RE: Mercedes-AMG MY22 SL 55 and SL 63 Pricing	DATE: July 29 th , 2022

Mercedes-Benz Dealers,

We are pleased to announce the MSRP of two exciting, all-new models – the 2022 SL 55 and SL 63.

Model	MSRP*	Horsepower	Torque (lb-ft)
SL 55	\$137,400	469 @ 5,500 – 6,500 rpm	516 @ 2,250 – 4,500 rpm
SL 63	\$178,100	577 @ 5,500 – 6,500 rpm	590 @ 2,500 – 5,000 rpm

*pricing excludes \$1,050 D&D

The 2022 SL was fully developed in-house at AMG and is only the fourth such vehicle that AMG has developed from the ground-up. Following in the tire tracks of the legendary SLS, AMG GT 2-door and GT 4-Door Coupe, the SL has lofty performance and luxury aspirations.

The SL returns to its roots for 2022, bringing back a soft top in lieu of the hard-top seen in recent years. A 2+2 seating configuration and a roomy trunk make the SL more usable than ever, and standard AIRSCARF, multi-contour seats with heating and ventilation (available for most upholsteries) and, for the first time, AMG Performance 4MATIC+, make the SL a sports car for all four seasons.

High-tech components such as AMG ACTIVE RIDE CONTROL suspension with active anti-roll stabilization, rear-axle steering, and the optional AMG ceramic high-performance composite brake system are available. In combination with a handcrafted AMG 4.0-liter V8 biturbo engine, this results in a driving experience of the highest order.

Initial wholesales are expected in the coming days. Please see the Dealer Ordering Guide or contact your Distribution Liaison if you have any questions.

Sincerely,

Brian Cotter
