

BRABUS®

MONOBLOCK F "PLATINUM EDITION"

< X 166

Monoblock F "Platinum Edition" – the new hi-tech forged wheels from BRABUS. The sporty-elegant cross-spoke design sets new styling standards. The spokes are offset and extend all the way to the outer edge of the rim flange. As a result, they highlight the three-dimensional geometry and make the wheels look even more impressive. The robust forged wheels are much lighter than cast wheels of the same size.

Like all BRABUS wheels, manufactured with outstanding precision in the highest quality (OEM standard), fitted with BRABUS signet and milled "Geschmiedet" ("Forged") seal.

BRABUS alloy wheels are ready for use with the original Mercedes-Benz tire-pressure monitoring systems (TPMS). Vehicles with active TPMS system require the appropriate tire sensors (part number RDK-2015).

Tire Sizes Monoblock F 21":

- 10.5J x 21 H2 ET 50, tire size 295/40 R 21 (FA)
- 10.5J x 21 H2 ET 50, tire size 295/40 R 21 (RA)

Please note: The purchase and installation of these wheels may require checking for sufficient clearance of the complete tire/wheel combination under all load and operating conditions. The technical work required is subject to an extra charge
