MUST BE SEEN TO BE APPRECIATED..

All flagship luxury sedans are fantastic, but maybe you want just a little bit more. Take a drive in a 2016 Mercedes-Benz S-Class. We think this iconic sedan is a step above in terms of refinement and luxury,

Effortless driving... That's how the 2016 Mercedes-Benz S-Class feels when you're behind the wheel. The

steering is fairly light, and when equipped with lane-keeping assist and/or Distronic Plus cruise control, it will even subtly steer the car for you. Still, you'll be surprised at how adeptly this very large sedan and coupe will hunker down and go around a corner. So well-rounded is the S-Class sedan that it earned an "A" Rating..

You may think you've enjoyed a comfortable ride before, but it most likely pales in comparison to the adjustable air suspension fitted as standard to the S-Class. Not only does it iron out bumps, it does so without a hint of floatiness. Plus, the ride gets even better with the sedan's optional Magic Body Control. Utilizing a windshield-mounted camera, the car detects bumps and other imperfections in the road ahead and automatically adjusts the air suspension to compensate. We're not exaggerating when we say that large speed humps can feel more like pebbles. It certainly feels like magic!!

So arrange your inspection of this rare beauty for yourself today!

We can arrange tailored finance packages to suit all your needs and can assist with interstate transport for your convenience as well.

Ours is a large multi franchised dealership group across Sydney and our Prestige showroom is located 5 mins from the M2 motorway.

We welcome your enquiry!
