General Information

Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

Revision History

Date	Description
09/23/2022	IMPORTANT NOTE - During the transition to our new Vehicle Ordering System, descriptions in Netstar for option codes are showing inaccurate. The Dealer Ordering Guide is the correct resource for the name and description of all option, upholstery, package, trim, paint, and wheel codes. MBUSA is aware of this ongoing issue and is working to resolve as quickly as possible.
08/30/2022	D16 LED Logo Projectors Currently Unavailable: Availability in Q2 2023
05/31/2022	Initial Publication of the AMG DOG
05/26/2022	Update: Nappa Leather codes-801: Black Nappa Leather is no longer available for ordering.
05/19/2022	Update: Nappa Leather codes-895: Deep White/Black Naapa Leather and 897: Classic Red/ Black Nappa Leather are no longer available for ordering.
03/30/2022	Initial Publication

What's New

E53A4

Standard Equipment

- **Adaptive Highbeam Assist**

Standard Equipment

- **Nappa Leather**

Optional Equipment

- **Starling Blue Metallic (970) replaces Brilliant Blue**
- **Starling Blue Magno (593) replaces Brilliant Blue Magno**
- **Moonlight White Metallic (885) replaces Diamond White Metallic**

Models

E53A4 (238.461)

- MSRP: TBD
- Transmission: AMG SPEEDSHIFT TCT 9G (9 speed)
- Acceleration 0-60 mph (sec): 4.4 (est.)
- Engine Configuration: AMG-enhanced 3.0L inline-6 turbo with Electric Starter-Generator & Electric Aux. Compressor
- Power (hp; Internal Combustion Engine only): 429 @ 6,100
- Torque (lb-ft; Internal Combustion Engine only): 384 @ 1,800 - 5,800
- Launch Date: TBD

Standard Equipment

E53A4

Performance & Handling

- AMG-enhanced 3.0L Inline-6 Turbo Engine with Electric Starter-Generator and Electric Aux. Compressor
- Electric Auxiliary Compressor
- AMG DYNAMIC SELECT
- Rear Spoiler
- AMG Drive Unit Steering Wheel Buttons
- AMG SPEEDSHIFT TCT 9G Transmission (Torque Converter Transmission)
- 19" AMG Wheels
- AMG Sport Suspension based on AIR BODY CONTROL
- Steering Wheel Mounted Shift Paddles

Comfort & Convenience

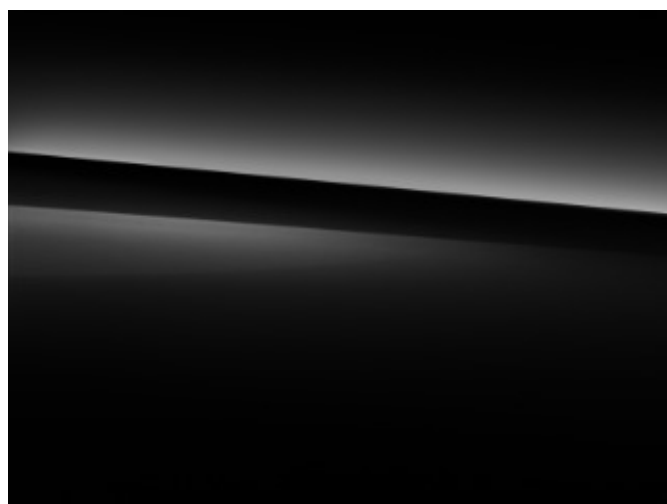

- 12.3" Widescreen Instrument Cluster
- MBUX Infotainment and Navigation System
- Burmester® Surround Sound System
- Smartphone integration with Apple CarPlay™ & Android Auto
- Inductive Wireless Charging w/ NFC Pairing
- LED Headlamps and Taillamps
- 64-Color Ambient Lighting
- Power Heated Front Seats w/ Memory & Lumbar Support
- AIRSCARF®
- Power Folding Mirrors
- KEYLESS-GO w/ HANDS-FREE ACCESS trunk opening
- Garage Door Opener
- Auto-Dimming Driver-Side and Rearview Mirrors
- AMG Illuminated Door Sills
- Dual USB-C ports in rear
- Electric trunk partition
- 12.3" Infotainment Screen w/ touch functionality
- "Hey Mercedes" Voice Control
- Bluetooth® Connectivity
- SiriusXM® Radio All-Access w/ Trial Period
- AMG Performance Steering Wheel in Nappa Leather
- Fabric Acoustic Soft Top
- Dual Zone Automatic Climate Control
- AIRCAP®
- Split folding rear seats (50/50)
- KEYLESS-START
- Mercedes me connect
- 0 MAGIC VISION CONTROL®
- Storage Package
- Heated Steering Wheel
- Automatic seatbelt extender
- Adaptive Highbeam Assist

