BR00.45-Z-1142-02A	Adhesive parts kit (with heptane cleaner)	A 451 989 01 71

1 Remove cartridge from repair kit and heat in cartridge preheater.

i Heating time is approx. 60 minutes.

2 Screw on application nozzle onto cartridge.

3 **S** Insert adapter and cartridge into cartridge gun.

i The adhesive material can be pressed out using a commercially available electric (battery-powered) or pneumatic cartridge gun with push rod. To press the cartridge completely, **S** insert adapter between cartridge piston and plate on push rod.
