Vehicle Recalls

Recalls:3

Service Bulletins: 3

Recall Subject: Tires:pressure Monitoring And Regulating Systems

Report Receipt Date: 10-03-2011

NHTSA Campaign: 11V493000

Manufacture: Mercedes-Benz USA, LLC.

Summary:

Mercedes-benz Usa, Llc (mercedes Benz) Is Recalling Certain Model Year 2011-2012 S550, S550 Cgi, S63, S600 Bi-turbo, S65 Amg, S550 4-matic, And S550 Cgi 4-matic And S400 Hybrid Vehicles Manufactured From March 3, 2011, Through July 30, 2011, For Failing To Comply With The Requirements Of Federal Motor Vehicles Safety Standard (fmvss) Number 138, "tire Pressure Monitoring System (tpms)." The Tire Pressure Monitoring System Indicators May Only Illuminate For A Portion Of The Time Required By The Standard And Under Certain Condition May Not Re-illuminate Immediately After The Vehicle Is Restarted As Required.

Consequence:

If All Four Wheel Sensors In The Subject Vehicles Are Simultaneously Malfunctioning Or Missing, The Tpms Will Provide An Initial Warning, But This Warning Will Not Automatically Repeat On Subsequent Ignition Cycles, Failing To Remind The Driver That The System Is Offline. Driving Unknowingly With Incorrectly Inflated Tires May Result In Sudden Tire Failure, Increasing The Risk Of A Crash.

Remedy:

Mercedes Benz Will Notify Owners, And Dealers Will Reprogram The Tire Pressure Monitoring Unit, Free Of Charge. The Recall Began On September 12, 2014. Owners May Contact Mercedes Benz At 1-800-367-6372.

Recall Subject: Fuel System, Diesel

Report Receipt Date: 10-03-2011

NHTSA Campaign: 11V496000

Manufacture: MERCEDES-BENZ USA, LLC.

Summary:

Mercedes-benz Usa (mbusa) Is Recalling Certain Model Year 2011 Vehicles Including E-class (212 Platform), Manufactured From July 2010 Through February 2011, R-class (251 Platform), Manufactured From April 2010

Through April 2011, MI-class (w164 Platform), Manufactured From January 2010 Through March 2011, GI-class (x164 Platform), Manufactured From March 2010 Through March 2011, And Model Year 2012 S-class (221 Platform) Vehicles. The Diesel Fuel Filter May Leak From The Area Around The Heating Component.

Consequence:

Diesel Fuel May Be Deposited Onto The Highway And Create The Potential For A Crash.

Remedy:

Mbusa Will Contact Owners, And Dealers Will Inspect And Replace The Diesel Fuel Filter If Necessary, Free Of Charge. The Safety Recall Began On November 30, 2011. Owners May Contact Mercedes-benz Usa At 1-800-367-6372.

Recall Subject: Fuel System, Gasoline

Report Receipt Date: 12-03-2012

NHTSA Campaign: 12V557000

Manufacture: Mercedes-Benz USA, LLC.

Summary:

Mercedes-benz Is Recalling Certain Model Year 2011-2012 S400, S550, S550 4matic, S63 Amg, C300, C300 4matic, E350, Glk350, Glk350 4matic, Cl550 4matic, And Cl63 Amg Vehicles Manufactured From April 18, 2011, Through July 12, 2011. Due To An Irregularity Stemming From The Molding Process Of The Fuel Filter Flange, The Fuel Filter Flange May Crack When Operated In High Temperatures.

Consequence:

If The Fuel Filter Flange Cracks, It Will Leak Fuel Which May Lead To A Fire If An External Ignition Source Is Present.

Remedy:

Mercedes-benz Will Notify Owners, And Dealers Will Replace The Fuel Filter, Free Of Charge. The Recall Campaign Is Expected To Begin In February 2013. Owners May Contact Mercedes-benz At 1-800-367-6372.

The above recalls were issued for the 2012 Mercedes Benz S Class by NHTSA.

Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. We do not review, validate, or edit the data provided by the NHTSA.

**Find the latest NHTSA recall information on this vehicle with
www.safercar.gov**

This search tool will specify if this vehicle has not been repaired as part of a safety recall in the last 15 years.

Technical Service Bulletins (TSBs)

These "secret warranties," TSBs cover known problems and provide repair instructions for service technicians and accordingly are distributed to all of the manufacturer's dealerships. Generally these repairs will be free of charge only if the vehicle is still under warranty.

NMVTIS Consumer Access Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand (https://www.vehiclehistory.gov/nmvtis_glossary.html) history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states (https://www.vehiclehistory.gov/nmvtis_states.html) are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days. Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage. The Approved NMVTIS Data Providers (https://www.vehiclehistory.gov/nmvtis_vehiclehistory.html) (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

Before making a decision to purchase a vehicle, consumers may wish to obtain an independent vehicle inspection NMVTIS Vehicle History Report, and consult other available vehicle information resources.

NMVTIS data INCLUDES (as available by those entities required to report to the System):

Information from participating (https://www.vehiclehistory.gov/nmvtis_states.html) state motor vehicle titling agencies. Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractor NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time. Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.

Most recent odometer reading in the state's title record.

Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier. Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov (<https://www.vehiclehistory.gov/>) for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies. NMVTIS data in this report has been obtained from VinAudit Inc., an Approved NMVTIS Data Provider
