12/22/2015		Mercedes-Benz USA LLC	<p>Manufacturer Safety recall issued NHTSA #15V855 Recall #2015120004 Model Year 2015-2016. Model 217, 222. SCN software update. Campaign Launched: December 23, 2015. Status: Remedy Available</p> <p><a href="#">Click here</a> or call 1-800-367-6372 to locate an authorized Mercedes-Benz dealer near you to obtain more information about this recall</p> <p>- <a href="#">Learn more about this recall</a></p>
<p><b>Description:</b> Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has determined that certain S- and CL-Class vehicles (222/217 platform and 221/216 platform respectively) from the stated production period might not fully comply with FMVSS 101 S5.2.1, Controls and Displays. The referenced standard requires the speed to be shown either in miles-per-hour (mph) or miles-per-hour (mph) and kilometers-per-hour (km/h). However, on the subject vehicles, the speedometer indicator can be set by the driver to display only the vehicle speed in either miles-per-hour or kilometers-per-hour (km/h).</p> <p>The speedometer scale is unambiguously identified using the correct unit (mph or km/h) as set intentionally by the driver. Should the driver misinterpret a km/h scale to be a mph scale, the actual speed would be slower than the speed displayed to the driver resulting in even safer driving conditions. The posted speed limits will be adhered to in any event. For this reason, DAG believes that the subject noncompliance is inconsequential to motor vehicle safety.</p> <p><b>Remedy:</b> MBUSA intends to file a petition for exemption from the notification and remedy requirements of the Act pursuant to 49 C.F.R. Part 556, on the basis that this noncompliance is inconsequential to motor vehicle safety. For vehicles in dealer inventory, an authorized Mercedes-Benz dealer will SCN code the instrument cluster on affected vehicles.</p>

## Glossary

[View Full Glossary](#)

### Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 11/10/18 at 5:15:49 PM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT.
