## Complete list of fault codes

B1040 CAN bus: fault in communication : Engine control module
B1041 CAN bus: fault in communication : ESP / ETS
B1086 CAN bus: fault in communication : AAM
B1088 CAN bus: fault in communication : A1 (Instrument cluster)
B1089 CAN bus: fault in communication : Transfer case
B1099 CAN bus: fault in communication : DAM
B1295 Wake-up cable to control module AAM: [REDACTED] -
B1366 Frequency fault on signal line from heater booster to engine control module
B1367 CAN bus: fault in communication : AAM on internal CAN
B1396 Fault in heating circuit 1 of heater booster
B1396 Fault in heating circuit 2 of heater booster
B1978 Component N41 (Trip computer (TRIP) control module) signals an internal error.
B1979 Component B26 (Electronic compass) signals an internal error.
B1980 Fault at interface between component N41 (Trip computer (TRIP) control module) and component B26 (Electronic compass)
B1981 CAN bus: fault in communication : N41 (Trip computer (TRIP) control module)
B1982 Circuit 50 monitoring: One of the two inputs is faulty.
