* The performance data above was tested according to ASTM & AIMCOL standards. All values represented are as applied on 1/8" (3mm) glass. | 3-22-18 | V1.7

WHAT IS XPEL PRIME XR PLUS?

XPEL PRIME XR Plus window film uses nano-ceramic technology to preserve the integrity and appearance of your vehicle's interior and has the added benefit of protecting you and your passengers from harmful UVA/UVB and IR (infrared radiation) exposure. Because it is constructed with ceramic nano-particles between its layers, PRIME XR will never fade, nor will it interfere with radio, cellular, and Bluetooth functions. XPEL PRIME XR Plus ceramic window film comes with a lifetime warranty.

Appearance Solutions offers a variety of ceramic window film packages.