Safety & Security

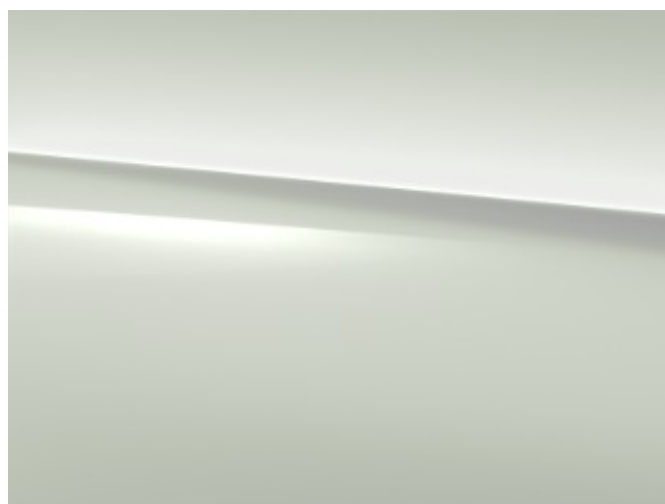

- Active Brake Assist
- Blind Spot Assist
- eCall-emergency system
- PRE-SAFE®
- Anti-Theft Alarm System
- Surround-View Camera
- Rear seat side air bags
- ATTENTION ASSIST®
- Car-to-X Communication
- Extended Mobility Tires
- PRE-SAFE Sound
- Parking Damage Detector
- Active Parking Assist

Specifications

E53A4

Chassis

Vehicle Type Two-door, four-passenger cabriolet

Chassis & Body Construction Steel unibody with aluminum and steel body panels

Suspension

Front Suspension Independent multi-link suspension with air spring, single-tube shock absorber with continuously adjustable damping and torsion bar

Rear Suspension Independent multi-link suspension with air spring, single-tube shock absorber with continuously adjustable damping and tubular torsion bar

Drivetrain

Transmission AMG SPEEDSHIFT TCT 9G (9 speed)

Drive Configuration AMG Performance 4MATIC+ all-wheel drive with variable torque distribution

Wheels and Tires

Standard Wheel Size Front: 19" x 8" / Rear: 19" x 9"

Standard Tire Size Front: 245/40 ZR19 / Rear: 275/35 ZR19

Standard Wheel Offset (mm) Front: ET 20 / Rear: ET 49

Brakes

Front Brakes 14.6" rotors with 4-piston calipers

Rear Brakes 14.2" rotors with single-piston calipers

Engine

Engine Configuration AMG-enhanced 3.0L inline-6 turbo with Electric Starter-Generator & Electric Aux. Compressor

Displacement (cc) 2,999

Bore (in / mm) 3.27 / 83.0

Stroke (in / mm) 3.64 / 92.4

Compression Ratio 10.5 : 1

Power (hp; Internal Combustion Engine only) 429 @ 6,100

Torque (lb-ft; Internal Combustion Engine only) 384 @ 1,800 - 5,800

EQ Boost Starter/Alternator Power & Torque 21 hp / 184 lb-ft

Fuel Requirement (Octane) 91

Fuel Tank Size (gallons) 17.4

Redline (rpm) 6,800

Performance

Acceleration 0-60 mph (sec) 4.4 (est.)

