

Document title AIRmatic relay, component description

Document number gf3231p5114sx

MODEL 221
with CODE (489) Airmatic (semi-active air suspension)
up to Model Year 8

N10/1 Front SAM control unit with fuse and relay module

N10/1kB Air suspension compressor relay

The air suspension compressor relay is integrated in the front SAM control unit with fuse and relay module.

The air spring compressor relay switches the load current for the AIRmatic compressor unit (A9/1).
