Reason for change	

Complaint:

When MB Apps are launched, the error message "Data connection temporarily unavailable" appears in the head unit.

MB Apps inoperative.

Free browsing inoperative.

Attachments	
File	Description
Data connection temporarily unavailable.JPG	Error message "Data connection temporarily unavailable" in head unit

Cause:

Due to a possibly nonmatching variant coding of the HERMES communication module (N112/9), the WLAN connection between the head unit and the HERMES control unit might be deactivated.

Remedy:

Perform SCN coding on the HERMES communication module (N112/9) using XENTRY Diagnosis.