Top Speed (mph) 130 w/ R02 Tire; 155 w/ R01 Tire (both electronically limited)

Fuel Economy

City Fuel Economy (mpg) TBD

Highway Fuel Economy (mpg) TBD

Combined Fuel Economy (mpg) TBD

Exterior Dimensions

Vehicle Length (in.) 190.6

Vehicle Height (in.) 56.2

Vehicle Width w/ exterior mirrors (in.) 80.9

Wheelbase (in.) 113.1

Curb Weight (lbs) TBD

Track Width Front/Rear (in.) 64.1 / 62.8

Interior Dimensions

Cargo Capacity 9.5

Options In Detail

AMG-enhanced 3.0L Inline-6 Turbo Engine w/ Electric Starter-Generator and Electric Auxiliary Compressor (M256)

The M256 engine found in AMG "53" models provides exceptional power output thanks to exciting new technologies:

- The M256 utilizes a 48V system to provide power to the electric water pump, AC compressor, Electric Auxiliary Compressor. With these components now being electrified, the engine is now fully beltless, reducing wearable parts.
- Makes use of the stored electric power from the 48V battery with an "Integrated Starter-Generator" which combines the starter and alternator in a powerful electric motor which is positioned between the engine and transmission. This unit assists the internal combustion engine with up to 21 hp and 184 lb-ft of torque at low engine speeds.
 - Please note that this boost in hp / torque never impacts the certified peak power figures, as the boost is generated at such low engine speeds, and only for brief periods of time.
- On overrun, the system is able to recover up to 80 percent of the energy to the 48V battery.
- The engine is able to start very quietly by utilizing stored power in the 48V battery. ECO Start/Stop is also almost imperceptible now that it uses the system.
 - Please note that the 48V battery is small- it is a little less than 1 kWh in capacity.
- The conventional 12V battery is still used by the vehicle and is charged by the 48V battery. Most electrical vehicle components remain wired for 12V and thus, the 12V battery is used to provide power for cabin lights, exterior lighting, the multimedia system, etc.

Electric Auxiliary Compressor:

- This new engine component (exclusive to the "53" models) is able to assist in spooling the engine's exhaust-gas-driven turbocharger quickly and effectively at low-to-mid RPMs. Able to get up to speeds of 70,000 RPMs within less than a third of a second, the eAC is extremely quick to provide added boost. This allows a much larger turbocharger to be employed in this version of the M256. In some cases, boost from the Electric Auxiliary Compressor is able to be routed directly to the engine itself.
- In one minute, the Electric Auxiliary Compressor is able to function three times for two seconds, or one time for 15 seconds.

AMG Drive Unit Steering Wheel Buttons (U88): Standard

The AMG Performance Steering Wheel is equipped with a round controller with an integral display beneath the right-hand steering wheel spokes, plus a second round display with two integrated buttons beneath the left-hand steering-wheel spokes.

The round display allows for easy adjustment of the AMG DYNAMIC SELECT Drive Mode

The second round display offers configurable hot-keys to adjust two key parameters, i.e. a switch to Manual transmission mode (or to Automatic shifting) or a switch from the Comfort exhaust setting to the more emotional Sport setting

These buttons allow the driver to concentrate fully on dynamic driving without having to take their hands off the wheel in order to change performance-oriented vehicle settings

AMG Night Package (DC1): \$TBD

With striking design elements in black, the Night package underscores the already sporty, expressive character of the vehicle. In addition to high-gloss black trim elements on the front and rear apron, a further highlight includes the two black chrome-plated round tailpipe trim elements in a 4-pipe trim element look.

AMG Night Package Contents

- AMG front bumper with front splitter in high-gloss black
- Mountings on the louvers of the outer air intakes in high-gloss black
- AMG rear bumper with trim in high-gloss black
- Two black chrome-plated round tailpipe trim elements in a 4-pipe trim element look

AMG Exterior Carbon Fiber Package (DC4): \$TBD

High-performance material meets high-performance car: the striking carbon-fiber elements for the exterior underscore the performance credentials of your Mercedes-AMG. The fixed rear spoiler and the exterior mirror housings in carbon fiber are visible from afar and lend your vehicle an even sportier appearance from any angle.

AMG Exterior Carbon Fiber Package Contents

- Exterior mirror housing in carbon fiber
- Spoiler Lip in carbon fiber

Steering Wheels

AMG Performance Steering Wheel in Nappa Leather (L6J)

Standard

The AMG Performance Steering Wheel in Nappa Leather is especially sporty with easy grip, providing genuine racing flair.

