output signal from position sensor (position: 1)

F Output signal (ground) from position sensor in actuator motor

G Input signal, High \Rightarrow Low

P28.19-0203-01