AMG Performance Steering Wheel in Nappa Leather / Microfiber (L6K)

Optional: \$TBD

Sporty design and unique touch & feel make the AMG Performance Steering Wheel an unmistakable feature in Nappa Leather with the grip area in Microfiber.

The AMG Performance Steering Wheel is equipped with a round controller with an integral display beneath the right-hand steering wheel spokes, plus a second round display with two integrated buttons beneath the left-hand steering-wheel spokes.

The round display allows for easy adjustment of the AMG DYNAMIC SELECT Drive Mode

The second round display offers configurable hot-keys to adjust two key parameters, i.e. a switch to Manual transmission mode (or to Automatic shifting) or a switch from the Comfort exhaust setting to the more emotional Sport setting

These buttons allow the driver to concentrate fully on dynamic driving without having to take their hands off the wheel in order to change performance-oriented vehicle settings

MBUX Infotainment and Navigation System

The Mercedes-Benz User Experience infotainment system (MBUX) found in the E-Class is the latest and most advanced user experience system implemented in a Mercedes vehicle to date. Featuring a touchscreen, touchpad on the center console, touch-control buttons on the steering wheel and an advanced voice control system / virtual assistant ("Hey Mercedes"), MBUX provides occupants of the E with an immersive user experience both inside and outside the vehicle.

A unique feature of this system is its ability to learn thanks to artificial intelligence. MBUX can be individualized and adapts to suit the user. It thus creates an emotional connection between the vehicle, driver and passengers. At the same time updates "over the air" are possible. It also heralds a new era at Mercedes me Connectivity.

The MBUX system features two large 12.3" screens as standard, which are arranged in-line with each other for an impressive widescreen look. The information of the Instrument Cluster Display and the multimedia display is easily legible on the large, high-resolution screens.

MBUX Interior Assistant (77B): \$TBD

Omits sunglasses holder

The advanced 3D camera system makes operation easier for driver and front passenger by identifying when their hand is approaching and by providing lighting assistance and quick access to favourites. For this it assesses your hand movements in the area between the media display and touchpad. In practice this means: as soon as your hand gets close to the touchscreen or touchpad, the MBUX Interior Assist enlarges certain control elements on the media display or highlights them. This applies to the menus for the home screen, radio/media, map navigation, Active Parking Assist and seat adjustment.

The advantages: in the case of the active seat menu, the functions for the driver or front passenger seat are shown immediately. The desired seat is preselected by the assistant. With active parking assistance, you can quickly switch between different camera views. Especially elegant: to call up your personal favourites menu, simply make a "V" with your index and middle fingers. In the dark, you can switch on the reading lamp without wasting time fumbling around by moving your hand up and down near the underside of the rear-view mirror. By repeating this gesture, you can also just as easily switch the reading lamp off again. Or you can activate the search light by pulling for the unoccupied front passenger seat. As soon as you pull your hand back again, the light is switched off again.

"Hey Mercedes" Virtual Assistant

Experience and enjoy voice control at a fascinating new level - fixed commands are a thing of the past. Thanks to its comprehension of natural speech, the LINGUATRONIC in MBUX obeys practically every word. It recognises and understands almost every sentence occurring in the infotainment functions and vehicle operation. The system can also process indirect speech - the air conditioning for example will already respond to "I feel cold" and gradually increase the temperature setting.

At the same time the voice control also has learning capability. It attunes itself to your voice, and also understands non-native speakers better. The software models on the server also learn new in-words or changes in use of language over time. Moreover, the system no longer gives stereotyped answers, but also varies its speech output. Another advantage is that if you enter characters on the touchpad, LINGUATRONIC can output them acoustically if you wish.

Your mood is always the main focus. Individually stored theme displays include the DYNAMIC SELECT driving modes, radio stations, optional ambience lighting and much more. The so-called predictive functions are even more personal - for example: a driver who frequently telephones his mother on the way home on Tuesdays will be prompted to do so on that day of the week by the telephone number appearing in the display. This artificial intelligence gradually turns the car into your personal assistant.
